**An Introduction to the Ancient World** Lukas de Blois, R.J. van der Spek, 2008-10-24 Integrating the results of scholarly work from the past decade, the authors of *An Introduction to the Ancient World* Lukas de Blois and R.J. van der Spek have fully updated and revised all sixteen chapters of this best-selling introductory textbook. Covering the history and culture of the ancient Near East, Greece, and Rome within the framework of a short narrative history of events, this book offers an easily readable, integrated overview for students of history, classics, archaeology, and philosophy, whether at college or undergraduate level or among the wider reading public. This revised second edition offers a new section on early Christianity and more specific information on the religions, economies, and societies of the ancient Near East. There is extended coverage of Greek, Macedonian, and Near Eastern history of the fourth to second centuries BC and the history of the Late Roman Republic. The consequences of Julius Caesar's violent death are covered in more detail, as are the history and society of Imperial Rome. This new edition is comprehensive, covers 3,000 years of ancient history, and provides the basis for a typical one-semester course. Lavishly illustrated, it contains maps, line drawings, and plates to support and supplement the text, with updated captions, clearly and concisely written, by two established and respected university teachers with thirty years' experience in the subject areas. Well organized, it traces the broad outline of political history but also concentrates on particular topics. User-friendly, it includes chapter menus, an extensive and expanded bibliography organized by subject area, and three appendices, an improved introduction, and the addition of an epilogue.

*World Studies: the Ancient World* Heidi Hayes Jacobs, Michal L. LeVasseur, Pearson Education, Inc, 2005

**The Ancient World (Yesterday's Classics)** Albert Malet, 2021-04-06 A comprehensive introduction to the ancient civilizations that arose in the Mediterranean Basin with special emphasis on how geographical features shaped their development. The book is divided into three sections: The Eastern Empire, Greece, and Rome. In the first section, the reader encounters the civilizations of Egypt, Chaldea, Assyria, Phoenicia, and Persia, learning not only the basis of each civilization but how they interacted with each other and how they changed over time. In the second section, on Greece, the rivalry between Athens and Sparta is highlighted, showing clearly the highly divergent cultures of Athens and Sparta, followed by the rise of Alexander the Great and the conquest of Asia. Turning to Rome, the reader experiences the growth of Rome from its early days to the establishment of the republic, then the rise of the Roman Empire and its eventual decline. Ambitions of leading figures are clearly articulated along with the strategies they used to achieve their ends. Throughout the narrative, the author relates findings that expand our understanding of the ancient world, archaeological discoveries in Troy, Egypt, and Pompeii, and traces the development of things as foundational to our civilization as our alphabet and our form of government. This is the rare history book that is a joy to read, that provokes thought on a number of levels, and that uses language that is often arresting, as when he repeats the words of an Arabian conqueror: Egypt is in succession a mud field, a sea of fresh water, and a flower garden.
