Command Of The Air General Giulio Douhet, 2014-08-15 In the pantheon of air power spokesmen Giulio Douhet holds center stage His writings more often cited than perhaps actually read appear as excerpts and aphorisms in the writings of numerous other air power spokesmen advocates and critics Though a highly controversial figure the very controversy that surrounds him offers to us a testimonial of the value and depth of his work and the need for airmen today to become familiar with his thought The progressive development of air power to the point where today it is more correct to refer to aerospace power has not outdated the notions of Douhet in the slightest In fact in many ways the kinds of technological capabilities that we enjoy as a global air power provider attest to the breadth of his vision Douhet together with Hugh Boom Trenchard of Great Britain and William Billy Mitchell of the United States is justly recognized as one of the three great spokesmen of the early air power era This reprint is offered in the spirit of continuing the dialogue that Douhet himself so perceptively began with the first edition of this book published in 1921 Readers may well find much that they disagree with in this book but also much that is of enduring value The vital necessity of Douhet s central vision that command of the air is all important in modern warfare has been proven throughout the history of wars in this century from the fighting over the Somme to the air war over Kuwait and Iraq

Ethical Emotivism S.A. Satris, 2012-12-06 The primary contributions of this work are in three overlapping categories i the history of ideas and in particular the history of the idea of value and moral philosophy in both continental and Anglo American traditions ii the identification and interpretation of ethical emotivism as one of the major twentieth century ethical theories and iii the evolution of a philosophically viable form of ethical emotivism as an alternative to utilitarianism and Kantianism In addition along the way many particular points are touched upon e g the relation of Hume to Stevenson and emotivism the facti value distinction and human emotional and social nature The work begins by challenging the received account of the development of twentieth century moral philosophy i e the account that occurs in all the recognized historical books such as G c Kerner The Revolution in Ethical Theory Oxford 1966 G 1 Warnock Contemporary Moral Philosophy London 1967 W D Hudson Modern Moral Philosophy London 1967 Mary Warnock Ethics Since 1900 3rd ed Oxford 1978 and W D Hudson A Century of Moral Philosophy New York 1980 This received account is not only the property of scholars of the history of recent moral philosophy but is also generally assumed by philosophers themselves and is repeated quite uncritically in the literature at large

The Shakespeare Wars Ron Rosenbaum, 2011-11-09 Ron Rosenbaum is one of the most original journalists and writers of our time David Remnick In The Shakespeare Wars Ron Rosenbaum gives readers an unforgettable way of rethinking the greatest works of the human imagination As he did in his groundbreaking Explaining Hitler he shakes up much that we thought we understood about a vital subject and renews our sense of excitement and urgency He gives us a Shakespeare book like no other Rather than raking over worn out fragments of biography Rosenbaum focuses on cutting edge controversies about the true source of Shakespeare s enchantment and illumination the astonishing

language itself How best to unlock the secrets of its spell With quicksilver wit and provocative insight Rosenbaum takes readers into the midst of fierce battles among the most brilliant Shakespearean scholars and directors over just how to delve deeper into the Shakespearean experience deeper into the mind of Shakespeare Was Shakespeare the one draft wonder of Shakespeare in Love Or was he rather as an embattled faction of textual scholars now argues a different kind of writer entirely a conscientious reviser of his greatest plays Must we then revise our way of reading staging and interpreting such works as Hamlet and King Lear Rosenbaum pursues key partisans in these debates from the high tables of Oxford to a Krispy Kreme doughnut shop in a strip mall in the Deep South He makes ostensibly arcane textual scholarship intensely seductive and sometimes even explicitly sexual At an academic Pleasure Seminar in Bermuda for instance he examines one scholar s quest to find an orgasm in Romeo and Juliet Rosenbaum shows us great directors as Shakespearean scholars in their own right We hear Peter Brook perhaps the most influential Shakespearean director of the past century disclose his quest for a secret play hidden within the Bard s comedies and dramas We listen to Sir Peter Hall founder of the Royal Shakespeare Company as he launches into an impassioned table pounding fury while discussing how the means of unleashing the full intensity of Shakespeare s language has been lost and how to restore it Rosenbaum s hilarious inside account of the Great Shakespeare Funeral Elogy Fiasco a man versus computer clash illustrates the iconic struggle to define what is and isn t Shakespearean And he demonstrates the way Shakespearean scholars such as Harold Bloom can become great Shakespearean characters in their own right The Shakespeare Wars offers a thrilling opportunity to engage with Shakespeare s work at its deepest levels Like Explaining Hitler this book is destined to revolutionize the way we think about one of the overwhelming obsessions of our time

Enlightenment Now Steven Pinker, 2018-02-13 INSTANT NEW YORK TIMES BESTSELLER A NEW YORK TIMES NOTABLE BOOK OF 2018 ONE OF THE ECONOMIST S BOOKS OF THE YEAR My new favorite book of all time Bill Gates If you think the world is coming to an end think again people are living longer healthier freer and happier lives and while our problems are formidable the solutions lie in the Enlightenment ideal of using reason and science By the author of the new book Rationality Is the world really falling apart Is the ideal of progress obsolete In this elegant assessment of the human condition in the third millennium cognitive scientist and public intellectual Steven Pinker urges us to step back from the gory headlines and prophecies of doom which play to our psychological biases Instead follow the data In seventy five jaw dropping graphs Pinker shows that life health prosperity safety peace knowledge and happiness are on the rise not just in the West but worldwide This progress is not the result of some cosmic force It is a gift of the Enlightenment the conviction that reason and science can enhance human flourishing Far from being a naive hope the Enlightenment we now know has worked But more than ever it needs a vigorous defense The Enlightenment project swims against currents of human nature tribalism authoritarianism demonization magical thinking which demagogues are all too willing to exploit Many commentators committed to political religious or romantic ideologies fight a rearguard action against it The result is a corrosive fatalism and a willingness to wreck the precious institutions of liberal democracy and global cooperation With intellectual depth and literary flair Enlightenment Now makes the case for reason science and humanism the ideals we need to confront our problems and continue our progress

Spinoza and the Politics of Renaturalization Hasana Sharp, 2021-02 There have been many Spinozas over the centuries atheist romantic pantheist great thinker of the multitude advocate of the liberated individual and rigorous rationalist The common thread connecting all of these clashing perspectives is Spinoza s naturalism the idea that humanity is part of nature not above it In this sophisticated new interpretation of Spinoza s iconoclastic philosophy Hasana Sharp draws on his uncompromising naturalism to rethink human agency ethics and political practice Sharp uses Spinoza to outline a practical wisdom of renaturalization showing how ideas actions and institutions are never

merely products of human intention or design but outcomes of the complex relationships among natural forces beyond our control This lack of a metaphysical or moral division between humanity and the rest of nature Sharp contends can provide the basis for an ethical and political practice free from the tendency to view ourselves as either gods or beasts Sharp s groundbreaking argument critically engages with important contemporary thinkers including deep ecologists feminists and race and critical theorists making Spinoza and the Politics of Renaturalization vital for a wide range of scholars The Rights of War and Peace Hugo Grotius,1814 Areopagitica John Milton,1890 *George Washington* George Washington,1988 Based almost entirely on materials reproduced from The writings of George Washington from the original manuscript sources 1745 1799 John C Fitzpatrick editor Includes indexes Difficult Personalities Hazel Edwards,Helen McGrath,2012-08-09 We all have people in our lives who frustrate annoy or hurt us Consider those who claim I m always right workplace bullies or obsessive personality types And most of us hurt others occasionally too In *Difficult Personalities* Dr Helen McGrath and Hazel Edwards take common situations and offer strategies to help including anger and conflict management achieving empathy optimism and assertion making decisions about difficult relationships This is a reassuring guide to dealing with the challenging behaviour we encounter daily as well as with our own It s an essential resource for understanding living with or working with people whose behaviour is frustrating confusing or damaging *Society in Focus* William E.
