Red, White, and Black Robert L. Woodson, Sr.,2021-05-11 In the rush to redefine the

place of black Americans in contemporary society many radical activists and academics have mounted a campaign to destroy

traditional American history and replace it with a politicized version that few would recognize According to the new radical

orthodoxy the United States was founded as a racist nation and everything that has happened throughout our history must be

viewed through the lens of the systemic oppression of black people Rejecting this false narrative a collection of the most

prominent and respected black scholars and thinkers has come together to correct the record and tell the true story of black

Americans in all its complexity diversity of experience and poignancy Collectively they paint a vivid picture of black people
