Never Work Harder Than Your Students and Other Principles of Great Teaching Mar 30 2024 Is great teaching a gift that only a few of us are born with, or is it a skill that can be learned? In *Never Work*

Harder Than Your Students, Robyn Jackson makes a radical assertion: Any teacher can become a master teacher by developing a master teacher mindset. The master teacher mindset can be achieved by rigorously applying seven principles to your teaching until they become your automatic response to students in the classroom. The more you practice these seven principles, the more you begin to think like a master teacher: 1. Start where your students are. 2. Know where your students are going. 3. Expect to get your students to their goal. 4. Support your students along the way. 5. Use feedback to help you and your students get better. 6. Focus on quality rather than quantity. 7. Never work harder than your students. Using these principles, Jackson shows you how to become a master teacher no matter where you are in your practice. Each chapter provides a detailed explanation of one of the mastery principles, the steps you need to take to apply them to your own practice, and suggestions for how you can begin practicing the principle in your classroom right away. Jackson offers stories from her own teaching practice, as well as from other teachers she has helped, to show you how each principle works. Teaching is a hard job, but using Jackson's principles will help you and your students reap the rich rewards of that hard work.

Doing Anthropology in Consumer Research Apr 30 2024 *Doing Anthropology in Consumer Research* is the essential guide to the theory and practice of conducting ethnographic research in consumer environments. Patricia Sunderland and Rita Denny argue that, while the recent explosion in the use of "ethnography" in the corporate world has provided unprecedented opportunities for anthropologists and other qualitative researchers, this popularization too often results in shallow understandings of culture, divorcing ethnography it from its foundations. In response, they reframe the field by re-attaching ethnography to theoretically robust and methodologically rigorous cultural analysis. The engrossing text draws on decades of the authors' own eclectic research—from coffee in Bangkok and boredom in New Zealand to computing in the United States—using methodologies from focus groups and rapid appraisal to semiotics and visual ethnography. Five provocative forewords by leaders in consumer research further push the boundaries of the field and challenge the boundaries of academic and applied work. In addition to reorienting the field for academics and practitioners, this book is an ideal text for students, who are increasingly likely to both study and work in corporate environments.

Brown Beauty Oct 25 2023 Examines how the media influenced ideas of race and beauty among African American women from the Harlem Renaissance to World War II. Between the Harlem Renaissance and the end of World War II, a complicated discourse emerged surrounding considerations of appearance of African American women and expressions of race, class, and status. *Brown Beauty* considers how the media created a beauty ideal for these women, emphasizing different representations and expressions of brown skin. Haidarali contends that the idea of brown as a "respectable shade" was carefully constructed through print and visual media in the interwar era. Throughout this period, brownness of skin came to be idealized as the real, representational, and respectable complexion of African American middle class women. Shades of brown became channels that facilitated discussions of race, class, and gender in a way that would develop lasting cultural effects for an ever-modernizing world. Building on an impressive range of visual and media sources—from newspapers, journals, magazines, and newsletters to commercial advertising—Haidarali locates a complex, and sometimes contradictory, set of cultural values at the core of representations of women, envisioned as "brown-skin." She explores how brownness affected socially-mobile New Negro women in the urban environment during the interwar years, showing how the majority of messages on brownness were directed at an aspirant middle-class. By tracing brown's changing meanings across this period, and showing how a visual language of brown grew into a dynamic racial shorthand used to denote modern African American womanhood, *Brown Beauty* demonstrates the myriad values and judgments, compromises and contradictions involved in the social evaluation of women. This book is an eye-opening

Picturing Political Power Jan 16 2023 "For as long as American women have battled for equitable political representation, those battles have been defined by images--whether drawn, etched, photographed, or filmed. Some of these have been flattering, many of them have been condescending, and some have been scabrous. They have drawn upon prevailing cultural tropes about the perceived nature of women's roles and abilities, and they have circulated both with and without conscious political objectives. Allison K. Lange takes a systematic look at American women's efforts to control the production and dissemination of images of them in the long battle for representation, from the mid-nineteenth-century onward"--

The Films of Mira Nair Nov 25 2023 *The Films of Mira Nair: Diaspora Vérité* presents the first, full-length scholarly study of her cinema. Mira Nair has broken new ground as both a feminist filmmaker and an Indian filmmaker. Several of her works, especially those related to the South Asian diaspora, have been influential around the globe. Amardeep Singh delves into the complexities of Nair’s films from 1981 to 2016, offering critical commentary on all of Nair’s major works, including her early documentary projects as well as shorts. The subtitle, “diaspora vérité,” alludes to Singh’s primary theme: Nair’s filmmaking project is driven aesthetically by her background in the documentary realist tradition (cinéma vérité) and thematically by her interest in the lives of migrants and diasporic populations. Mainly, Nair’s filmmaking intends to document imaginatively the experiences of diasporic communities. Nair’s focus on the diasporic appears in the long list of her films that have explored the subject, such as *Mississippi Masala*, *So Far from India*, *Monsoon Wedding*, *The Perez Family*, *My Own Country*, *The Namesake*, and *The Reluctant Fundamentalist*. However, a version of the diasporic sensibility also emerges even in films with an apparently different scope, such as Nair’s adaptation of Thackeray’s *Vanity Fair*. Nair began her career as a documentary filmmaker in the early 1980s. While Nair now has largely moved away from the documentary format in favor of making fictional feature films, Singh shows that a documentary realist style remains active in her subsequent fictional cinema.

Reconstructing Southern Rhetoric Jan 28 2024 Contributions by Whitney Jordan Adams, Wendy Atkins-Sayre, Jason Edward Black, Patricia G. Davis, Cassidy D. Ellis, Megan Fitzmaurice, Michael L. Forst, Jeremy R. Grossman, Cynthia P. King, Julia M. Medhurst, Ryan Neville-Shepard, Jonathan M. Smith, Ashli Quesinberry Stokes, Dave Tell, and Carolyn Walcott Southern rhetoric is communication’s oldest regional

study. During its initial invention, the discipline was founded to justify the study of rhetoric in a field of white male scholars analyzing significant speeches by other white men, yielding research that added to myths of Lost Cause ideology and a uniquely oratorical culture. *Reconstructing Southern Rhetoric* takes on the much-overdue task of reconstructing the way southern rhetoric has been viewed and critiqued within the communication discipline. The collection reveals that southern rhetoric is fluid and migrates beyond geography, is constructed in weak counterpublic formation against legitimated power, creates a region that is not monolithic, and warrants activism and healing. Contributors to the volume examine such topics as political campaign strategies, memorial and museum experiences, television and music influences, commemoration protests, and ethnographic experiences in the South. The essays cohesively illustrate southern identity as manifested in various contexts and ways, considering what it means to be a part of a region riddled with slavery, Jim Crow laws, and other expressions of racial and cultural hierarchy. Ultimately, the volume initiates a new conversation, asking what southern rhetorical critique would be like if it included the richness of the southern culture from which it came.

Same Family, Different Colors Jun 20 2023 Weaving together personal stories, history, and analysis, *Same Family, Different Colors* explores the myriad ways skin-color politics affect family dynamics in the United States. Colorism and color bias—the preference for or presumed superiority of people based on the color of their skin—is a pervasive and damaging but rarely openly discussed phenomenon. In this unprecedented book, Lori L. Tharps explores the issue in African American, Latino, Asian American, and mixed-race families and communities by weaving together personal stories, history, and analysis. The result is a compelling portrait of the myriad ways skin-color politics affect family dynamics in the United States. Tharps, the mother of three mixed-race children with three distinct skin colors, uses her own family as a starting point to investigate how skin-color difference is dealt with. Her journey takes her across the country and into the lives of dozens of diverse individuals, all of whom have grappled with skin-color politics and speak candidly about experiences that sometimes scarred them. From a Latina woman who was told she couldn’t be in her best friend’s wedding photos because her dark skin would “spoil” the pictures, to a light-skinned African American man who spent his entire childhood “trying to be Black,” Tharps illuminates the complex and multifaceted ways that colorism affects our self-esteem and shapes our lives

and relationships. Along with intimate and revealing stories, Sharps adds a historical overview and a contemporary cultural critique to contextualize how various communities and individuals navigate skin-color politics. Groundbreaking and urgent, *Same Family, Different Colors* is a solution-seeking journey to the heart of identity politics, so that this more subtle “cousin to racism,” in the author’s words, will be exposed and confronted.

[The Paper Bag Principle](#) Jun 01 2024 *The Paper Bag Principle: Class, Colorism, and Rumor in the Case of Black Washington, D.C.* considers the function of oral history in shaping community dynamics among African American residents of the nation's capitol. The only attempt to document rumor and legends relating to complexion in black communities, *The Paper Bag Principle* looks at the divide that has existed between the black elite and the black “folk.” *The Paper Bag Principle* focuses on three objectives: to record lore related to the “paper bag principle” (the set of attitudes that granted blacks with light skin higher status in black communities); to investigate the impact that this “principle” has had on the development of black community consciousness; and to link this material to power that results from proximity to whiteness. *The Paper Bag Principle* is sure to appeal to scholars and historians interested in African American studies, cultural studies, oral history, folklore, and ethnic and urban studies.

[Affirming Identity, Advancing Belonging, and Amplifying Voice in Sororities and Fraternities](#) Feb 27 2024

In the wake of the #AbolishGreekLife and other calls for racial justice, the role of identity development also becomes ever increasingly important as we consider how to make the sorority/fraternity more inclusive for our students. In the end, it may really be the power of inclusion on college campuses that leads to many of the educational goals that we yearn for in student growth: the formal and informal social interactions, bonded in reflective learning, that help build social and academic success. In this we can celebrate together, especially those of us who have romanticized so many “bright college years.” This text is a response to a call for existential exploration as an attempt to critically revivify our understanding of the sorority/fraternity experience as it contributes specifically to students’ identity development and learning. The text is grouped around centering their experiences through three A’s: Amplifying Voice, Affirming Identity, and Advancing Belonging to highlight the identity experiences of the diverse spectrum of fraternity and sorority members across the intersections of identity so often excluded from the literature. Chapters in this text attempt to foreground how the fraternity/sorority experience explicitly contributes to these areas of student development across multiple identities including race, ethnicity, culture, gender identity, social class, and ability. Authors critically interrogate systems of oppressions that subjugate marginality from those with intersectional identities to recognize the larger challenges facing the sorority/fraternity movement as an attempt to disrupt these systems to better identify influences on identity development. ENDORSEMENTS "Pietro Sasso and associates are leading a game-changing conversation about the impact of fraternity and sorority communal experiences on student identity. Pietro Sasso and the contributing authors of this robust text successfully endeavor to inform practice through critical analysis, framing important questions, and offering pragmatic solutions that are timely, relevant, and practical in both the academy and the fraternal system. This book is a "must-read" for anyone seeking to understand or have a relevant impact on the intersections of sense of belonging, identity development, and sorority & fraternity life." — Jason L. Meriwether, Campbellsville University "In their most recent book examining contemporary sorority and fraternity life, Sasso, Biddix, and Miranda have curated discerning chapters that expand existing scholarship by exploring the impact of fraternity and sorority membership on identity development, belonging, and student voice through critical lenses. This book should be on the bookshelf of

all higher education administrators and faculty." — Gavin Henning, New England College

Before Gentrification Dec 27 2023 Draws a direct line between redlining, incarceration, and gentrification in an American city. This book shows how a century of redlining, disinvestment, and the War on Drugs wreaked devastation on Black people and paved the way for gentrification in Washington, DC. In *Before Gentrification*, Tanya Maria Golash-Boza tracks the cycles of state abandonment and punishment that have shaped the city, revealing how policies and policing work to displace and decimate the Black middle class. Through the stories of those who have lost their homes and livelihoods, Golash-Boza explores how DC came to be the nation's "murder capital" and incarceration capital, and why it is now a haven for wealthy White people. This troubling history makes clear that the choice to use prisons and policing to solve problems faced by Black communities in the twentieth century—instead of investing in schools, community centers, social services, health care, and violence prevention—is what made gentrification possible in the twenty-first. *Before Gentrification* unveils a pattern of anti-Blackness and racial capitalism in DC that has implications for all US cities.
