AD 50-135) was a former Roman slave who became a great teacher, deeply influencing the future emperor Marcus Aurelius among many others. His philosophy, Stoicism, was practical, not theoretical--aimed at relieving human suffering here and now. Epictetus knew suffering--besides being enslaved, he was lame in one leg and walked with a crutch. The Manual is a collection of Epictetus' essential teachings and pithy sayings, compiled by one of his students. It is the most accessible and actionable guide to Stoic philosophy, as relevant today as it was in the Roman Empire. This new edition, published by Ancient Renewal, is rendered in contemporary English by Sam Torode. Emetophobia is one of the least known and most debilitating phobias. Ken Goodman has created an easy to follow, step-by-step program to help emetophobe and panic attacks sufferers transform their lives. Unfortunately, people don't make real change by learning new information. They change by living new experiences. The Emetophobia Manual lays out an experiential program that includes dozens of transformative exercises as well as QR codes enabling readers to watch videos on their smart phone. The tools and strategies in this program are based on Cognitive Behavioral Therapy, which has been validated by research as the most effective treatment for anxiety. With eye-opening metaphors, powerful tools, and lighthearted humor, Goodman gets readers onto their feet and motivates them to take steps towards freedom. Otherwise, it's like reading a cookbook in bed. In the end, you have nothing to show for it.
