Twentieth Century China R. Keith Schoppa, 2004 The twentieth century was a time of great change in China for its government economy culture and everyday life It was a period of revolutions and Twentieth Century China chronicles these uprisings with the words and images of the participants The manifesto delivered by Sun Yat sen in 1905 for example details his plan to oust the Manchus an editorial in a student journal encourages the activities of the May Fourth Movement in 1919 a 1933 speech by Chiang Kai shek condemns China s enemies the Communists and the Japanese and the lyrics of a Chinese rock star give voice to the student demonstrations at the end of the 1980s This is the story of the people leaders and followers whose decisions propelled modern Chinese history in erratic directions Mao Zedong s personal physician recalls the phenomenon of the backyard steel furnaces and the changes they brought to the Chinese landscape during Mao s Great Leap Forward a poem written in 1979 expresses anger toward a general who destroyed a kindergarten to build a mansion on its site and the box from the Chinese version of Monopoly introduced in 1987 playfully illustrates the economic reforms of Deng Xiaoping and Jiang Zemin Using a wide variety of primary sources such as official reports and public statements eyewitness and participant accounts newspaper articles political posters cartoons poetry songs and advertisements R Keith Schoppa paints a picture of a society undergoing dramatic changes both political and social Taken together these documents tell a dramatic and often violent tale alternately soaring with hope and plunging into deep despair of a country undergoing a thorough transformation a transformation that affects the world at large Book jacket

Speaking to History Paul A. Cohen, 2009 Paul Cohen shows us again how a master historian works Timothy Brook Professor of History University of Oxford An important work for understanding modern China s desire to shake off its century of shame It takes us to a deeper level of understanding China s sometimes fragile national psyche Ian Johnson The Wall Street Journal Like all of Cohen s work this is a stunningly insightful analysis It is without exaggeration a tour de force opening up a new world for understanding Chinese political culture The book is extraordinarily important Keith Schoppa author of Blood Road The Mystery of Shen Dingyi in Revolutionary China

Women and the Periodical Press in China's Long Twentieth Century Michel Hockx, Joan Judge, Barbara Mittler, 2018-05-24 In this major new collection an international team of scholars examine the relationship between the Chinese women s periodical press and global modernity in the late nineteenth and twentieth centuries The essays in this richly illustrated volume probe the ramifications for women of two monumental developments in this period the intensification of China s encounters with foreign powers and a media transformation comparable in its impact to the current internet age The book offers a distinctive methodology for studying the periodical press which is supported by the development of a bilingual database of early Chinese periodicals Throughout the study essays on China are punctuated by transdisciplinary reflections from scholars working on periodicals outside of the Chinese context encouraging readers to rethink common stereotypes about lived womanhood in modern China and to reconsider the nature of Chinese modernity in a global context

Twentieth-Century Chinese Translation Theory Leo Tak-hung Chan,2004-05-28 Past attempts at writing a history of Chinese translation theory have been bedeviled by a chronological approach which often forces the writer to provide no more than a list of important theories and theorists over the centuries Or they have stretched out to almost every aspect related to translation in China so that the historical political backdrop that had an influence on translation theorizing turns out to be more important than the theories themselves In the present book the author hopes to devote exclusive attention to the ideas themselves The approach adopted centers around eight key issues that engaged the attention of theorists through the course of the twentieth century in the hope that a historical account will be presented that is not time bound On the basis of 38 articles translated into English by teachers and scholars of translation the author has written four essays discussing the Chinese characteristics of this body of theory Separately they focus on the impressionistic the modern the postcolonial and the poststructuralist approaches deployed by leading Chinese theorists from 1901 to 1998 It is hoped that publication of this book will make possible cross cultural dialogue with translation academics in the West although the general reader will find much firsthand information on Chinese thinking about translation

Staging the World Rebecca E. Karl,2002-04-22 In *Staging the World* Rebecca E Karl rethinks the production of nationalist discourse in China during the late Qing period between China s defeat in the Sino Japanese War in 1895 and the proclamation of the Republic in 1911 She argues that at this historical moment a growing Chinese identification with what we now call the Third World first made the modern world visible as a totality and that the key components of Chinese nationalist discourse developed in reference to this worldview The emergence of Chinese nationalism during this period is often portrayed as following from China s position vis vis Japan and the West Karl has mined the archives of the late Qing period to discern the foci of Chinese intellectuals from 1895 to 1911 to assert that even though the China Japan West triangle was crucial it alone is an incomplete and therefore flawed model of the development of nationalism in China Although the perceptions and concerns of these thinkers form the basis of *Staging the World* Karl begins by examining a 1904 Shanghai production of an opera about a fictional partition of Poland and its modern reincarnation as an ethno nation By focusing on the type of dialogue this opera generated in China Karl elucidates concepts such as race colonization globalization and history From there she discusses how Chinese conceptions of nationalism were affected by the discovery of Hawai i as a center of the Pacific the Philippine revolution against the United States and the relationship between nationality and ethnicity made apparent by the Boer War in South Africa

The Literary Field of Twentieth Century China Michel Hockx,2019-05-08 At least since the late nineteenth century onwards Chinese literature as a form of cultural production has been taking place within a specific social space including writers critics journalists editors publishers printers and booksellers Focusing on people as well as on texts and looking at what writers did as well as at what they wrote the essays in this volume draw a vivid and variegated picture of Chinese literary life throughout the modern period The book treats differences between periods but also traces the continuities that have characterised modern Chinese literary practice and its discourses from the beginning to the present including ties of allegiance utilisation of the people and appropriation of the west The book places modern Chinese literature firmly within its socio historical context thereby increasing the reader's awareness of the hidden assumptions behind literary production In doing so it opens new perspectives on Chinese culture as a whole and on literature as a cosmopolitan concept

Biology and Revolution in Twentieth-Century China Laurence A. Schneider,2005 Using the field of genetics as a case study this book follows the troubled development of modern natural science in China from the 1920s through Mao's China to the present post socialist era Through detailed portraits of key scientists and institutions basic dilemmas are explored how to control nature with science how to gain independence from foreign controlled science how to get scientists out from under control of ideology and the state Using the field of genetics as a case study this book follows the troubled development of modern natural science in China from the 1920s through Mao's China to the present post socialist era Through detailed portraits of key scientists and institutions basic dilemmas are explored how to control nature with science how to gain independence from foreign controlled science how to get scientists out from under control of ideology and the state

To the End of Revolution Xiaoyuan Liu,2020-07-07 The status of Tibet is one of the most controversial and complex issues in the history of modern China In To the End of Revolution Xiaoyuan Liu draws on unprecedented access to the archives of the Chinese Communist Party to offer a groundbreaking account of Beijing s evolving Tibet policy during the critical first decade of the People s Republic Liu details Beijing s overarching strategy toward Tibet the last frontier for the Communist revolution to reach He analyzes how China s new leaders drew on Qing and Nationalist legacies as they attempted to resolve a problem inherited from their predecessors Despite acknowledging that religion ethnicity and geography made Tibet distinct Beijing nevertheless forged ahead zealously implementing socialist revolution while vigilantly guarding against real and perceived enemies Seeking to wait out local opposition before choosing to ruthlessly crush Tibetan resistance in the late 1950s Beijing eventually incorporated Tibet into its sociopolitical system The international and domestic ramifications however are felt to this day Liu offers new insight into the Chinese Communist Party s relations with the Dalai Lama ethnic revolts across the vast Tibetan plateau and the suppression of the Lhasa Rebellion in 1959 Placing Beijing s approach to Tibet in the contexts of the Communist Party s treatment of ethnic minorities and China s broader domestic and foreign policies in the early Cold War To the End of Revolution is the most detailed account to date of Chinese thinking and acting on Tibet during the 1950s

Twentieth-century Colonialism and China Bryna Goodman,David S. G. Goodman,2012 Colonialism in China was a piecemeal agglomeration that achieved its greatest extent in the first half of the twentieth century the last edifices falling at the close of the century The diversity of these colonial arrangements across China s landscape defies systematic characterization This book investigates the complexities and subtleties of colonialism in China during the first half of the twentieth century In particular the contributors examine the interaction between localities and forces of globalization that shaped the particular colonial experiences characterizing much of China s experience at this time In the process it is clear that an emphasis on interaction synergy and hybridity can add much to an understanding of colonialism in Twentieth Century China based on the simple binaries of colonizer and colonized of aggressor and victim and of a one way transfer of knowledge and social understanding To provide some kind of order to the analysis the chapters in this volume deal in separate sections with colonial institutions of hybridity colonialism in specific settings the social biopolitics of colonialism colonial governance and Chinese networks in colonial environments Bringing together an international team of experts Twentieth Century Colonialism and China is an essential resource for students and scholars of modern Chinese history and colonialism and imperialism
