Afghanistan from naval shipping some 400 miles away The historic assault not only blazed a path for follow on forces it also cut off fleeing al Qaeda and Taliban elements and aided in the seizure of Kandahar While Corps doctrine and culture advocates Marine employment as a fully integrated Marine air ground task force MAGTF deployments to Afghanistan often reflected what former Commandant General Charles C Krulak coined as the three block war Following TF 58 s deployment during the initial take down of the Taliban regime the MAGTF made few appearances in Afghanistan until 2008 Before then subsequent Marine units often deployed as a single battalion under the command of the U S Army Combined Joint Task Force CJTF to provide security for provincial reconstruction teams The Marine Corps also provided embedded training teams to train and mentor the fledgling Afghan National Army and Police Aviation assets sporadically deployed to support the U S led coalition mostly to conduct a specific mission or to bridge a gap in capability such as close air support or electronic warfare to counter the improvised explosive device threat From 2003 to late 2007 the national preoccupation with stabilizing Iraq focused most Marine Corps assets on stemming the insurgency largely centered in the restive al Anbar Province As a result of the North Atlantic Treaty Organization NATO taking over command of Afghan operations and Marine Corps commitments in Iraq relatively few Marine units operated in Afghanistan from late 2006 to 2007 Although Marines first advocated shifting resources from al Anbar to southern Afghanistan in early 2007 the George W Bush administration delayed the Marine proposal for fear of losing the gains made as a result of Army General David H Petraeus surge strategy in Iraq By late 2007 the situation in Afghanistan had deteriorated to the point that it inspired Rolling Stone to later publish the story How We Lost the War We Won In recognition of the shifting tides in both Iraq and Afghanistan the Bush administration began to transfer additional resources to Afghanistan in early 2008 The shift prompted senior Marines to again push for a more prominent role in the Afghan campaign even proposing to take over the Afghan mission from the Army

Good Strategy Bad Strategy
Richard Rumelt, 2011-07-19 *Good Strategy Bad Strategy* clarifies the muddled thinking underlying too many strategies and provides a clear way to create and implement a powerful action oriented strategy for the real world Developing and implementing a strategy is the central task of a leader A good strategy is a specific and coherent response to and approach for overcoming the obstacles to progress A good strategy works by harnessing and applying power where it will have the greatest effect Yet Rumelt shows that there has been a growing and unfortunate tendency to equate Mom and apple pie values fluffy packages of buzzwords motivational slogans and financial goals with strategy In *Good Strategy Bad Strategy* he debunks these elements of bad strategy and awakens an understanding of the power of a good strategy He introduces nine sources of power ranging from using leverage to effectively focusing on growth that are eye opening yet pragmatic tools that can easily be put to work on Monday morning and uses fascinating examples from business nonprofit and military affairs to bring its original and pragmatic ideas to life The detailed examples range from Apple to General Motors from the two Iraq wars to Afghanistan from a small local market to Wal Mart from Nvidia to Silicon Graphics from the Getty Trust to the Los

Angeles Unified School District from Cisco Systems to Paccar and from Global Crossing to the 2007 08 financial crisis Reflecting an astonishing grasp and integration of economics finance technology history and the brilliance and foibles of the human character Good Strategy Bad Strategy stems from Rumelt s decades of digging beyond the superficial to address hard questions with honesty and integrity Classical And Quantum Dynamics In Condensed Phase Simulations: Proceedings Of The International School Of Physics Bruce J Berne,Giovanni Ciccotti,David F Coker,1998-06-17 The school held at Villa Marigola Lerici Italy in July 1997 was very much an educational experiment aimed not just at teaching a new generation of students the latest developments in computer simulation methods and theory but also at bringing together researchers from the condensed matter computer simulation community the biophysical chemistry community and the quantum dynamics community to confront the shared problem the development of methods to treat the dynamics of quantum condensed phase systems This volume collects the lectures delivered there Due to the focus of the school the contributions divide along natural lines into two broad groups 1 the most sophisticated forms of the art of computer simulation including biased phase space sampling schemes methods which address the multiplicity of time scales in condensed phase problems and static equilibrium methods for treating quantum systems 2 the contributions on quantum dynamics including methods for mixing quantum and classical dynamics in condensed phase simulations and methods capable of treating all degrees of freedom quantum mechanically *Staff Ride Handbook for the Attack on Pearl Harbor, 7 December 1941* Jeffrey J.
