From Virgin Land to Disney World ,2016-08-22 With the publication in English in 1930 of Civilization and its Discontents and its thesis that instinct and ultimately nature had been and must be forever subordinated in order that civilization might thrive and endure Freud contributed what some contemporaries saw to the central debate of his era a debate which had long preoccupied both official American pundits and the American populace at large At the beginning of the new Millennium evidence abounds that an American debate still rages over the meaning of nature the rightful weight of instinct and the status of civilization The Millennium itself has appeared in popular and official discourses as an appropriate marker of an age in which nature is close to the edge of radical extinction and has also become more and more unreliable as a paradigm for representation and debate At the same time the contemporary tailoring of nature to postmodern needs and expectations inevitably reveals the conceptual difficulty of any possible simple opposition between nature and culture as if they were clearly distinguishable domains If nature then can clearly be seen as a discursive concept it may also be a timeless concept insofar that it has been shaped created and used at all times Every epoch age and era had its own nature with myth history and ideology as its dominant shaping forces From the Frontier to Cyberia nature has been suffering the agony of the real resurfacing in discursive strategies and demonstrating a powerful impact on American society culture and self definition The essays in this collection speak critically of the natural and examine the American debate in the many guises it has assumed over the last century within the context of major critical approaches psychoanalytical concepts and postmodern theorizing

Out of Style Paul Butler,2008-01-31 Paul Butler applauds the emerging interest in the study of style among scholars of rhetoric and composition arguing that the loss of stylistics from composition in recent decades left it alive only in the popular imagination as a set of grammar conventions Butler s goal in *Out of Style* is to articulate style as a vital and productive source of invention and to redefine its importance for current research theory and pedagogy Scholars in composition know that the ideas about writing most common in the discourse of public intellectuals are egregiously backward Without a vital approach to stylistics Butler argues writing studies will never dislodge the controlling fantasies of self authorized pundits in the nation s intellectual press Rhetoric and composition must answer with a public discourse that is responsive to readers ongoing interest in style but is also grounded in composition theory
