Free Speech and Unfree News Sam Lebovic, 2016-03-14 Does America have a free press Many who answer yes appeal to First Amendment protections that shield the press from government censorship But in this comprehensive history of American press freedom as it has existed in theory law and practice Sam Lebovic shows that on its own the right of free speech has been insufficient to guarantee a free press Lebovic recovers a vision of press freedom prevalent in the mid twentieth century based on the idea of unfettered public access to accurate information This right to the news responded to persistent worries about the quality and diversity of the information circulating in the nation s news Yet as the meaning of press freedom was contested in various arenas

Supreme Court cases on government censorship efforts to regulate the corporate newspaper industry the drafting of state secrecy and freedom of information laws the unionization of journalists and the rise of the New Journalism Americans chose to define freedom of the press as nothing more than the right to publish without government censorship The idea of a public right to all the news and information was abandoned and is today largely forgotten Free Speech and Unfree News compels us to reexamine assumptions about what freedom of the press means in a democratic society and helps us make better sense of the crises that beset the press in an age of aggressive corporate consolidation in media industries an increasingly secretive national security state and the daily newspaper s continued decline **Normal Instructor and Primary Plans** ,1921

even if we don't participate that is how we participate but by which we're continually surprised, betrayed, enriched, befuddled. We have churned through platforms and technologies and in turn been churned by them. And yet the internet is us and always has been. In Lurking Joanne McNeil digs deep and identifies the primary if sometimes contradictory concerns of people online: searching, safety, privacy, identity, community, anonymity, and visibility. She charts what it is that brought people online and what keeps us here even as the social equations of digital life, what we're made to trade knowingly or otherwise for the benefits of the internet, have shifted radically beneath us. It is a story we are accustomed to hearing as tales of entrepreneurs and visionaries and dynamic and powerful corporations, but there is a more profound, intimate story that hasn't yet been told. Long, one of the most incisive, ferociously intelligent and widely respected cultural critics online, McNeil here establishes a singular vision of who we are now, tells the stories of how we became us, and helps us start to figure out what we do now. *Federal Register*, 2013-05. [Borderless Africa](#) Francis Mangeni, Andrew Mold, 2024-04-18. The African Continental Free Trade Area established in 2018 represented a monumental step forward for Africa in terms of meeting longstanding aspirations for greater economic and political integration. But it has nonetheless been met with scepticism in some quarters both within the continent and beyond. Borderless Africa makes the case for the AfCFTA in an accessible and compelling way without shying away from technical and academic debates. Francis Mangeni and Andrew Mold take us on a journey through the different dimensions and implications of the AfCFTA, the largest free trade zone in the world, starting with its underlying economic rationale. Pointing to the numerous historical examples of successful regional integration, they argue that the African continent will need to take on board such lessons as the agreement is implemented. They discuss too the more controversial elements of the AfCFTA, including the freedom of movement protocol, contending that this should not be seen as an optional extra but as an intrinsic part of the accord. Also exploring the role of external partners in the construction of an economically stronger, more united Africa, this fascinating study reveals how the AfCFTA is contributing to sustainable development across the continent.
