Social Work and Social Care Practice Jan 07 2022 skills. Australian authors.

Understanding Health and Social Care Dec 30 2023 The new edition of the best-selling reader *Understanding Health and Social Care* (previously edited by Maragraet Allot and Martin Robb) combines classic works with newly-commissioned material, offering readers

unparalleled coverage of the key issues in health and social care. The breadth of material encompasses voices of service users, professional and lay carers, as well as academics and researchers. This Second Edition is organised into four new sections, each with a part introduction pulling together the main themes: - People focuses on those who use and provide health and social care services. - Places looks at where care is given - Approaches considers different ways through which care takes places - Ideas focuses on the ideas and policies that underpin care provision Full of real practice scenarios and examples, the book successfully makes the links between theory and practice, and will be an essential resource for all students studying at undergraduate level across the wide spectrum of health and social care.

Health and Social Care in the Digital World Jun 11 2022 This provocative and timely book examines the current state of primary care practice and outlines a new vision for the delivery of primary care services, primarily in the UK but also internationally. Encouraging a social compact between citizens, governments and the providers of care, the book describes how this will necessitate a redesign of the welfare sector to ensure it is 'fit for purpose' in the digital world. It explores the respective roles of the inverse care law and the rule of halves, systems theory and learning organisations, mutuality and active citizenship, and how these can be applied to improve service delivery. Key Features Offers an alternative approach to thinking and a challenge to leaders within primary care and to those

with administrative responsibility for the sector Reflects the multiple challenges facing primary care, including the rise in frail elderly patients, increasing multi-morbidities, the impact of changing demography with migration and much more Sets these challenges in a context of increasing workforce pressures, including changing attitudes to professionalism, burnout and recruitment difficulties Outlines a road map for improvement responding to current challenges around social care as well as digital/e-health Aimed at, and written for, all those committed to improving the future of the primary care sector in the UK and internationally, this important book will be of interest to students, clinicians, managers, commissioners, policy makers and service users. The Author Nigel Starey is a practicing GP, an academic GP and an advisor for the Care Quality Commission, UK.

Social Care Management, Strategy and Business Planning Dec 06 2021 Social Care Management, Strategy and Business Planning is a comprehensive guide to strategic social care management, covering all the knowledge and skills that managers in the 21st century must have, and showing how to make theory a practical reality. The book aims to make business planning a more accessible and user-friendly process, offering practical advice on how to tackle the everyday tasks which good social care management should involve. Topics covered include strategic planning, business development, commissioning and contracting, project management, decision-making, risk, and evaluation techniques. The book also acknowledges the challenges of working collaboratively within a complex

legislative and policy framework and juggling different aspects of the management tasks whilst retaining professional identities and ethics. Also included are practical examples and lively tips and comments from practising managers on their experiences in different areas of business planning. This book will be essential reading for anyone involved in managing or leading practice either in the front line or at a more strategic level. It will be useful to post-qualifying social work students and is particularly valuable to anyone following a management training programme.

A Dictionary of Social Work and Social Care May 03 2024 This new edition has been fully revised and updated to provide over 1,800 A-Z definitions of terms from the field of social care, concentrating on social work as a significant area within this field. Covering social work theories, methods, policies, organizations, and statutes, as well as key terms from interdisciplinary topics overlapping with health and education, this is the most up-to-date dictionary of its kind available. It also provides extended entries on specialisms such as children and families, domestic violence, and residential care, and has been extensively updated to include new legislation. Useful appendices include a glossary of acronyms and a Table of Legislation, Regulations, and Codes of Practice, cross-referenced to Dictionary entries. Entry-level bibliographies and web links provide further resources and the web links are listed and regularly updated on a dedicated companion website. Written by two leading figures in the field, and a team of eleven contributors, *A Dictionary of Social Work*

and Social Care is a must-have for students of social work, social care, and related subjects, as well as for qualified social workers undertaking continuing professional development programmes.

Making the Most of Supervision in Health and Social Care Oct 04 2021 A support manual for supervisees in health and social care.

Communication Skills in Health and Social Care Jan 19 2023 Our ability to communicate is a key part of everyday life and is an essential skill, particularly when communicating with vulnerable people in a health and social care setting. Presented in a unique and easy-to-use dictionary format, this practical guide will help students and practitioners understand and apply the principles of effective communication. From the 'how to' practicalities through to challenges and honing existing skills, this book will ensure they have the confidence and knowledge to communicate skilfully and successfully in many different contexts and settings. This book is essential reading for anyone working in the helping professions for whom good communication skills are an essential part of their role. The new edition features: New entries covering social media, mindfulness, several tricky topics, and much more. Service user snippets to help address and understand the issues about service user perspectives. Skills to ensure you are engaging with the Professional Capabilities Framework.

Integrated Citizen Centered Digital Health and Social Care Jan 31 2024 As citizens, we

must all take responsibility for our own health to some extent, and recent developments in medical informatics have provided some valuable new ways to help us do that. This book presents the proceedings of the 2020 Special Topic Conference of the European Federation for Medical Informatics (EFMI STC 2020), held for the first time as a virtual conference on 26 & 27 November 2020, due to restrictions associated with the COVID-19 pandemic. Entitled Integrated citizen centered digital health and social care – Citizens as data producers and service co-creators, this conference focused on the citizen-centered aspects of health informatics. This topic provided the opportunity for contributors to present innovative solutions to allow citizens to take greater responsibility for their health with the help of information and communication technology, and the 52 presented papers published here cover a wide range of areas under the broad, invited subject headings of: tools and technologies to support citizen-centered digital services; capacity building to enhance the development and use of digital services; confidentiality, data integrity and data protection to guarantee trustworthy services; citizen safety in digital services; effectiveness and impact of citizen-digital and integrated health and social services; evaluation approaches and methods for digital services; usability, usefulness and user acceptance of digital services; and guidelines for the successful implementation of digital services for citizens. Offering a current overview of research and applications, the book will be of interest to all those health professionals working to increase citizen use of digital healthcare.

Child Neglect Mar 21 2023 This book addresses the key themes in child neglect, draws on current research and practice knowledge and sets out the implications for practice. With a joint health and social work focus, this interdisciplinary book is an essential resource for all professionals working towards integrated and collaborative childcare services.

Handbook of Research on ICTs for Human-Centered Healthcare and Social Care Services Aug 14 2022 In addition to creating the opportunity for collaboration, transformation, and innovation in the healthcare industry, technology plays an essential role in the development of human well-being and psychological growth. Handbook of Research on ICTs for Human-Centered Healthcare and Social Services is a comprehensive collection of relevant research on technology and its developments of ICTs in healthcare and social services. This book focuses on the emerging trends in the social and healthcare sectors such as social networks, security of ICTs, and advisory services, beneficial to researchers, scholars, students, and practitioners to further their interest in technological advancements.

Managing Front Line Practice in Social Care Dec 18 2022 Written by key figures in the field of social care training and administration this much-needed volume provides good practice guidance for front line managers. The contributions are based upon recent research into management practice.

Handbook for Practice Learning in Social Work and Social Care, Third Edition Nov 28 2023 This fully updated and expanded third edition of a classic text provides a

comprehensive introduction to key theory, knowledge, research and evidence relating to practice learning in social work and social care. It outlines the theories that underpin social care practice, the main assessment models and interventions, and also offers guidance on the effective implementation of assessment across a range of professional contexts.

Contributors from research, policy-making and practice backgrounds offer guidance on how to apply policy and research findings in everyday practice while ensuring that the complex needs of each individual service user are met. This third edition also features new chapters on group work, social pedagogy and personalisation. The Handbook for Practice Learning in Social Work and Social Care is an essential resource for ensuring effective evidence-based practice which will be valued by students, educators and practitioners alike.

Emotional Intelligence in Health and Social Care May 23 2023 'While emphasising caring for others, this book also place great importance on the practitioner caring for and developing themselves. Contemporary care environments place high demands upon students and practitioners of all disciplines. We want practitioners to do more than simply survive these environments, we want practitioners to thrive and feel enabled to lead themselves and others.' John Hurley and Paul Linsley, in the Preface Emotional intelligence is centred in self-awareness, empathy and leadership, as well as communication, relatedness and personal resilience. This book adopts a fresh approach to personal and professional development in healthcare by applying emotional intelligence to a range of clinical and

educational contexts..This practical, user-friendly guide engages the reader on both an emotional and a cognitive level, offering an energising way for healthcare professionals to work more effectively as individuals and as part of a team. The activities provided are thought-provoking for personal study and ideal for session planning in larger groups. Emotional Intelligence in Health and Social Care is recommended for all educators and students of medicine, nursing, social care and the Allied Health Professions. When I began my professional training over forty years ago the curriculum paid no attention to the 'stuff' of the 'emotions'. However, when faced with the confusion of real people, and the uncertainty of decision making, I - like everyone else - had to draw on my emotions; feeling my way towards a different kind of knowledge. A book like this might have helped me come to a different understanding of what I needed to do to help myself to coexist with, work alongside and help others. From the Foreword by Phil Barker

The Routledge Handbook of Social Care Work Around the World Jul 13 2022 The Routledge Handbook of Social Care Work Around the World provides both a comprehensive and authoritative state-of-the-art review of the current research in this subject. It is the first handbook to cover social care work research from around the world, including both low- and middle-income countries as well as high income countries. Each of the 22 chapters are written by experts on long-term care services, particularly for older people and cover key issues and debates, based on research evidence, on social care work in

a specific country. They look at perspectives of social care work from the macro level: the structural conditions for long-term care, including demographic challenges and the long-term care policy, the meso level: the level of provider organizations and intermediaries, and the micro level: views of care workers, care users, and unpaid informal carers. Furthermore, they discuss a number of topics central to discussions of care work including marketization, personalization policies, policy implementation under austerity, the provision of social care work whether through public services, or private arrangements, or mixed types, funding, the feminization of social care and the new role that technology, and robots can play in care work. By drawing together leading scholars from around the world, this book provides an up to the minute snapshot of current scholarship as well as signposting several fruitful avenues for future research. This book is both an invaluable resource for scholars and an indispensable teaching tool for use in the classroom and will be of interest to students, academics, social workers, social policy-makers and human service professionals.

Intellectual Disability in Health and Social Care Aug 26 2023 Many practitioners within health and social care come into contact with people with intellectual disabilities and want to work in ways that are beneficial to them by making reasonable adjustments in order to meet clients' needs and expectations. Yet the health and wellbeing of people with learning disabilities continues to be a neglected area, where unnecessary suffering and premature deaths continue to prevail. This text provides a comprehensive insight into intellectual

disability healthcare. It is aimed at those who are training in the field of intellectual disability nursing and also untrained practitioners who work in both health and social care settings. Divided into five sections, it explores how a wide range of biological, health, psychological and social barriers impact upon people with learning disability, and includes: Six guiding principles used to adjust, plan and develop meaningful and accessible health and social services Assessment, screening and diagnosis of intellectual disability across the life course Addressing lifelong health needs Psychological and psychotherapeutic issues, including sexuality, behavioural and mental health needs, bereavement, and ethical concerns. The changing professional roles and models of meeting the needs of people with intellectual and learning disabilities. Intellectual Disability in Health and Social Care provides a wide-ranging overview of what learning disability professionals' roles are and provides insight into what health and social care practitioners might do to assist someone with intellectual disabilities when specific needs arise.

Health and Social Care GCSE May 30 2021 Written specifically for Edexcel Centres, this text should provide all teachers need to teach the 2002 GCSE in Health and Social Care (Double Award). This full colour resource has been written to precisely match the requirements of the GCSEs in vocational subjects for Edexcel centres. It provides the underpinning knowledge for the courses in an accessible and easy to navigate style. Case studies throughout allow students to apply theory to vocational practice. It supports the

assessment criteria set by Edexcel and contains features that link to all the QCA Assessment Objectives.

Leadership in Health and Social Care Apr 09 2022 From reviews: "I found this book to be an excellent read... My favourite part is at the end of each chapter where the authors very kindly give a chapter summary. I would say this, with learning outcomes for each chapter, is the reader's 'pot of gold' – and an excellent resource for students. The social and political stance of this text is sensitively weaved throughout, encouraging the wider thought processes of the reader. Images and illustrations provide a welcome and useful change to the traditional academic text, and I would recommend the book as an important reference resource for those starting on their leadership journey, or for those wanting to update. A well-informed, easy read that I will be recommending to our students to support their studies." *The Biomedical Scientist*, 2013: 70 (4) "This is an excellent book for anyone who is starting to take an interest in Leadership within their health or social care role... Overall, the book is clearly aimed at practitioners and should be a 'must-read' for those who wish to understand more about practical leadership and who aspire to more senior positions within their field of practice." Lecturer, Staffordshire University Faculty of Health Sciences **Leadership in Health and Social Care** is an accessible text for students and practitioners seeking to develop their leadership skills. "I commend this book to you as a 'way in' to the leadership world for anyone working in health and social care. It treats you like an adult and

expects you to take responsibility for your own leadership development. We now know that good leadership has a direct relationship with good services and we can certainly no longer afford mediocrity. We need leaders to enable the disruptive innovation that will be required to improve the quality of care with less resource to do so." From the Foreword by Karen Middleton, Chief Health Professions Officer for England. Key features: · Introduces the concept of leadership and its importance in health and social care. · Discusses the skills and qualities that make for effective leadership. · Analyses the role of the leader as a catalyst for change. · Helps readers to explore their own perceptions of leadership through activities and scenarios.

A Beginner's Guide to Evidence Based Practice in Health and Social Care Jan 24 2021 "A Beginner's Guide to Evidence Based Practice in Health and Social Care is for anyone who has ever wondered what evidence based practice is or how to relate it to practice. It presents the topic in a simple, easy to understand way, enabling those unfamiliar with evidence based practice to apply the concept to their practice and learning. Using everyday language, this book provides a step by step guide to what we mean by evidence based practice and how to apply it. It also provides an easy to follow guide to searching for evidence, explains how to work out if the evidence is relevant or not, explores how evidence can be applied in the practice setting, and outlines how evidence can be incorporated into your academic writing."--Publisher's description.

Information Systems and Technologies for Enhancing Health and Social Care Mar 09 2022 "This book provides the latest and most relevant research on the understanding, expansion, and solutions on technologies used for improvements in the health and social care field"--Provided by publisher.

Your Foundation in Health & Social Care Apr 29 2021 Written to accompany the Foundation degree in Health and Social Care, and other higher education courses in the same area, this book offers a user-friendly approach to help you make the most of your course. Matched to the Foundation Degree guidelines, Your Foundation in Health and Social Care gives you the knowledge and skills necessary for effective learning both in academia and in the workplace. The book includes: - Case studies drawn from a range of health and social care settings to illustrate 'real-life' practice; - Suggested Essay Topics, Activities and Further Research features that encourage you to develop your knowledge and understanding; - Study Skills tips and guidelines for approaching learning; Written in a lively and engaging style the comprehensive content and jargon-free approach will make this book invaluable for students. It will be a core text for those studying Foundation degrees and higher education courses in health and social care.

Professional Boundaries in Social Work and Social Care May 11 2022 Annotation A practical guide for judging and maintaining boundaries in relationships between worker and client.

Narrative-Based Practice in Health and Social Care Feb 17 2023 *Narrative-Based Practice in Health and Social Care* outlines a vision of how witnessing narratives, paying attention to them, and developing an ability to question them creatively, can make the person's emerging story the central focus of health and social care, and of healing. This text gives an account of the practical application of ideas and skills from contemporary narrative studies to health and social care. Promoting narrative-based practice in everyday encounters with patients and clients, and in supervision, teaching, teamwork and management, it presents "Conversations Inviting Change," an established narrative-based model of interactional skills. Underpinned by an account of theory from narrative studies and related fields, including communication theory and systems thinking, it is written for students and practitioners across a broad range of professions in primary and secondary health care and social care. More information about "Conversations Inviting Change" is available at www.conversationsinvitingchange.com. This website includes podcasts, presentations and further teaching material as well as details of forthcoming courses, and is continually updated with information about the approach described in this book.

Delivering Excellence in Health and Social Care Aug 02 2021 Many organizations in health and social care are striving to implement the ideas of organizational excellence, performance measurement and process improvement in the context of a large number of government initiatives including the NHS Plan, Best Value, Clinical Governance and

Quality Protects. This book provides a clear explanation of the whole area and includes a wide variety of case studies and examples within health and social care, including the Voluntary Sector.

Solidarity in Health and Social Care in Europe Sep 02 2021 OF 'SOLIDARITY' IN UK SOCIAL WELFARE Here then, perhaps, is a British version of solidarity in social welfare, but early there are strong tensions between the powerfully liberal individualistic strands of the British understanding of the functions of the state and the socialistic or communitarian tendency of a commitment to universal welfare provision. In the search for the roots of this understanding of welfare we shall survey, first, the historical background to these tensions in some early British political philosophers, starting with Hobbes and ending with Mill. We then consider the philosophical and social influences on the Beveridge Report itself, and we will trace the emergence of the philosophy of the welfare state in the era following the Second World War. Finally we consider the contemporary debate, as it relates to the 'Third Way' thinking of New Labour.

2. A HISTORICAL SKETCH In the previous section we observed that the philosophy underlying the Beveridge Report could be described as 'liberal collectivism'. What are the historical antecedents of this strange amalgam of individualism and collectivism? Within the short scope of this chapter, any account of the philosophical history must be little more than a sketch, but we can perhaps understand most debates in British socio-political thought as a continuing dialogue with the well known claim of

Thomas Hobbes in Leviathan that all political institutions are founded on egoistic motives.

Social Work and Integrated Care Nov 04 2021 Social Work and Integrated Care draws on the latest research, practice and theory to explore integration within both child and adult services. Although all the home nations in the UK view integrated care as a top priority within health and social care policy, many people continue to experience fragmented care. This book sets out the case for integration, considers the evidence of its impact, and discusses the implementation challenges that must be overcome. Packed full of current examples of integration, from across the UK and internationally, and reflexive exercises which highlight practice issues for social workers, it provides the following key learning outcomes:

- An understanding of what is meant by integrated care and why it is seen as vital to a modern health and social system.
- A knowledge of the expected impacts in relation to improving the experience and outcomes for individuals and their families, addressing inequalities and promoting health and wellbeing and increasing financial efficiency.
- A recognition of the common barriers to integrated care and what such fragmentation can mean for individuals and their families.
- A critical review of key approaches to promote integration and their practical implementation.
- Reflection on the potential contribution of social workers and their own collaborative practice.

Providing a comprehensive and accessible overview of integrated care policies and practice, this book will help prepare social workers for the realities of collaborating with other professions and services. It

should be considered essential reading for students undertaking their professional qualification and those who are in practice who are looking to improve their ability to collaborate.

The short guide to health and social care Feb 25 2021 As a field, health and social care is facing considerable challenge and debate, in the UK and internationally. This clear and succinct text offers a valuable introductory guide to this multidisciplinary subject, helping people who want to study or work in health and social care understand why these services matter, how they have developed and how they work. Framed by vital historical and social policy context, the book considers:

- The social context in which health and social care are delivered
- The history and nature of current services
- Organising, funding and delivering services
- How to be a professional in practice

Including chapter summaries and links to further reading, this text will be invaluable to undergraduate students on programmes in Health and Social Care, Social Work, Nursing, Allied Health Professions, Social Policy and related applied social science subjects, as well as to A-level and Foundation programmes prior to University.

The Museum as a Space of Social Care Jul 01 2021 This book examines the practice of community engagement in museums through the notion of care. It focuses on building an understanding of the logic of care that underpins this practice, with a view to outlining new roles for museums within community health and social care. This book engages with the

recent growing focus on community participation in museum activities, notably in the area of health and wellbeing. It explores this theme through an analysis of the practices of community engagement workers at Tyne & Wear Archives & Museums in the UK. It examines how this work is operationalised and valued in the museum, and the institutional barriers to this practice. It presents the practices of care that shape community-led exhibitions, and community engagement projects involving health and social care partners and their clients. Drawing on the ethics of care and geographies of care literatures, this text provides readers with novel perspectives for transforming the museum into a space of social care. This book will appeal to museum studies scholars and professionals, geographers, organisational studies scholars, as well as students interested in the social role of museums.

Managing in Health and Social Care Mar 28 2021 **Managing in Health and Social Care** is a practical textbook for students of management in health and social care, whether at undergraduate or postgraduate level. It includes case studies with textual commentary to reinforce learning, activities, key references and clear explanations of essential management tools and concepts.

Integrating Social Care into the Delivery of Health Care Jun 04 2024 **Integrating Social Care into the Delivery of Health Care: Moving Upstream to Improve the Nation's Health** was released in September 2019, before the World Health Organization declared COVID-19 a global pandemic in March 2020. Improving social conditions remains critical to

improving health outcomes, and integrating social care into health care delivery is more relevant than ever in the context of the pandemic and increased strains placed on the U.S. health care system. The report and its related products ultimately aim to help improve health and health equity, during COVID-19 and beyond. The consistent and compelling evidence on how social determinants shape health has led to a growing recognition throughout the health care sector that improving health and health equity is likely to depend " at least in part " on mitigating adverse social determinants. This recognition has been bolstered by a shift in the health care sector towards value-based payment, which incentivizes improved health outcomes for persons and populations rather than service delivery alone. The combined result of these changes has been a growing emphasis on health care systems addressing patients' social risk factors and social needs with the aim of improving health outcomes. This may involve health care systems linking individual patients with government and community social services, but important questions need to be answered about when and how health care systems should integrate social care into their practices and what kinds of infrastructure are required to facilitate such activities. Integrating Social Care into the Delivery of Health Care: Moving Upstream to Improve the Nation's Health examines the potential for integrating services addressing social needs and the social determinants of health into the delivery of health care to achieve better health outcomes. This report assesses approaches to social care integration currently being taken by health

care providers and systems, and new or emerging approaches and opportunities; current roles in such integration by different disciplines and organizations, and new or emerging roles and types of providers; and current and emerging efforts to design health care systems to improve the nation's health and reduce health inequities.

Relating Experience Feb 05 2022 This anthology provides a unique window on to people's experiences and perceptions of health and social care, demonstrating how communication and relationships lie at the heart of work in this field.

Critical Reflection In Health And Social Care Jun 23 2023 "... the book makes an excellent contribution to the library of those keen to delve further into the realm of critical reflection, understand various interpretations of interdisciplinary practices, and use these to aid their own and others' professional practice, exploration and development." Learning in Health and Social Care How can professionals reflect critically on the aspects of their work they take for granted? How can professionals practise with creativity, intelligence and compassion? What current methods and frameworks are available to assist professionals to reflect critically on their practice? The use of critical reflection in professional practice is becoming increasingly popular across the health professions as a way of ensuring ongoing scrutiny and improved concrete practice - skills transferable across a variety of settings in the health, social care and social work fields. This book showcases current work within the field of critical reflection throughout the world and across disciplines in health and social

care as well as analyzing the literature in the field. *Critical Reflection in Health and Social Care* reflects the transformative potential of critical reflection and provides practitioners, students, educators and researchers with the key concepts and methods necessary to improve practice through effective critical reflection. Contributors: Gurid Aga Askeland, Andy Bilson, Fran Crawford, Jan Fook, Lynn Froggett, Sue Frost, Fiona Gardner, Jennifer Lehmann, Marceline Naudi, Bairbre Redmond, Gerhard Reimann, Colin Stuart, Pauline Sung-Chan, Carolyn Taylor, Susan White, Elizabeth Whitmore, Angelina Yuen-Tsang.

The Management of Wicked Problems in Health and Social Care Jul 25 2023 At a time of growing pressure on health and social care services, this book draws together contributions which highlight contemporary challenges for their management. Providing a range of contributions that draw on a Critical Management Studies perspective the book raises macro-level concerns with theory, demographics and economics on the one hand, as well as micro-level challenges of leadership, voice and engagement on the other. Rather than being an attempt to define the 'wickedness' of problems in this field, this book provides new insights designed to be of interest and value to researchers, students and managers. Contributions from international researchers explore four main topics: identifying contemporary challenges in health and social care; managing, leading and following; listening to silent voices in delivering change; and new methodologies for understanding care challenges. The concerns discussed in this volume are 'wicked' in so far as they are

persistent, pernicious and beyond the curative abilities of any single organisation or profession. Such problems require collaboration but also new approaches to listening to those who suffer their effects. This book demonstrates such listening through its engagement with policy makers, leaders, followers, professions, patients, forgotten groups and silenced voices. Moreover, it considers how future research might be transformed so as to shine a more inclusive light on ‘wicked’ problems and their amelioration. This is a timely and engaging book that challenges you – the reader – to think again about how we should look at, engage with and support all those involved in health and social care.

Interprofessional Teamwork for Health and Social Care Apr 02 2024 **PROMOTING PARTNERSHIP FOR HEALTH** This book forms part of a series entitled Promoting Partnership for Health published in association with the UK Centre for the Advancement of Interprofessional Education (CAIPE). The series explores partnership for health from policy, practice and educational perspectives. Whilst strongly advocating the imperative driving collaboration in healthcare, it adopts a pragmatic approach. Far from accepting established ideas and approaches, the series alerts readers to the pitfalls and ways to avoid them. **DESCRIPTION** Interprofessional Teamwork for Health and Social Care is an invaluable guide for clinicians, academics, managers and policymakers who need to understand, implement and evaluate interprofessional teamwork. It will give them a fuller understanding of how teams function, of the issues relating to the evaluation of teamwork,

and of approaches to creating and implementing interventions (e.g. team training, quality improvement initiatives) within health and social care settings. It will also raise awareness of the wide range of theories that can inform interprofessional teamwork. The book is divided into nine chapters. The first 'sets the scene' by outlining some common issues which underpin interprofessional teamwork, while the second discusses current teamwork developments around the globe. Chapter 3 explores a range of team concepts, and Chapter 4 offers a new framework for understanding interprofessional teamwork. The next three chapters discuss how a range of range of social science theories, interventions and evaluation approaches can be employed to advance this field. Chapter 8 presents a synthesis of research into teams the authors have undertaken in Canada, South Africa and the UK, while the final chapter draws together key threads and offers ideas for future of teamwork. The book also provides a range of resources for designing, implementing and evaluating interprofessional teamwork activities.

The Textbook of Health and Social Care Mar 01 2024 A comprehensive textbook designed to guide students through the entirety of a Health and Social Care BSc degree. By using a three part structure, it covers the important topics and pressing issues relevant to Health and Social Care today. Starting with the essential areas and core knowledge, through health and social care in practice, and finishing with coverage of the challenges faced in present day health and social care.

Changing Practice in Health and Social Care Oct 28 2023 *New Ways of Working in Health and Social Care* explores the range and depth of recent challenges facing professionals in health and social care.

Evaluating Health and Social Care Apr 21 2023 A practical book, based on sound theoretical models, which explores the main criteria available for evaluating social care and health services. The book explains why the various criteria are used, identifies the problems inherent in using them, and offers specific guidance on how to use each of the criteria. The guidance offered is seen as important at a time when health and social care agencies are under increasing pressure to evaluate and improve their performance.

Observation in Health and Social Care Sep 14 2022 Examining and exploring new approaches to therapeutic observation in health and social care, this multidisciplinary guide discusses and analyses its uses in a range of practical contexts with children, families and adults. Developing good observation skills is paramount to sustaining relationships in the challenging settings that health and social care professionals find themselves in. This guide shows how observation is taught, applied in practice, and how it will be returned to throughout professionals' careers. Drawing on psychoanalytic ideas and theories of human development as a base for professional learning, the experienced editors and authors offer theoretically informed models to teach observation skills in professional programmes, helping their readers prepare for successful intervention in any setting.

Human Rights and Social Care Oct 16 2022 In exploring the development of a human rights based approach to social care, Smith challenges the perception of human rights law and practice being the preserve of lawyers and demystifies human rights in a social care context.

Vulnerable Groups in Health and Social Care Sep 26 2023 Carefully researched and highly readable, this textbook looks at the experiences and health and social needs of key 'vulnerable groups'. It presents an engaging social science perspective relevant to everyone exploring how we, and society, care for the vulnerable. Each chapter defines and explores a vulnerable social group, bringing together theoretical, policy, and practice perspectives. The lively and engaging style enables the reader to engage with the client group and to reflect upon their own learning and practice in a more meaningful way.
