A masterful, timely, fully authorized biography of the great and hugely influential biologist and naturalist E. O. Wilson, one of the most ground-breaking and controversial scientists of our time—from the Pulitzer Prize-winning author of *The Making of the Atomic Bomb* “An impressive account of one of the 20th century’s most prominent biologists, for whom the natural world is ‘a sanctuary and a realm of boundless adventure; the fewer the people in it, the better.’” —The New York Times Book Review Few biologists in the long history of that science have been as productive, as ground-breaking and as controversial as the Alabama-born Edward Osborne Wilson. At 91 years of age he may be the most eminent American scientist in any field. Fascinated from an early age by the natural world in general and ants in particular, his field work on them and on all social insects has vastly expanded our knowledge of their many species and fascinating ways of being. This work led to his 1975 book *Sociobiology*, which created an intellectual firestorm from his contention that all animal behavior, including that of humans, is governed by the laws of evolution and genetics. Subsequently Wilson has become a leading voice on the crucial importance to all life of biodiversity and has worked tirelessly to synthesize the fields of science and the humanities in a fruitful way. Richard Rhodes is himself a towering figure in the field of science writing and he has had complete and unfettered access to Wilson, his associates, and his papers in writing this book. The result is one of the most accomplished and anticipated and urgently needed scientific biographies in years. **NEW YORK TIMES BESTSELLER** • An essential volume for generations of writers young and old. The twenty-fifth anniversary edition of this modern classic will continue to spark creative minds for years to come. Anne Lamott is “a warm, generous, and hilarious guide through the writer’s world and its treacherous swamps” (Los Angeles Times). “Superb writing advice.... Hilarious, helpful, and provocative.” —The New York Times Book Review For a quarter century, more than a million readers—scribes and scribblers of all ages and abilities—have been inspired by Anne Lamott’s hilarious, big-hearted, homespun advice. Advice that begins with the simple words of wisdom passed down from Anne’s father—also a writer—in the iconic passage that gives the book its title: “Thirty years ago my older brother, who was ten years old at the time, was trying to get a report on birds written that he’d had three months to write. It was due the next day. We were out at our family cabin in Bolinas, and he was at the kitchen table close to tears, surrounded by binder paper and pencils and unopened books on birds, immobilized by the hugeness of the task ahead. Then my father sat down beside him, put his arm around my brother’s shoulder, and said, ‘Bird by bird, buddy. Just take it bird by bird.’” *Study & Master Physical Sciences Grade 12* has been especially developed by an experienced author team for the Curriculum and Assessment Policy Statement (CAPS). Through film composer Henry Mancini, mere background music in movies became part of pop culture—an expression of sophistication and wit with a modern sense of cool and a lasting lyricism that has not dated. The first comprehensive study of Mancini's music, *Henry Mancini: Reinventing Film Music* describes how the composer served as a bridge

between the Big Band period of World War II and the impatient eclecticism of the Baby Boomer generation, between the grand formal orchestral film scores of the past and a modern American minimalist approach. Mancini's sound seemed to capture the bright, confident, welcoming voice of the middle class's new efficient life: interested in pop songs and jazz, in movie and television, in outreach politics but also conventional stay-at-home comforts. As John Caps shows, Mancini easily combined it all in his music. Mancini wielded influence in Hollywood and around the world with his iconic scores: dynamic jazz for the noirish detective TV show *Peter Gunn*, the sly theme from *The Pink Panther*, and his wistful folk song "Moon River" from *Breakfast at Tiffany's*. Through insightful close readings of key films, Caps traces Mancini's collaborations with important directors and shows how he homed in on specific dramatic or comic aspects of the film to create musical effects through clever instrumentation, eloquent musical gestures, and meaningful resonances and continuities in his scores. Accessible and engaging, this fresh view of Mancini's oeuvre and influence will delight and inform fans of film and popular music. John Caps is an award-winning writer and producer of documentaries. He served as producer, writer, and host for four seasons of the National Public Radio syndicated series *The Cinema Soundtrack*, featuring interviews with and music of film composers. He lives in Baltimore, Maryland. From one of the most beloved and bestselling authors in the English language, a vivid, nostalgic and utterly hilarious memoir of growing up in the middle of the United States in the middle of the last century. A book that delivers on the promise that it is "laugh-out-loud funny." Some say that the first hints that Bill Bryson was not of Planet Earth came from his discovery, at the age of six, of a woollen jersey of rare fineness. Across the moth-holed chest was a golden thunderbolt. It may have looked like an old college football sweater, but young Bryson knew better. It was obviously the Sacred Jersey of Zap, and proved that he had been placed with this innocuous family in the middle of America to fly, become invisible, shoot guns out of people's hands from a distance, and wear his underpants over his jeans in the manner of Superman. Bill Bryson's first travel book opened with the immortal line, "I come from Des Moines. Somebody had to." In this hilarious new memoir, he travels back to explore the kid he once was and the weird and wonderful world of 1950s America. He modestly claims that this is a book about not very much: about being small and getting much larger slowly. But for the rest of us, it is a laugh-out-loud book that will speak volumes - especially to anyone who has ever been young. We all have treasured possessions—a favorite pair of shoes, a much-beloved chair, an ever-expanding record collection. But sometimes, this emotional attachment to our belongings can spiral out of control and culminate into a condition called compulsive hoarding. From hobbyists and collectors to pack rats and compulsive shoppers—it is close to impossible for hoarders to relinquish their precious objects, even if it means that stuff takes over their lives and their homes. According to psychologist Dr. Robin Zasio, our fascination with hoarding stems from the fact that most of us fall somewhere on the hoarding continuum. Even though it may not regularly interfere with our everyday lives, to some degree or another, many of us hoard. *The Hoarder In You* provides practical advice for decluttering and organizing, including how to tame the emotional pull of acquiring additional things, make order out of chaos by getting a handle on clutter, and create an organizational system that reduces stress and anxiety. Dr. Zasio also shares some of the most serious cases of hoarding that she's encountered, and explains how we can learn from these extreme examples—no matter where we are on the hoarding continuum. Explanations to the inner workings of one of the least understood, but arguably most important, areas of business finance is offered to readers in this engaging volume: venture capital. This book is a must-have for any reader interested in the business world. WINNER OF THE PULITZER PRIZE FOR FICTION NEW YORK TIMES TOP 10 BOOKS OF 2010

The opioid crisis in the United States has come about because of excessive use of these drugs for both legal and illicit purposes and unprecedented levels of consequent opioid use disorder (OUD). More than 2 million people in the United States are estimated to have OUD, which is caused by prolonged use of prescription opioids, heroin, or other illicit opioids. OUD is a life-threatening condition associated with a 20-fold greater risk of early death due to overdose, infectious diseases, trauma, and suicide. Mortality related to OUD continues to escalate as this public health crisis gathers momentum across the country, with opioid overdoses killing more than 47,000 people in 2017 in the United States. Efforts to date have made no real headway in stemming this crisis, in large part because tools that already exist—like evidence-based medications—are not being deployed to maximum impact. To support the dissemination of accurate patient-focused information about treatments for addiction, and to help provide scientific solutions to the current opioid crisis, this report studies the evidence base on medication assisted treatment (MAT) for OUD. It examines available evidence on the range of parameters and circumstances in which MAT can be effectively delivered and identifies additional research needed. 2015 Washington Post Notable Book

The Complete Works of Primo Levi, which includes seminal works like *If This Is a Man* and *The Periodic Table*, finally gathers all fourteen of Levi's books—memoirs, essays, poetry, commentary, and fiction—into three slipcased volumes. Primo Levi, the Italian-born chemist once described by Philip Roth as that “quicksilver little woodland creature enlivened by the forest's most astute intelligence,” has largely been considered a heroic figure in the annals of twentieth-century literature for *If This Is a Man*, his haunting account of Auschwitz. Yet Levi's body of work extends considerably beyond his experience as a survivor. Now, the transformation of Levi from Holocaust memoirist to one of the twentieth century's greatest writers culminates in this publication of *The Complete Works of Primo Levi*. This magisterial collection finally gathers all of Levi's fourteen books—memoirs, essays, poetry, and fiction—into three slip-cased volumes. Thirteen of the books feature new translations, and the other is newly revised by the original translator. Nobel laureate Toni Morrison introduces Levi's writing as a “triumph of human identity and worth over the pathology of human destruction.” The appearance of this historic publication will occasion a major reappraisal of “one of the most valuable writers of our time” (Alfred Kazin). *The Complete Works of Primo Levi* features all new translations of: *The Periodic Table*, *The Drowned and the Saved*, *The Truce*, *Natural Histories*, *Flaw of Form*, *The Wrench*, *Lilith*, *Other People's Trades*, and *If Not Now, When?*—as well

as all of Levi's poems, essays, and other nonfiction work, some of which have never appeared before in English. The long-awaited autobiography of Keith Richards, guitarist, songwriter, singer, and founding member of the Rolling Stones. With The Rolling Stones, Keith Richards created the songs that roused the world, and he lived the original rock and roll life. Now, at last, the man himself tells his story of life in the crossfire hurricane. Listening obsessively to Chuck Berry and Muddy Waters records, learning guitar and forming a band with Mick Jagger and Brian Jones. The Rolling Stones's first fame and the notorious drug busts that led to his enduring image as an outlaw folk hero. Creating immortal riffs like the ones in "Jumping Jack Flash" and "Honky Tonk Women." His relationship with Anita Pallenberg and the death of Brian Jones. Tax exile in France, wildfire tours of the U.S., isolation and addiction. Falling in love with Patti Hansen. Estrangement from Jagger and subsequent reconciliation. Marriage, family, solo albums and *Xpensive Winos*, and the road that goes on forever. With his trademark disarming honesty, Keith Richard brings us the story of a life we have all longed to know more of, unfettered, fearless, and true. Mama of ten Abbie Halberstadt helps women humbly and gracefully rise to the high calling of motherhood without settling for mediocrity or losing their minds in the process. Motherhood is a challenge. Unfortunately, our worldly culture offers moms little in the way of real help. Mamas only connect to celebrate surviving another day and to share in their misery rather than rejoice in what God has done and to build each other up in hard times. There has to be a better way, a biblical way, for mamas to grow and thrive. As a daughter of Christ, you have been called to be more than an average mama. Attaining excellence doesn't have to be unsettling but it will take committed focus and a desire to parent well according to God's grace and for His glory. M is for Mama offers advice, encouragement, and scripturally sound strategies seasoned with a little bit of humor to help you embrace the challenge of biblical motherhood and raise your children with love and wisdom. Mama, you are worthy of the awesome responsibility God has given you. Now it's time to start believing you can live up to it. An exceptional father-son story from the National Book Award-winning author of *Between the World and Me* about the reality that tests us, the myths that sustain us, and the love that saves us. Paul Coates was an enigmatic god to his sons: a Vietnam vet who rolled with the Black Panthers, an old-school disciplinarian and new-age believer in free love, an autodidact

who launched a publishing company in his basement dedicated to telling the true history of African civilization. Most of all, he was a wily tactician whose mission was to carry his sons across the shoals of inner-city adolescence—and through the collapsing civilization of Baltimore in the Age of Crack—and into the safe arms of Howard University, where he worked so his children could attend for free. Among his brood of seven, his main challenges were Ta-Nehisi, spacey and sensitive and almost comically miscalibrated for his environment, and Big Bill, charismatic and all-too-ready for the challenges of the streets. *The Beautiful Struggle* follows their divergent paths through this turbulent period, and their father's steadfast efforts—assisted by mothers, teachers, and a body of myths, histories, and rituals conjured from the past to meet the needs of a troubled present—to keep them whole in a world that seemed bent on their destruction. With a remarkable ability to reimagine both the lost world of his father's generation and the terrors and wonders of his own youth, Coates offers readers a small and beautiful epic about boys trying to become men in black America and beyond. Praise for *The Beautiful Struggle* "I grew up in a Maryland that lay years, miles and worlds away from the one whose summers and sorrows Ta-Nehisi Coates evokes in this memoir with such tenderness and science; and the greatest proof of the power of this work is the way that, reading it, I felt that time, distance and barriers of race and class meant nothing. That in telling his story he was telling my own story, for me."—Michael Chabon, bestselling author of *The Yiddish Policemen's Union* and *The Amazing Adventures of Kavalier & Clay* "Ta-Nehisi Coates is the young James Joyce of the hip hop generation."—Walter Mosley

In a shattering work that shifts between a woman's private anguish over the loss of her beloved cousin and a scholar's fierce critique of the American prison system, Danielle Allen seeks answers to what, for many years, felt unanswerable. Why did a precocious young man who dreamed of being a firefighter and a writer end up dead? A memoir in essays that expands on the viral sensation "The Crane Wife" with a frank and funny look at love, intimacy, and self in the twenty-first century. From friends and lovers to blood family and chosen family, this "elegant masterpiece" (Roxane Gay, *New York Times* bestselling author of *Hunger*) asks what more expansive definitions of love might offer us all. A BEST BOOK OF THE YEAR: TIME, THE GUARDIAN, GARDEN & GUN "Hauser builds their life's inventory out of deconstructed personal narratives, resulting in a reading experience that's rich like a complicated dessert—not for wolfing down but for savoring in small bites." —The *New York Times* "Clever, heartfelt, and wrenching." —Time "Brilliant." —Oprah Daily Ten days after calling off

their wedding, CJ Hauser went on an expedition to Texas to study the whooping crane. After a week wading through the gulf, they realized they'd almost signed up to live someone else's life. What if you released yourself from traditional narratives of happiness? What if you looked for ways to leave room for the unexpected? In Hauser's case, this meant dissecting pop culture touchstone, from *The Philadelphia Story* to *The X-Files*, to learn how not to lose yourself in a relationship. They attended a robot convention, contemplated grief at John Belushi's gravesite, and officiated a wedding. Most importantly, they mapped the difference between the stories we're asked to hold versus those we choose to carry. Told with the late-night barstool directness of your wisest, most bighearted friend, *The Crane Wife* is a book for everyone whose path doesn't look the way they thought it would; for everyone learning to find joy in the not-knowing and to build a new sort of life story, a new sort of family, a new sort of home to live in. The classic book on systems thinking—with more than half a million copies sold worldwide! "This is a fabulous book... This book opened my mind and reshaped the way I think about investing."—Forbes "Thinking in Systems is required reading for anyone hoping to run a successful company, community, or country. Learning how to think in systems is now part of change-agent literacy. And this is the best book of its kind."—Hunter Lovins

In the years following her role as the lead author of the international bestseller, *Limits to Growth*—the first book to show the consequences of unchecked growth on a finite planet—Donella Meadows remained a pioneer of environmental and social analysis until her untimely death in 2001. *Thinking in Systems* is a concise and crucial book offering insight for problem solving on scales ranging from the personal to the global. Edited by the Sustainability Institute's Diana Wright, this essential primer brings systems thinking out of the realm of computers and equations and into the tangible world, showing readers how to develop the systems-thinking skills that thought leaders across the globe consider critical for 21st-century life. Some of the biggest problems facing the world—war, hunger, poverty, and environmental degradation—are essentially system failures. They cannot be solved by fixing one piece in isolation from the others, because even seemingly minor details have enormous power to undermine the best efforts of too-narrow thinking. While readers will learn the conceptual tools and methods of systems thinking, the heart of the book is grander than methodology. Donella Meadows was known as much for nurturing positive outcomes as she was for delving into the science behind global dilemmas. She reminds readers to pay attention to what is important, not just what is quantifiable, to stay humble, and to stay a learner. In a world growing ever more complicated, crowded, and interdependent, *Thinking in Systems* helps readers avoid confusion and helplessness, the first step toward finding proactive and effective solutions. Capricorn (Cap) Anderson has never watched television. He's never tasted a pizza. Never heard of a wedgie. Since he was little, his only experience has been living on a farm commune and being home-schooled by his hippie grandmother, Rain. But when Rain falls out of a tree while picking plums and has to stay in the hospital, Cap is forced to move in with a guidance counselor and her cranky teen daughter and attend the local middle school. While Cap knows a lot about tie-dyeing and

Zen Buddhism, no education could prepare him for the politics of public school. Right from the beginning, Cap's weirdness makes him a moving target at Claverage Middle School (dubbed C-Average by the students). He has long, ungroomed hair; wears hemp clothes; and practises tai chi on the lawn. Once Zack Powers, big man on campus, spots Cap, he can't wait to introduce him to the age-old tradition at C-Average: the biggest nerd is nominated for class president—and wins.
