Interest in international law has increased greatly over the past decade, largely because of its central place in discussions such as the Iraq War and Guantanamo, the World Trade Organisation, the anti-capitalist movement, the Kyoto Convention on climate change, and the apparent failure of the international system to deal with the situations in Palestine and Darfur, and the plights of refugees and illegal immigrants around the world. This Very Short Introduction explains what international law is, what its role in international society is, and how it operates. Vaughan Lowe examines what international law can and cannot do and what it is and what it isn't doing to make the world a better place. Focussing on the problems the world faces, Lowe uses terrorism, environmental change, poverty, and international violence to demonstrate the theories and practice of international law, and how the principles can be used for international co-operation. "Wonderful book...a beautiful love story of a husband and a wife. I laughed, I cried, I stayed up half the night reading this amazing book." Marian S 'I WANT A DOG!'Who hasn't heard that screamed from a child or partner? They want a dog but you don't want one because you know it will be your responsibility to look after it when they grow bored. Well, this book isn't necessarily for you. This book is for those who want a dog but have no idea what they're really letting themselves in for. You see, I wanted a dog. I was one of those annoying people ranting and raving how badly I wanted one. 'Now I am an adult, I should be allowed to get a dog! It's my house!'I got my dog. I got what I wanted. I even chose the dog. Now, as I sit here typing out this blurb, I weep. Why did I do this to myself? Why have I just committed to this little bastard for God knows how many years?If you want a dog of your own. Read this book. Perhaps see things you didn't necessarily think of (on top of having to clean up its shit from when you go on walks or when it runs in your garden). Then, when you have read the book, make your decision again. Decide if it really is for you.Don't want a dog? Well this is about a pug called Chewie... Read about Chewie's first year and just laugh at my misadventures and misery...From Matt Shaw, author of 'Wasting Stamps', 'Plentyoffreaks' and 'Im fine' A rickety surf rig on wheels. A guide named Don Quixote. No cellphone. Louisbourg or Bust is RC Shaw's spandex-free pilgrimage up a haunted coastline. Fuelled by Hungry Man Stew and blind optimism, Shaw battles potholed hills and remote waves en route to the Fortress of Louisbourg. With a Nova Scotia road map in one hand and a fat copy of Don Quixote in the other, Shaw hatches a plan. He builds The Rig, a Frankenstein-inspired bicycle-plus-trailer to haul his camping gear and surf stuff. Then he circles Louisbourg with a black Sharpie and vows to take the fortress back from its malevolent tourist occupiers. Finally, on a clear June morning, he kisses his family goodbye and creaks off down the road in search of adventure for adventure's sake. No cellphone, no safety net. Just the restless pulse of the

Atlantic Ocean as it rips and tears at the coastline of the Eastern Shore. As the lark gets real, Shaw is forever changed by the gnarly soul of Nova Scotia's fogbound, fading coastline. Food safety is a multi-faceted subject, using microbiology, chemistry, standards and regulations, and risk management to address issues involving bacterial pathogens, chemical contaminants, natural toxicants, additive safety, allergens, and more. This revised edition has been updated with the latest information on food safety. It addresses all the topics pertinent to a full understanding of keeping the food we eat safe. Each chapter of *Food Safety: The Science of Keeping Food Safe, Second Edition* proceeds from introductory concepts and builds towards a sophisticated treatment of the topic, allowing the reader to take what knowledge is required for understanding food safety at a wide range of levels. Illustrated with photographs and examples throughout, this new edition also boasts 4 new chapters covering radioactivity in food; food terrorism; food authenticity; and food supplements.

- This second edition has been revised and updated throughout to include the latest topics in this fast-moving field
- Includes 4 brand new chapters on radioactivity in food, food terrorism, food authenticity, and food supplements
- The most readable and user-friendly food safety book for students, scientists, regulators, and general readers

Food Safety is the ideal starting point for students and non-specialists seeking to learn about food safety issues, and an enjoyable and stylish read for those who already have an academic or professional background in the area. This new edition of *International Law* confirms the text's status as the definitive book on the subject. Combining both his expertise as academic and practitioner, Malcolm Shaw's survey of the subject motivates and challenges both student and professional. By offering an unbeatable combination of clarity of expression and academic rigour, he ensures both understanding and critical analysis in an engaging and authoritative style. The text has been updated throughout to reflect recent case law and treaty developments. It retains the detailed references which encourage and assist further reading and study. He is chained to her through his own choice. She is chained to him through no choice of her own. A thick chain linking the two of them together by their ankles and kept in place with heavy-duty locks. She knows why she is there. He has explained that once - and only once. Each subsequent time she asks, he simply tells her that she knows the reason. She knows there is no way out until he says so. For a time of his choosing, she is his prisoner and that is all there is to it. Yet - for the two of them - things could have been so, so different. INCLUDES ACCESS TO WATCH THE FEATURE FILM FOR FREE! "There is a ferocity about Matt Shaw's writing that is both welcome and also necessary when it comes to horror." - Shaun Hutson, author of "Slugs" Categories for CHAINED - Horror - Psychological Fiction - Survival Horror - Sexual horror - Serial killers - kidnap horror - Suspense horror - Revenge horror MORAL ISSUES IN BUSINESS, 13E examines the moral dilemmas that are common to today's business climate and gives readers the analytical tools to resolve those issues. Using a combination of true stories, interesting reading selections, and a conversational writing style, this edition prepares readers for the moral quandaries awaiting them in the professional world. Featured topics include: the nature of morality, individual integrity and responsibility, economic justice, pitfalls of capitalism, and corporations' responsibilities to consumers and the environment. Plus, this edition also discusses situation-specific concepts such as downsizing, whistle blowing, sexual harassment, job discrimination, animal abuse, and drug testing. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. Long considered the gold standard comprehensive reference for diagnosing and managing emergent health issues in children, *Fleisher & Ludwig's Textbook of Pediatric Emergency Medicine* is an essential resource for clinicians at all levels of training and experience. The revised eighth edition has been updated from cover to cover, providing practical, evidence-based content to help you meet any clinical challenge in the emergency care of pediatric patients. *Delinquency in Society: The Essentials* is a concise introduction to the important topics covered by the same authors in the popular *Delinquency in Society, Eighth Edition*. This practical text explores how juvenile delinquency is defined, measured, and explained, as well as how the juvenile justice system deals with delinquent youth. The new *Essentials* text provides separate chapters focusing on the police, juvenile courts, corrections, and delinquency prevention. Before the 1st edition of the *Textbook of Pediatric Emergency Medicine*

published, there was no official pediatric emergency medicine subspecialty in either pediatrics or emergency medicine. This book defined many of the treatments, testing modalities procedural techniques and approaches to care for the ill and injured child. As such, it was written with both the pediatrician and the emergency physician in mind. The Textbook of Pediatric Emergency Medicine, has an entirely new editorial board and templated chapters focusing on evidence-based diagnosis and management of pediatric patients in the ED. The book's content has been rewritten to eliminate and eliminate redundancy, creating succinct sections that pertain to patient care in the ED. Templated chapters include: Clinical Outcomes/Goals of Therapy Current Evidence Clinical Considerations Clinical Recognition: Triage Initial Assessment Management/Diagnostic Testing Clinical indications for discharge or admission, including parental instructions References In the ED, nurses and physicians work closely as a paired team, thus this edition reflects that partnership and offers content tailored to it. Online ancillaries, found in the bundled eBook, include Learning Links for nursing considerations and clinical pathways that outline the key steps to take when managing critically ill patients. Emphasizing research and evidence-based practice, it organizes material by body system instead of developmental stage, allowing faculty to teach pediatrics in integrated courses/short courses without redundancy. This edition includes a new chapter on genetic and genomic influences, more emphasis on culturally competent care, and new features that emphasize clinical reasoning and health promotion. Designed to help students bridge the gap between classroom and clinical situations, the book emphasizes health promotion and maintenance, growth and development, and family-centered care. 0133096238 / 9780133096231 Principles of Pediatric Nursing: Caring for Children Plus NEW MyNursingLab with Pearson eText -- Access Card Package Package consists of: 0132111756 / 9780132111751 Principles of Pediatric Nursing: Caring for Children 0133054292 / 9780133054293 NEW MyNursingLab with Pearson eText -- Access Card -- for Pediatric Nursing (24-month access) provides students with a sound introduction to contemporary ethics. Artificial Intelligence for Future Generation Robotics offers a vision for potential future robotics applications for AI technologies. Each chapter includes theory and mathematics to stimulate novel research directions based on the state-of-the-art in AI and smart robotics. Organized by application into ten chapters, this book offers a practical tool for researchers and engineers looking for new avenues and use-cases that combine AI with smart robotics. As we witness exponential growth in automation and the rapid advancement of underpinning technologies, such as ubiquitous computing, sensing, intelligent data processing, mobile computing and context aware applications, this book is an ideal resource for future innovation. Brings AI and smart robotics into imaginative, technically-informed dialogue Integrates fundamentals with real-world applications Presents potential applications for AI in smart robotics by use-case Gives detailed theory and mathematical calculations for each application Stimulates new thinking and research in applying AI to robotics A SHOTS MAG BOOK OF THE YEAR THE STUNNING FOURTH BOOK IN THE DS ALEXANDRA CUPIDI INVESTIGATIONS FROM ONE OF CRIME FICTION'S FINEST WRITERS A

DOUBLE MURDER The naked corpses of Aylmer and Mary Younis are discovered in their home. The only clues are a note written in blood and an eerie report of two spectral figures departing the crime scene. Officer Jill Ferriter is charged with investigating the murders while her colleague Alex Cupidi is on leave, recovering from post-traumatic stress.

AN ELABORATE SCAM The dead couple had made investments in a green reforestry scheme in Guatemala, resulting in the loss of all their savings. What is more disturbing is that Cupidi and Ferriter's disgraced former colleague and friend Bill South is also on the list of investors and the Younis's were not the only losers.

AN UNLIKELY KILLER Despite being in counselling and receiving official warnings to stay away from police work Cupidi finds herself dragged into the case and begins to trawl among the secrets and lies that are held in the fishing community of Folkestone. Desperate to exonerate South she finds herself murderously compromised when personal relationships cloud her judgement. Pacey, intense and riddled with surprising twists, *The Trawlerman* shows that deceit can be found in the most unlikely places. The brooding waters of the Kent coastline offer an ominous backdrop for this lively page-turner of corruption, mental health and the complexities of human connection. Can one impulsive comment on an article online lead to lasting love?

Paisley Paisley Colburn has always loved animals more than people. When she finds out that the animal shelter that she works at lost out on expanding because they were outbid by some giant corporation, she reacts impulsively and vents in the comment section of their website. She had no idea that one comment was about to change her whole life.

Levi One message. That's all it takes to have Levi hooked. He loves sparring with her. He loves her wit. He loves her. When their relationship moves off the computer screen to real life, will Levi be able to convince Paisley that he's still the man she fell for online?

*Warning: This love by letter book is a quick sweet read. Looking for a Hero who would do anything to keep his girl? Then this short read is for you!

This philosophy book does two things: (1) introduces students to the major themes and thinkers in the philosophic tradition and (2) show how the issues students encounter in the great thinkers section apply to concerns they encounter in their life experiences. This best-selling text continues in its eighth edition to provide the most current and comprehensive coverage of business research. Its student-friendly design contains numerous examples illustrating real-world research in management, marketing, finance, accounting, and other business areas.

BUSINESS RESEARCH METHODS, 8E, is the ideal text for undergraduate and first year MBA courses in marketing, management, or quantitative studies. A landmark publication in the teaching of international law from one of the world's leading international lawyers. This refreshingly clear, concise textbook conveys the dynamics of international law through four questions: Where does it come from? To whom does it apply? How does it resolve conflict? What does it say? Revised edition of the authors' *Managing business ethics*, [2014] Offers a lucid overview of the central issues in bioethics today, including reproductive technologies, right-to-die, AIDS, eugenics, and human genetics. Presenting differing viewpoints from world-renowned scholars, this thought-provoking book provides an excellent framework for analyzing key issues. In the first book of the *Shaw Confessions*, the companion series to the New York Times bestselling *Mara Dyer* novels, old skeletons are laid bare and new promises prove deadly. This is what happens after happily ever after. Everyone thinks seventeen-year-old Noah Shaw has the world on a string. They're wrong. *Mara Dyer* is the only one he trusts with his secrets and his future. He shouldn't. And both are scared that uncovering the truth about themselves will force them apart. They're right. The definitive and authoritative international law text, updated to reflect key case law, international practice and treaty developments. We live in a world where science and technology shape the global economy and everyday culture, where new biotechnologies are changing what we eat and how we can reproduce, and where email, mobiles and the internet have revolutionised the ways we communicate with each other and engage with the world outside us.

Technoculture: The Key Concepts explores the power of scientific ideas, their impact on how we understand the natural world and how successive technological developments have influenced our attitudes to work, art, space, language and the human body. Throughout, the lively discussion of ideas is illustrated with provocative case studies - from biotech foods to life-support systems, from the Walkman and iPod to sex and cloning, from video games to military hardware. Designed to be both

provocative and instructive, *Technoculture: The Key Concepts* outlines the place of science and technology in today's culture. Jim moves to ancient Minerva Hall and encounters the ghosts of six children. They urge him to find the seventh child and leave him cryptic clues that point to a dark, ancient prophecy that only Jim can stop from being fulfilled. Jim turns to Einstein, a brilliant autistic boy who lives at the Hall. If anyone can help Jim, Einstein can. But the boy, who speaks in riddles, proves to be as mysterious as the dead children. Time is running out; if Jim doesn't figure out the clues, innocent people will die. Christine Morton-Shaw has linked ancient rites with modern mystery to create a chilling, suspenseful tale that will keep readers guessing to the very end. Through six previous editions, *Airline Marketing and Management* has established itself as the leading textbook for students of marketing and its application to today's airline industry, as well as a reference work for those with a professional interest in the area. Carefully revised, the seventh edition of this internationally successful book examines an exceptionally turbulent period for the industry. It features new material on: *Changes in customer needs, particularly regarding more business travellers choosing - or being forced - to travel economy, and analysis of the bankruptcy of 'All Business Class' airlines. * An explanation of the US/EU 'Open Skies' agreement and analysis of its impact. *The increase in alliance activity and completion of several recent mergers, and the marketing advantages and disadvantages that have resulted. * Product adjustments that airlines must make to adapt to changes in the marketing environment, such as schedule re-adjustments and the reconfiguration of aircraft cabins. *Changes in pricing philosophies, with, for example, airlines moving to 'A La Carte' pricing, whereby baggage, catering and priority boarding are paid for as extras. *Airline websites and their role as both a selling and distributing tool. *The future of airline marketing. A review of the structure of the air transport market and the marketing environment is followed by detailed chapters examining business and marketing strategies, product design and management, pricing and revenue management, current and future distribution channels, and selling, advertising and promotional policies. The reader will benefit from greater understanding of both marketing and airline industry jargon and from knowledge obtained regarding the extraordinary strategic challenges now facing aviation. Written in a straightforward, easy-to-read style and combining up-to-date and relevant examples drawn from the worldwide aviation industry, this new edition will further enhance the book's reputation for providing the ideal introduction to the subject. *The World Today* is the number one bestselling brief World Regional Geography textbook. The seventh edition continues to bring readers geographic perspectives on a fast-changing world through the regional view. Restructured chapters provide a macro review of important physical, cultural, and political characteristics, drawing upon up-to-date significant world events and crises. The cartographically superior maps have been updated for the seventh edition to offer an accurate and vast picture of the world--multi-layer, interactive, GIA maps have been added to WileyPLUS Learning Space. To complement the extensive map program, the majority of the photos have been taken by our authors during their field research, allowing the student to experience an authentic geographical viewpoint of our world. Fourteen-year-old Joey Campbell knows that he is lucky to be one of the survivors of the school fire. But really, how much luck is involved when he is the lone student to stand up during a fire drill? The only one who insists on getting out of the classroom? Joey's best friend, Maureen, thankfully decides to follow, but the remaining twenty-four people in Room E201 are swallowed in the mysterious blaze that engulfs their school. Other than Joey's classroom, the rest of the students heed the fire alarm and survive, but grief-stricken parents and classmates have no one to lash out against except Joey and Maureen. Behind a fence that his dad builds for their own safety, Joey deals with rage, sorrow, and helplessness in equal measure. Some solace can be found within the pages of his journal, but ultimately he must face the living in order to accept everyone and everything that is dead and gone. *The Gospel Coalition Top Books of 2015* in Christian Living *Tim Challies' Top Books of 2015* *ProdigalThought.net's Top Reads of 2015* *Leadership Journal's Best Ministry Books of the Year* When Christians have same-sex attraction, how should the church respond? Pastor Ed Shaw experiences same-sex attraction, and yet he is committed to Scripture and the church's traditional position of fidelity in heterosexual marriage and celibacy in singleness. In this honest book, he shares his pain in dealing

with these issues, but at the same time shows us that obedience to Jesus is ultimately the only way to experience life to the full. He shows that the Bible's teaching seems unreasonable not because of its difficulties, but because of missteps that the church has often taken in its understanding of the Christian life. We have been shaped by the world around us and urgently need to re-examine the values that drive our discipleship. Only by doing this in the light of the Bible can we make sense of its call on the lives of those who are attracted to their own sex.
