“The discourse of our common life inclines towards despair. In my field of journalism, where we presume to write the first draft of history, we summon our deepest critical capacities for investigating what is inadequate, corrupt, catastrophic, and failing. The ‘news’ is defined as the extraordinary events of the day, but it is most often translated as the extraordinarily terrible events of the day. And in an immersive 24/7 news cycle, we internalize the deluge of bad news as the norm—the real truth of who we are and what we’re up against as a species. But my work has shown me that spiritual geniuses of the everyday are everywhere. They are in the margins and do not have publicists. They are below the radar, which is broken.”

Peabody Award-winning broadcaster and National Humanities Medalist Krista Tippett has interviewed the most extraordinary voices examining the great questions of meaning for our time. The heart of her work on her national public radio program and podcast, *On Being*, has

been to shine a light on people whose insights kindle in us a sense of wonder and courage. Scientists in a variety of fields; theologians from an array of faiths; poets, activists, and many others have all opened themselves up to Tippet's compassionate yet searching conversation. In *Becoming Wise*, Tippet distills the insights she has gleaned from this luminous conversation in its many dimensions into a coherent narrative journey, over time and from mind to mind. The book is a master class in living, curated by Tippet and accompanied by a delightfully ecumenical dream team of teaching faculty. The open questions and challenges of our time are intimate and civilizational all at once, Tippet says – definitions of when life begins and when death happens, of the meaning of community and family and identity, of our relationships to technology and through technology. The wisdom we seek emerges through the raw materials of the everyday. And the enduring question of what it means to be human has now become inextricable from the question of who we are to each other. This book offers a grounded and fiercely hopeful vision of humanity for this century – of personal growth but also renewed public life and human spiritual evolution. It insists on the possibility of a common life for this century marked by resilience and redemption, with beauty as a core moral value and civility and love as muscular practice. Krista Tippet's great gift, in her work and in *Becoming Wise*, is to avoid reductive simplifications but still find the golden threads that weave people and ideas together into a shimmering braid. One powerful common denominator of the lessons imparted to Tippet is the gift of presence, of the exhilaration of engagement with life for its own sake, not as a means to an end. But presence does not mean passivity or acceptance of the status quo.

Indeed Tippett and her teachers are people whose work meets, and often drives, powerful forces of change alive in the world today. In the end, perhaps the greatest blessing conveyed by the lessons of spiritual genius Tippett harvests in *Becoming Wise* is the strength to meet the world where it really is, and then to make it better. At first glance Yankee born Sheryl Vasso and Southerner Cammy Tidwell make an unlikely pair. Sheryl, who holds a Doctorate of Education from Immaculata University, has spent the last several years traveling the world as a professor of teachers enrolled in graduate studies. Currently, she is Chair of the Master of Science and Education Program at Philadelphia Biblical University and thrills to incorporate God's Word into every classroom discussion. After pursuing her own Master's of Combined Sciences from Mississippi College, Cammy found that marriage and motherhood took her out of the "professional world" for a while although she never once stopped studying, learning and teaching God's word. A close look, however, shows similarities far outweigh their differences. They are devoted to their families, and they both love words. It was through "words" that Sheryl and Cammy met when Cammy first heard Sheryl as a speaker. A few months later Sheryl was in the audience when Cammy spoke. Not long afterward, an incredible friendship began and a partnership was born. Now they share the speaking platform and their words in print at www.wordsofworth.com. Their first published work, *Word Wise*, is rooted in a difference they often discussed. While Sheryl has been reading a proverb a day for over twenty years, Cammy, also a faithful student of Scripture has just come to "appreciate" this book of wisdom. One thing for sure, both Sheryl and Cammy love words and desire to use them to glorify God in a wise way. (Both Sheryl and Cammy live in Newtown,

PA) Word Wise connects King Solomon's wisdom found in the Old Testament book of Proverbs with the New Testament words of King Jesus. By bridging one King's wisdom with another King's words, you will find practical instruction for using words in the wisest way.

This verse-by-verse commentary on First Corinthians offers a thorough but very understandable commentary on the entirety of Paul's letter to the Corinthians. Since the First Corinthians letter touches on a number of different subjects, this volume also offers some special studies to more fully explore what the Bible says on additional topics like civil government, the role of women in the church, spiritual gifts, etc. If you want to have a better understanding of First Corinthians, this commentary will help you! Here is a small sample of the text: Introduction to First Corinthians 13: Some consider 1 Cor. 13 the "love chapter of the Bible" or a "parenthetical description of love," but this chapter is actually an integral part of Paul's discussion about spiritual gifts. Since the Corinthians were rude, jealous, and boastful, it was necessary for them "to go beyond their present pursuit. To the apostle, the development of the character of the person was superior to the exercise of the gift. His contrasts (chap. 13) are clear: gifts without love vs. gifts with love, and the permanence of love vs. the temporal nature of gifts" (Gromacki, p. 159). Stated another way, verses 1-3 affirm that spiritual gifts were worthless without love, verses 4-7 affirm that love was superior to the gifts, and verses 8-13 assert that spiritual gifts were temporal but love abides. Although

1 Cor. 13 may seem familiar to many, this chapter is often one of the most misunderstood parts of the New Testament. The Corinthians' elevation of spiritual gifts over love is seen in places such as 12:13-25; 14:27-33, 40. It is also found by contrasting the qualities in 1 Cor. 13 with other sections of this epistle. For instance, love "suffers long" (13:4), but tongue speakers at Corinth were impatient (14:27-28). Love does not "envy" (13:4), but the Corinthians envied the gifts of others (chapter 12). Love "is not puffed up" (13:4), but tongue speakers were proud (compare 13:1). Love causes people to act in a kind and orderly way, but some of the Corinthians' behavior was disorderly (14:23, 40). Love is not "unseemly," but the Corinthians were at risk of unseemly behavior in their families (1 Cor. 7:36) as well as their Sunday assemblies (1 Cor. 11:2-16, 17-34). Agape love "does not seek its own" (13:5), but these Christians were seeking their own (see 1 Cor. 8 and the discussion about idol meat). Love keeps people from "rejoicing in evil" (13:6), but the Corinthians rejoiced in evil (1 Cor. 5:2, 6). There were various things that "provoked" these brethren (13:5) and it seems they were "keeping a record of evil" (1 Cor. 13:5). It was time for the members of this congregation to show some spiritual maturity and demonstrate the type of love that "bears all things, believes all things, hopes in all things, and endures all things" (1 Cor. 13:7). Bloomsbury Class 4 Semester 2 Teacher Resource Book (Academic Year 2023-24) As S. Morris Engel alerts us in this eye-opening book, we risk falling into potentially harmful language traps every moment. Not just the occasional malapropism or grammatical faux pas, but a more sinister kind — distortions of meaning that would persuade us to believe something that may not be true. Sometimes these language traps are set for us deliberately by politicians, advertisers, journalists, lawyers or other professional persuaders. Sometimes they are set inadvertently by our friends, our loved ones — even ourselves. This work explains how and why these fallacies work, and how we may suffer the consequences when they do. Day after day we listen to government newspeak (our troops are called "peace-keeping forces"), exaggerated advertising claims from "leading authorities," twisted logic and misleading propaganda. We are treated to more and more euphemisms (slums are called "substandard housing"; dogcatchers, "animal welfare officers"). We encounter innumerable ambiguities ("I wish you all the good fortune you deserve") — and indulge in a few ourselves. The author wittily explores this verbal

minefield, and tells us how to spot a language trap and how to avoid falling in. The book is not only a useful manual of verbal self-defense, it's an engrossing study of the nature of language and the subtle ways in which it operates. It will intrigue anyone interested in words, language, and the dynamics of modern culture. The third edition of Life Span Human Development helps students gain a deeper understanding of the many interacting forces affecting development from infancy, childhood, adolescence and adulthood. It includes local, multicultural and indigenous issues and perspectives, local research in development, regionally relevant statistical information, and National guidelines on health. Taking a unique integrated topical and chronological approach, each chapter focuses on a domain of development such as physical growth, cognition, or personality, and traces developmental trends and influences in that domain from infancy to old age. Within each chapter, you will find sections on four life stages: infancy, childhood, adolescence and adulthood. This distinctive organisation enables students to comprehend the processes of transformation that occur in key areas of human development. This text also includes a MindTap course offering, with a strong suite of resources, including videos and the

chronological sections within the text can be easily customised to suit academic and student needs. When Leo XIII promulgated *Aeterni Patris* in 1879, he stipulated that the "Leonine," or official, edition of the *Summa* should always be printed in conjunction with Cajetan's Commentary. For five hundred years they were studied together. Generations were trained by reading through the *Summa* article by article with Cajetan's commentaries in hand. Early printed editions of the *Summa* typically included them in a Talmudic arrangement, as marginal text running around each article by Aquinas. This edition imitates that example. Recently, serious thinkers of all denominations-and none-have found new reasons to be interested in St. Thomas. His text is deceptively simple, yet important issues are handled in every article, sometimes below the surface. Cajetan extracts these hidden issues, and explains and elaborates on them with remarkable affinity to modern analytical philosophy. Part of that affinity lies in the use of modal logic, a tool whose importance was overlooked between the Renaissance and the twentieth century. The time is ripe for an analytically-inspired translation of Thomas: hence this volume. Never until now has Cajetan's Commentary been put into English in its entirety. William Marshner's translation is consistent with fidelity to the technical force of the original. The translator's footnotes acknowledge what empirical science has made obsolete in the work of St. Thomas, and also make clear how much today's science would have saved Thomas useless labor. This volume will, for the first time, make Cajetan's help available to the modern reader. Dialectical behavior therapy (DBT) skills have been demonstrated to be effective in helping adolescents manage difficult emotional situations, cope with stress, and make better decisions. From leading experts in

DBT and school-based interventions, this unique manual offers the first nonclinical application of DBT skills. The book presents an innovative social–emotional learning curriculum designed to be taught at the universal level in grades 6–12. Explicit instructions for teaching the skills--mindfulness, distress tolerance, emotion regulation, and interpersonal effectiveness--are provided in 30 lesson plans, complete with numerous reproducible tools: 99 handouts, a diary card, and three student tests. The large-size format facilitates photocopying; purchasers also get access to a webpage where they can download and print the reproducible materials. This book is in The Guilford Practical Intervention in the Schools Series, edited by Sandra M. Chafouleas.
