The Challenge of Youth Employment in Sri Lanka Ramani Gunatillaka, Markus Mayer, Milan Vodopivec, 2010-05-11 Sri Lanka has long been regarded as a model of a successful welfare state in a low income setting yet it has not succeeded in creating a sufficient number of good jobs for the increasing number of young people Hence young Sri Lankans perceive their country as an unjust and unequal society in which mainstream institutions have failed to address inequalities in the distribution of resources as well as of benefits deriving from economic growth Against this background *The Challenge of Youth Employment in Sri Lanka* aims to identify ways to improve the opportunities available to new job market entrants by addressing existing inequalities and to help young people more fully realize their potentials Drawing from original research and a review of existing studies the authors use the 4Es conceptual framework to analyze four key aspects of labor markets employment creation employability entrepreneurship

enterprising book focuses on an apparent paradox the failure of Sri Lanka s highly politicized smallholder electorate to place on the national political agenda issues relating to the public distribution of material resources Sri Lanka has more than fifty years history of pluralist democracy and such issues directly affect the interests of the smallholder population Yet successive Sri Lankan governments have pursued economic policies favouring food consumers and the state itself at the expense of agricultural producers In exploring the features of Sri Lanka s history geography politics and economy which explain this paradox the author looks in detail at some of the dominant features of contemporary Sri Lanka the political consequences of the plantation experience the persistence of elite political leadership and the causes and consequences of ethnic conflict
