The Hot Zone Part 2 Study Guide Answers

The Hot Zone Richard Preston, 2012-03-14 The bestselling landmark account of the first emergence of the Ebola virus Now a mini series drama starring Julianna Margulies Topher Grace Liam Cunningham James D Arcy and Noah Emmerich on National Geographic A highly infectious deadly virus from the central African rain forest suddenly appears in the suburbs of Washington D C There is no cure In a few days 90 percent of its victims are dead A secret military SWAT team of soldiers and scientists is mobilized to stop the outbreak of this exotic hot virus The Hot Zone tells this dramatic story giving a hair raising account of the appearance of rare and lethal viruses and their crashes into the human race Shocking frightening and impossible to ignore The Hot Zone proves that truth really is scarier than fiction

The Hot Zone Richard Preston, 1995 Imagine a killer with the infectiousness of the common cold and power of the Black Death Imagine something so deadly that it wipes out 90% of those it touches Imagine an organism against which there is no defence But you don't need to imagine Such a killer exists it is a virus and its name is Ebola The Hot Zone tells what happens when the unthinkable becomes reality when a deadly virus from the rain forests of Africa crosses continents and infects a monkey house ten miles from the White House Ebola is that reality It has the power to decimate the world's population Try not to panic It will be back There is nothing you can do

Crisis in the Red Zone Richard Preston, 2019-07-23 NEW YORK TIMES BESTSELLER An urgent wake up call about the future of emerging viruses and a gripping account of the doctors and scientists fighting to protect us told through the story of the deadly 2013-2014 Ebola epidemic Crisis in the Red Zone reads like a thriller That the story it tells is all true makes it all more terrifying Elizabeth Kolbert Pulitzer Prize winning author of The Sixth Extinction From the 1 bestselling author of The Hot Zone now a National Geographic original miniseries This time Ebola started with a two year old child who likely had contact with a wild creature and whose entire family quickly fell ill and died The ensuing global drama activated health professionals in North America Europe and Africa in a desperate race against time to contain the viral wildfire By the end as the virus mutated into its deadliest form and spread farther and faster than ever before 30 000 people would be infected and the dead would be spread across eight countries on three continents In this taut and suspenseful medical drama Richard Preston deeply chronicles the pandemic in which we saw for the first time the specter of Ebola jumping continents crossing the Atlantic and infecting people in America Rich in characters and conflict physical emotional and ethical Crisis in the Red Zone is an immersion in one of the great public health calamities of our time Preston writes of doctors and nurses in the field putting their own lives on the line of government bureaucrats and NGO administrators moving often fitfully to try to contain the outbreak and of pharmaceutical companies racing to develop drugs to combat the virus He also explores the charged ethical dilemma over who should and did receive the rare doses of an experimental treatment when they became available at the peak of the disaster Crisis in the Red Zone makes clear that the outbreak of 2013-2014 is

a harbinger of further more severe outbreaks and of emerging viruses heretofore unimagined in any country on any continent In our ever more interconnected world with roads and towns cut deep into the jungles of equatorial Africa viruses both familiar and undiscovered are being unleashed into more densely populated areas than ever before The more we discover about the virosphere the more we realize its deadly potential Crisis in the Red Zone is an exquisitely timely book a stark warning of viral outbreaks to come

Preston reports in unprecedented detail on the government's response to the attacks and takes us into the ongoing FBI investigation His story is based on interviews with top level FBI agents and with Dr. Steven Hatfill Jahrling is leading a team of scientists doing controversial experiments with live smallpox
