How Judaism Became a Religion Mar 06 2021 A new approach to understanding Jewish thought since the eighteenth century Is Judaism a religion, a culture, a nationality—or a mixture of all of these? In How Judaism Became a Religion, Leora Batnitzky boldly argues that this question more than any other has driven modern Jewish thought since the eighteenth century. This wide-ranging and lucid introduction tells the story of how Judaism came to be defined as a religion in the modern period—and why Jewish thinkers have fought as well as championed this idea. Ever since the Enlightenment, Jewish thinkers have debated whether and how Judaism—largely a religion of practice and public adherence to law—can fit into a modern, Protestant conception of religion as an individual and private matter of belief or faith. Batnitzky makes the novel argument that it is this clash between the modern category of religion and Judaism that is responsible for much of the creative tension in modern Jewish thought. Tracing how the idea of Jewish religion has been defended and resisted from the eighteenth century to today, the book discusses many of the major Jewish thinkers of the past three centuries, including Moses Mendelssohn, Abraham Geiger, Hermann Cohen, Martin Buber, Zvi Yehuda Kook, Theodor Herzl, and Mordecai Kaplan. At the same time, it tells the story of modern orthodoxy, the German-Jewish renaissance, Jewish religion after the Holocaust, the emergence of the Jewish individual, the birth of Jewish nationalism, and Jewish religion in America. More than an introduction, How Judaism Became a Religion presents a compelling new perspective on the history of modern Jewish thought.

Genius for Justice Jul 22 2022 Dr. Charles Hamilton Houston was an outstanding Harvard-trained Supreme Court lawyer for the NAACP. As Dean of Howard University Law School, he mentored future Supreme Court Justice Thurgood Marshall. As architect of the Brown v. Board of Education case, he is often called the man who killed "Jim Crow." This unsung African-American hero also transformed American law in labor, criminal justice, and the First Amendment.

Brother West Dec 07 2023 New York Times best-selling author Cornel West is one of America's most provocative and admired public intellectuals. Whether in the classroom, the streets, the prisons, or the church, Dr. West's penetrating brilliance has been a bright beacon shining through the darkness for decades. Yet, as he points out in this new memoir, I've never taken ...

Redemption Oct 25 2022 An "immersive, humanizing, and demystifying" look at the final hours of Martin Luther King, Jr.'s life as he seeks to revive the non-violent civil rights movement and push to end poverty in America (Charles Blow, New York Times). "King comes to life in death—a courage ever so inspiring." —Ibram X. Kendi, author of Stamped from the Beginning At 10:33 a.m. on April 3, 1968, Dr. Martin Luther King, Jr., landed in Memphis on a flight from Atlanta. A march that he had led in Memphis six days earlier to support striking garbage workers had turned into a riot, and King was returning to prove that he could lead a violence-free protest. King's reputation as a credible, non-violent leader of the civil rights movement was in jeopardy just as he was launching the Poor Peoples Campaign. He was calling for massive civil disobedience in the nation's capital to pressure lawmakers to enact sweeping anti-poverty legislation. But King didn't live long enough to lead the protest. He was fatally shot at 6:01 p.m. on April 4 in Memphis. Redemption is an intimate look at the last thirty-one hours and twenty-eight minutes of King's life. King was exhausted from a brutal speaking schedule. He was being denounced in

the press and by political leaders as an agent of violence. He was facing dissent even within the civil rights movement and among his own staff at the Southern Christian Leadership Conference. In Memphis, a federal court injunction was barring him from marching. As threats against King mounted, he feared an imminent, violent death. The risks were enormous, the pressure intense. On the stormy night of April 3, King gathered the strength to speak at a rally on behalf of sanitation workers. The “Mountaintop Speech,” an eloquent and passionate appeal for workers’ rights and economic justice, exhibited his oratorical mastery at its finest. Redemption draws on dozens of interviews by the author with people who were immersed in the Memphis events, features recently released documents from Atlanta archives, and includes compelling photos. The fresh material reveals untold facets of the story including a never-before-reported lapse by the Memphis Police Department to provide security for King. It unveils financial and logistical dilemmas, and recounts the emotional and marital pressures that were bedeviling King. Also revealed is what his assassin, James Earl Ray, was doing in Memphis during the same time and how a series of extraordinary breaks enabled Ray to construct a sniper’s nest and shoot King.

[Policing the Planet](#) Jun 20 2022 How policing became the major political issue of our time Combining firsthand accounts from activists with the research of scholars and reflections from artists, *Policing the Planet* traces the global spread of the broken-windows policing strategy, first established in New York City under Police Commissioner William Bratton. It’s a doctrine that has vastly broadened police power the world over—to deadly effect. With contributions from #BlackLivesMatter cofounder Patrisse Cullors, Ferguson activist and Law Professor Justin Hansford, Director of New York–based Communities United for Police Reform Joo-Hyun Kang, poet Martín Espada, and journalist Anjali Kamat, as well as articles from leading scholars Ruth Wilson Gilmore, Robin D. G. Kelley, Naomi Murakawa, Vijay Prashad, and more, *Policing the Planet* describes ongoing struggles from New York to Baltimore to Los Angeles, London, San Juan, San Salvador, and beyond.

For My People: Black Theology and the Black Church Sep 11 2021

[Restoring Hope](#) Nov 06 2023 ‘Cornel West is one of the most authentic, brilliant, prophetic, and healing voices in America today’ --Marian Wright Edelman Nine of America’s most influential artists, scholars, and public figures—Maya Angelou, Bill Bradley, Harry Belafonte, Patricia Williams, Wynton Marsalis, Charlayne Hunter-Gault, James Washington, James Forbes, and Haki Madhubuti—talk with Cornel West about their political awareness, art and politics, and the possibility of hope among African-Americans today.

The Crooked Path to Abolition: Abraham Lincoln and the Antislavery Constitution Jan 16 2022 Finalist for the 2022 Lincoln Prize An award-winning scholar uncovers the guiding principles of Lincoln’s antislavery strategies. The long and turning path to the abolition of American slavery has often been attributed to the equivocations and inconsistencies of antislavery leaders, including Lincoln himself. But James Oakes’s brilliant history of Lincoln’s antislavery strategies reveals a striking consistency and commitment extending over many years. The linchpin of antislavery for Lincoln was the Constitution of the United States. Lincoln adopted the antislavery view that the Constitution made freedom the rule in the United States, slavery the exception. Where federal power prevailed, so did freedom. Where state power prevailed, that state determined the status of slavery, and the federal government could not interfere. It would take state action to achieve the final abolition of American slavery. With this understanding, Lincoln and his antislavery allies used every tool available to undermine the institution. Wherever the Constitution empowered direct federal action—in the western territories, in the District of Columbia, over the slave trade—they intervened. As a congressman in 1849 Lincoln sponsored a bill to abolish slavery in Washington, DC. He reentered politics in 1854 to oppose what he considered the unconstitutional opening of the territories to slavery by the Kansas–Nebraska Act. He attempted to persuade states to abolish slavery by supporting gradual abolition with compensation for slaveholders and the colonization of free Blacks abroad. President Lincoln took full advantage of the antislavery options opened by the Civil War. Enslaved people who escaped to Union lines were declared free. The Emancipation Proclamation, a military order of the president, undermined slavery across the South. It led to abolition by six slave states, which then joined the coalition to affect what Lincoln called the “King’s cure”: state ratification of the constitutional amendment that in 1865 finally abolished slavery.

[Conversations with Cornel West](#) Nov 25 2022 ‘These interviews deftly highlight... the life and thought of Cornel West. Teodros Kiros, one of our leading living philosophers, novelists, television personalities, and commentators on modern African life, brilliantly weaves together a series of dialogues that novices

and experts of West's work alike will find invaluable. The questioning of Kiros and responses of West encourage us to meditate on the meaning of A Love Supreme from the heart, which the Ethiopian thinker Zara Yacob maintained is the site of reason.' --Neil Roberts, Professor of Political Science, Williams College

Black Prophetic Fire Jun 13 2024 An unflinching look at nineteenth- and twentieth-century African American leaders and their visionary legacies. In an accessible, conversational format, Cornel West, with distinguished scholar Christa Buschendorf, provides a fresh perspective on six revolutionary African American leaders: Frederick Douglass, W. E. B. Du Bois, Martin Luther King Jr., Ella Baker, Malcolm X, and Ida B. Wells. In dialogue with Buschendorf, West examines the impact of these men and women on their own eras and across the decades. He not only rediscovers the integrity and commitment within these passionate advocates but also their fault lines. West, in these illuminating conversations with the German scholar and thinker Christa Buschendorf, describes Douglass as a complex man who is both “the towering Black freedom fighter of the nineteenth century” and a product of his time who lost sight of the fight for civil rights after the emancipation. He calls Du Bois “undeniably the most important Black intellectual of the twentieth century” and explores the more radical aspects of his thinking in order to understand his uncompromising critique of the United States, which has been omitted from the American collective memory. West argues that our selective memory has sanitized and even “Santaclausified” Martin Luther King Jr., rendering him less radical, and has marginalized Ella Baker, who embodies the grassroots organizing of the civil rights movement. The controversial Malcolm X, who is often seen as a proponent of reverse racism, hatred, and violence, has been demonized in a false opposition with King, while the appeal of his rhetoric and sincerity to students has been sidelined. Ida B. Wells, West argues, shares Malcolm X’s radical spirit and fearless speech, but has “often become the victim of public amnesia.” By providing new insights that humanize all of these well-known figures, in the engrossing dialogue with Buschendorf, and in his insightful introduction and powerful closing essay, Cornel West takes an important step in rekindling the Black prophetic fire.

An African American and Latinx History of the United States Oct 13 2021 An intersectional history of the shared struggle for African American and Latinx civil rights. Spanning more than two hundred years, *An African American and Latinx History of the United States* is a revolutionary, politically charged narrative history, arguing that the “Global South” was crucial to the development of America as we know it. Scholar and activist Paul Ortiz challenges the notion of westward progress as exalted by widely taught formulations like “manifest destiny” and “Jacksonian democracy,” and shows how placing African American, Latinx, and Indigenous voices unapologetically front and center transforms US history into one of the working class organizing against imperialism. Drawing on rich narratives and primary source documents, Ortiz links racial segregation in the Southwest and the rise and violent fall of a powerful tradition of Mexican labor organizing in the twentieth century, to May 1, 2006, known as International Workers’ Day, when migrant laborers—Chicana/os, Afrocubanos, and immigrants from every continent on earth—united in resistance on the first “Day Without Immigrants.” As African American civil rights activists fought Jim Crow laws and Mexican labor organizers warred against the suffocating grip of capitalism, Black and Spanish-language newspapers, abolitionists, and Latin American revolutionaries coalesced around movements built between people from the United States and people from Central America and the Caribbean. In stark contrast to the resurgence of “America First” rhetoric, Black and Latinx intellectuals and organizers today have historically urged the United States to build bridges of solidarity with the nations of the Americas. Incisive and timely, this bottom-up history, told from the interconnected vantage points of Latinx and African Americans, reveals the radically different ways that people of the diaspora have addressed issues still plaguing the United States today, and it offers a way forward in the continued struggle for universal civil rights. 2018 Winner of the PEN Oakland/Josephine Miles Literary Award

Age Of X-Man Jul 02 2023 Collects *Age Of X-Man: Prisoner X #1-5*. The Danger Room holds the worst of the worst in the Age of X-Man! When you break the law in paradise, you aren’t sent to just any prison. You’re sent to the Danger Room — a penitentiary filled with the roughest and meanest mutants who don’t fit into X-Man’s utopia. They each have a reason for being there, and they’re all primed and ready to kill each other. But that’s about to change, because the Danger Room’s newest prisoner has just arrived: Lucas Bishop! As Bishop navigates the various mutant gangs to find the truth beyond the walls of the prison, can he trust the other inmates — including Magneto’s daughter, Polaris? Or will Bishop have to break out on his own? One way or another, these walls are coming down!

Breaking Bread Sep 04 2023 In this provocative and captivating dialogue, bell hooks and Cornel West come together to discuss the dilemmas, contradictions, and joys of Black intellectual life. The two friends and comrades in struggle talk, argue, and disagree about everything from community to capitalism in a series of intimate conversations that range from playful to probing to revelatory. In evoking the act of breaking bread, the book calls upon the various traditions of sharing that take place in domestic, secular, and sacred life where people come together to give themselves, to nurture life, to renew their spirits, sustain their hopes, and to make a lived politics of revolutionary struggle an ongoing practice. This 25th anniversary edition continues the dialogue with "In Solidarity," their 2016 conversation at the bell hooks Institute on racism, politics, popular culture and the contemporary Black experience.

The Courage to Hope Aug 23 2022 In this unique collaboration, the most prized and esteemed scholars in theology, religious history, and sociology offer a new understanding of American spiritual life by placing African-American religious experience at its center. Moving from specific cases in African-American history and theology to discussions of how African-American experiences can and should inform all studies of American life, they uncover the spiritual human soul that unites all of us. The editors call this project a "testament of hope," and it is a powerful tribute to the late James M. Washington, whose works were an inspirational search for universality. Contributors include James H. Cone, David D. Daniels III, Walter E. Fluker, Cheryl Townsend Gilkes, E. Lee Hancock, Dale T. Irvin, Carolyn Ann Knight, Charles H. Long, Sandy Dwayne Martin, Genna Rae McNeil, Richard Newman, Albert J. Raboteau, Gary V. Simpson, Mark V.C. Taylor, Judith Weisenfeld, and Lucas Wilson.

The Radical King Aug 03 2023 A revealing collection that restores Dr. King as being every bit as radical as Malcolm X "The radical King was a democratic socialist who sided with poor and working people in the class struggle taking place in capitalist societies. . . . The response of the radical King to our catastrophic moment can be put in one word: revolution—a revolution in our priorities, a reevaluation of our values, a reinvigoration of our public life, and a fundamental transformation of our way of thinking and living that promotes a transfer of power from oligarchs and plutocrats to everyday people and ordinary citizens. . . . Could it be that we know so little of the radical King because such courage defies our market-driven world?" —Cornel West, from the Introduction Every year, Dr. Martin Luther King, Jr., is celebrated as one of the greatest orators in US history, an ambassador for nonviolence who became perhaps the most recognizable leader of the civil rights movement. But after more than forty years, few people appreciate how truly radical he was. Arranged thematically in four parts, *The Radical King* includes twenty-three selections, curated and introduced by Dr. Cornel West, that illustrate King's revolutionary vision, underscoring his identification with the poor, his unapologetic opposition to the Vietnam War, and his crusade against global imperialism. As West writes, "Although much of America did not know the radical King—and too few know today—the FBI and US government did. They called him 'the most dangerous man in America.' . . . This book unearths a radical King that we can no longer sanitize."

Begin Again Dec 27 2022 NEW YORK TIMES BESTSELLER • "A powerful study of how to bear witness in a moment when America is being called to do the same."—Time James Baldwin grew disillusioned by the failure of the civil rights movement to force America to confront its lies about race. What can we learn from his struggle in our own moment? Named one of the best books of the year by Time, The Washington Post, and the Chicago Tribune • Winner of the Stowe Prize • Shortlisted for the Goddard Riverside Stephan Russo Book Prize for Social Justice "Not everything is lost. Responsibility cannot be lost, it can only be abdicated. If one refuses abdication, one begins again."—James Baldwin *Begin Again* is one of the great books on James Baldwin and a powerful reckoning with America's ongoing failure to confront the lies it tells itself about race. Just as in Baldwin's "after times," argues Eddie S. Glaude Jr., when white Americans met the civil rights movement's call for truth and justice with blind rage and the murders of movement leaders, so in our moment were the Obama presidency and the birth of Black Lives Matter answered with the ascendance of Trump and the violent resurgence of white nationalism. In these brilliant and stirring pages, Glaude finds hope and guidance in Baldwin as he mixes biography—drawn partially from newly uncovered Baldwin interviews—with history, memoir, and poignant analysis of our current moment to reveal the painful cycle of Black resistance and white retrenchment. As Glaude bears witness to the difficult truth of racism's continued grip on the national soul, *Begin Again* is a searing exploration of the tangled web of race, trauma, and memory, and a powerful interrogation of what we must ask of ourselves in order to call forth a new America.

***Conscience and Its Enemies* Feb 14 2022** Assaults on religious liberty and traditional morality are growing fiercer. Here, at last, is the counterattack. This revised and updated paperback edition of the acclaimed *Conscience and Its Enemies* showcases the talents that have made Robert P. George one of America's most influential thinkers. Here George explodes the myth that the secular elite represents the voice of reason. In fact, it is on the elite side of the cultural divide where the prevailing views are little more than articles of faith. *Conscience and Its Enemies* reveals the bankruptcy of these too often smugly held orthodoxies while presenting powerfully reasoned arguments for classical virtues. In defending what James Madison called the "sacred rights of conscience"—rights for which government shows frightening contempt—George grapples with today's most controversial issues: same-sex marriage, abortion, transgenderism, genetic manipulation, euthanasia and assisted suicide, religion in politics, judicial activism, and more. His brilliantly argued essays rely not on theological claims or religious authority but on established scientific facts and a philosophical tradition that extends back to Plato and Aristotle. *Conscience and Its Enemies* sets forth powerful arguments that secular liberals are unaccustomed to hearing—and that embattled defenders of traditional morality so often fail to marshal.

***African American Political Thought* Dec 15 2021** *African American Political Thought* offers an unprecedented philosophical history of thinkers from the African American community and African diaspora who have addressed the central issues of political life: democracy, race, violence, liberation, solidarity, and mass political action. Melvin L. Rogers and Jack Turner have brought together leading scholars to reflect on individual intellectuals from the past four centuries, developing their list with an expansive approach to political expression. The collected essays consider such figures as Martin Delany, Ida B. Wells, W. E. B. Du Bois, James Baldwin, Toni Morrison, and Audre Lorde, whose works are addressed by scholars such as Farah Jasmine Griffin, Robert Gooding-Williams, Michael Dawson, Nick Bromell, Neil Roberts, and Lawrie Balfour. While African American political thought is inextricable from the historical movement of American political thought, this volume stresses the individuality of Black thinkers, the transnational and diasporic consciousness, and how individual speakers and writers draw on various traditions simultaneously to broaden our conception of African American political ideas. This landmark volume gives us the opportunity to tap into the myriad and nuanced political theories central to Black life. In doing so, *African American Political Thought: A Collected History* transforms how we understand the past and future of political thinking in the West.

Cornel West Sep 23 2022 This comprehensive text offers a systematic and thematic approach to West's philosophical work. It moves the reader through his distinctive form of prophetic pragmatism, his historicist and improvisational philosophy of religion, his socialist democratic and truncated Marxist political philosophy, and his reflections on a range of cultural issues.

The Cornel West Reader Apr 30 2023 Cornel West is one of the nation's premier public intellectuals and one of the great prophetic voices of our era. Whether he is writing a scholarly book or an article for *Newsweek*, whether he is speaking of Emerson, Gramsci, or Marvin Gaye, his work radiates a passion that reflects the rich traditions he draws on and weaves together—Baptist preaching, American transcendentalism, jazz, radical politics. This anthology reveals the dazzling range of West's work, from his explorations of "Prophetic Pragmatism" to his philosophizing on hip-hop. *The Cornel West Reader* traces the development of West's extraordinary career as academic, public intellectual, and activist. In his essays, articles, books, and interviews, West emerges as America's social conscience, urging attention to complicated issues of racial and economic justice, sexuality and gender, history and politics. This collection represents the best work of an always compelling, often controversial, and absolutely essential philosopher of the modern American experience.

Dispatches from the Ebony Tower Apr 18 2022 What constitutes black studies and where does this discipline stand at the end of the twentieth century? In this wide-ranging and original volume, Manning Marable—one of the leading scholars of African American history—gathers key materials from contemporary thinkers who interrogate the richly diverse content and multiple meanings of the collective experiences of black folk. Here are numerous voices expressing very different political, cultural, and historical views, from black conservatives, to black separatists, to blacks who advocate radical democratic transformation. Here are topics ranging from race and revolution in Cuba, to the crack epidemic in Harlem, to Afrocentrism and its critics. All of these voices, however, are engaged in some aspect of what Marable sees as the essential triad of the black intellectual tradition: describing the reality of black life and experiences, critiquing racism and stereotypes, or proposing positive steps for the empowerment of black people. Highlights from *Dispatches from the Ebony Tower*: Henry Louis Gates

Jr. and Manning Marable debate the role of activism in black studies. John Hope Franklin reflects on his role as chair of the President's race initiative. Cornel West discusses topics that range from the future of the NAACP through the controversies surrounding Louis Farrakhan and black nationalism to the very question of what "race" means. Amiri Baraka lays out strategies for a radical new curriculum in our schools and universities. Marable's introduction provides a thorough overview of the history and current state of black studies in America.

Post-analytic Philosophy Apr 06 2021 Knowing how to instruct a child is fundamental to educational and parenting success! Parents, homeschoolers, and professional instructors will enjoy this simplified, easy to read guide covering the instruction of children. Natural Instruction prioritizes the preparations necessary for learning to occur. It outlines how to tailor a child's education. It focuses on how to communicate in a manner your child or students will accept, and it identifies application blunders. It also contains 120 Tip's to educational success, and gives a step by step guide covering how to set up an academic program. Along the way it offers gems of inspiration and beautiful floral imagery. This collection of information is designed for the courageous men and women who love children and sacrifice for their education. The path of the instructor is not for the faint of heart. It takes passion, patience, and polished character to be a top instructor for your child or students! Natural Instruction is a refreshingly natural way to teach a child!

Race Matters Jan 28 2023 Now more than ever, *Race Matters* is a book for all Americans, as it helps us to build a genuine multiracial democracy in the new millennium."--BOOK JACKET.

The African-American Century May 08 2021 An illustrated, decade-by-decade collection of biological profiles of significant African-Americans, from W.E.B. DuBois to Tiger Woods.

Dislocating Race and Nation May 20 2022 American literary nationalism is traditionally understood as a cohesive literary tradition developed in the newly independent United States that emphasized the unique features of America and consciously differentiated American literature from British literature. Robert S. Levine challenges this assessment by exploring the conflicted, multiracial, and contingent dimensions present in the works of late eighteenth- and nineteenth-century American and African American writers. Conflict and uncertainty, not consensus, Levine argues, helped define American literary nationalism during this period. Levine emphasizes the centrality of both inter- and intra-American conflict in his analysis of four illuminating "episodes" of literary responses to questions of U.S. racial nationalism and imperialism. He examines Charles Brockden Brown and the Louisiana Purchase; David Walker and the debates on the Missouri Compromise; Nathaniel Hawthorne, Herman Melville, and Hannah Crafts and the blood-based literary nationalism and expansionism of the mid-nineteenth century; and Frederick Douglass and his approximately forty-year interest in Haiti. Levine offers critiques of recent developments in whiteness and imperialism studies, arguing that a renewed attention to the place of contingency in American literary history helps us to better understand and learn from writers trying to make sense of their own historical moments.

Ethical Dimensions of Marxist Thought Feb 02 2021 Esteemed American philosopher, Cornel West tackles the ethics of the Marxism agenda In this fresh, original analysis of Marxist thought, Cornel West makes a significant contribution to today's debates about the relevance of Marxism by putting the issue of ethics squarely on the Marxist agenda. West, professor of religion and director of the Afro-American studies program at Princeton University, shows that not only was ethics an integral part of the development of Marx's own thinking throughout his career, but that this crucial concern has been obscured by such leading and influential interpreters as Engels, Kautsky, Luk?cs, and others who diverted Marx's theory into narrow forms of positivism, economism, and Hegelianism.

Prophesy Deliverance! Apr 11 2024 In this, his premiere work, Cornel West provides readers with a new understanding of the African American experience based largely on his own political and cultural perspectives borne out of his own life's experiences. He challenges African Americans to consider the incorporation of Marxism into their theological perspectives, thereby adopting the mindset that it is class more so than race that renders one powerless in America. Armed with a new introduction by the author, this Twentieth Anniversary Edition of *Prophesy Deliverance!* is a must have.

What is Slavery? Jul 10 2021 What is slavery? It seems a simple enough question. Despite the long history of the institution and its widespread use around the globe, many people still largely associate slavery, outside of the biblical references in the Old Testament, to the enslavement of Africans in America, particularly the United States. Slavery proved to be essential to the creation of the young nation's agricultural and industrial economies and profoundly shaped its political and cultural

landscapes, even until today. *What Is Slavery?* focuses on the experience of enslaved black people in the United States from its early colonial period to the dawn of that destructive war that was as much about slavery as anything else. The book begins with a survey of slavery across time and place, from the ancient world to the beginning of the Atlantic slave trade and then describes the commerce in black laborers that ushered in market globalization and brought more than 12 million Africans to the Americas, before finally examining slavery in law and practice. For those who are looking for a concise and comprehensive treatment of such topics as slave labor, culture, resistance, family and gender relations, the domestic slave trade, the regionalization of the institution in the expanding southern and southwestern frontiers, and escalating abolitionist and proslavery advocacies, this book will be essential reading.

Democracy Matters Jan 08 2024 "Uncompromising and unconventional . . . Cornel West is an eloquent prophet with attitude." — Newsweek "A timely analysis about the current state of democratic systems in America." — The Boston Globe In *Democracy Matters*, Cornel West argues that if America is to become a better steward of democratization around the world, we must first wake up to the long history of corruption that has plagued our own democracy: racism, free market fundamentalism, aggressive militarism, and escalating authoritarianism. This impassioned and empowering call for the revitalization of America's democracy, by one of our most distinctive and compelling social critics, will reshape the raging national debate about America's role in today's troubled world.

The Manor: Three Centuries at a Slave Plantation on Long Island Jun 08 2021 Mac Griswold's *The Manor* is the biography of a uniquely American place that has endured through wars great and small, through fortunes won and lost, through histories bright and sinister—and of the family that has lived there since its founding as a Colonial New England slave plantation three and a half centuries ago. In 1984, the landscape historian Mac Griswold was rowing along a Long Island creek when she came upon a stately yellow house and a garden guarded by looming boxwoods. She instantly knew that boxwoods that large—twelve feet tall, fifteen feet wide—had to be hundreds of years old. So, as it happened, was the house: Sylvester Manor had been held in the same family for eleven generations. Formerly encompassing all of Shelter Island, New York, a pearl of 8,000 acres caught between the North and South Forks of Long Island, the manor had dwindled to 243 acres. Still, its hidden vault proved to be full of revelations and treasures, including the 1666 charter for the land, and correspondence from Thomas Jefferson. Most notable was the short and steep flight of steps the family had called the "slave staircase," which would provide clues to the extensive but little-known story of Northern slavery. Alongside a team of archaeologists, Griswold began a dig that would uncover a landscape bursting with stories. Based on years of archival and field research, as well as voyages to Africa, the West Indies, and Europe, *The Manor* is at once an investigation into forgotten lives and a sweeping drama that captures our history in all its richness and suffering. It is a monumental achievement.

Prophetic Fragments May 12 2024 "This collection of writings, drawn from a wide variety of sources, reveals the intellectual depth and breadth of the author. The articles include political commentary, cultural critique, literary analysis, extended book reviews, and even a short story by West. All of these are held together by a prophetic Afro-American Christian perspective. The value of this book is that it provides easy access to a significant selection of the author's corpus." --Religious Studies Review (October 1989) "This volume collects over 50 articles, book reviews, and addresses by a Union Seminary theologian The most eloquent pieces are those in which West explains and interprets his more personally felt tradition of Afro-American Protestantism." -- Library Journal

Hope on a Tightrope Mar 10 2024 The New York Times best-selling author of *Race Matters* and *Democracy Matters* offers open-hearted wisdom for our times in this courageous collection of quotations, speech excerpts, letters, philosophy, and photographs that reflect the profound humanity that fuels the passionate public intellectual. In a world that seesaws between unconditional love and acceptance and blind hatred and exclusion, *Hope on a Tightrope* will satisfy readers in search of deep wells of inspiration and challenge that marries the mind to the heart. This gift book features an original CD that highlights Dr. West's outstanding spoken-word artistry. His August 2007 CD release *Never Forget: A Journey of Revelations* that featured collaborations with best-selling artists Prince, Jill Scott, and Andre 3000 topped the charts as Billboard's #1 Spoken Word album.

The Divided Mind of the Black Church Feb 26 2023 A revealing look at the identity and mission of the Black church What is the true nature and mission of the church? Is its proper Christian purpose to save souls, or to transform the social order? This question is especially fraught when the church is one built

by an enslaved people and formed, from its beginning, at the center of an oppressed community's fight for personhood and freedom. Such is the central tension in the identity and mission of the Black church in the United States. For decades the Black church and Black theology have held each other at arm's length. Black theology has emphasized the role of Christian faith in addressing racism and other forms of oppression, arguing that Jesus urged his disciples to seek the freedom of all peoples. Meanwhile, the Black church, even when focused on social concerns, has often emphasized personal piety rather than social protest. With the rising influence of white evangelicalism, biblical fundamentalism, and the prosperity gospel, the divide has become even more pronounced. In *The Divided Mind of the Black Church*, Raphael G. Warnock, Senior Pastor of the historic Ebenezer Baptist Church, the spiritual home of the Rev. Dr. Martin Luther King, Jr., traces the historical significance of the rise and development of Black theology as an important conversation partner for the Black church. Calling for honest dialogue between Black and womanist theologians and Black pastors, this fresh theological treatment demands a new look at the church's essential mission.

Risks of Faith Jun 01 2023 Risks of Faith offers for the first time the best of noted theologian James H. Cone's essays, including several new pieces. Representing the breadth of his life's work, this collection opens with the birth of black theology, explores its relationship to issues of violence, the developing world, and the theological touchstone embodied in African-American spirituals. Also included here is Cone's seminal work on the theology of Martin Luther King, Jr., and the philosophy of Malcolm X, and a compelling examination of their contribution to the roots of black theology. Far-reaching and provocative, Risks of Faith is a must-read for anyone interesting in religion and its political and social impact on our time.

Race Matters, 25th Anniversary Feb 09 2024 The twenty-fifth-anniversary edition of the groundbreaking classic, with a new introduction First published in 1993, on the one-year anniversary of the Los Angeles riots, *Race Matters* became a national best seller that has gone on to sell more than half a million copies. This classic treatise on race contains Dr. West's most incisive essays on the issues relevant to black Americans, including the crisis in leadership in the Black community, Black conservatism, Black-Jewish relations, myths about Black sexuality, and the legacy of Malcolm X. The insights Dr. West brings to these complex problems remain relevant, provocative, creative, and compassionate. In a new introduction for the twenty-fifth-anniversary edition, Dr. West argues that we are in the midst of a spiritual blackout characterized by imperial decline, racial animosity, and unchecked brutality and terror as seen in Baltimore, Ferguson, and Charlottesville. Calling for a moral and spiritual awakening, Dr. West finds hope in the collective and visionary resistance exemplified by the Movement for Black Lives, Standing Rock, and the Black freedom tradition. Now more than ever, *Race Matters* is an essential book for all Americans, helping us to build a genuine multiracial democracy in the new millennium.

Keeping Faith Oct 05 2023 In this powerful collection by one of today's leading African American intellectuals, Keeping Faith situates the current position of African Americans, tracing the genealogy of the "Afro-American Rebellion" from Martin Luther King to the rise of black revolutionary leftists. In Cornel West's hands issues of race and freedom are inextricably tied to questions of philosophy and, above all, to a belief in the power of the human spirit.

The Rich and the Rest of Us Mar 18 2022 Record unemployment and rampant corporate avarice, empty houses but homeless families, dwindling opportunities in an increasingly paralyzed nation—these are the realities of 21st-century America, land of the free and home of the new middle class poor. Award-winning broadcaster Tavis Smiley and Dr. Cornel West, one of the nation's leading democratic intellectuals, co-hosts of Public Radio's Smiley & West, now take on the "P" word—poverty. *The Rich and the Rest of Us* is the next step in the journey that began with "The Poverty Tour: A Call to Conscience." Smiley and West's 18-city bus tour gave voice to the plight of impoverished Americans of all races, colors, and creeds. With 150 million Americans persistently poor or near poor, the highest numbers in over five decades, Smiley and West argue that now is the time to confront the underlying conditions of systemic poverty in America before it's too late. By placing the eradication of poverty in the context of the nation's greatest moments of social transformation—such as the abolition of slavery, woman's suffrage, and the labor and civil rights movements—ending poverty is sure to emerge as America's 21st-century civil rights struggle. As the middle class disappears and the safety net is shredded, Smiley and West, building on the legacy of Martin Luther King, Jr., ask us to confront our fear and complacency with 12 poverty changing ideas. They challenge us to re-examine our assumptions about poverty in America—what it really is and how to eliminate it now.

Prejudential Mar 30 2023 “This book is an effort to shed light on the truth. . . . To the extent that our leaders embody aspects of who we are as a people, studying how each president has participated in our nation’s complicated and often shameful treatment of Black people is as good a place as any to start.” — Margaret Kimberley from the Preface “Margaret Kimberley gives us an intellectual gem of prophetic fire about all the U.S. presidents and their deep roots in the vicious legacy of white supremacy and predatory capitalism. Such truths seem more than most Americans can bear, though we ignore her words at our own peril!” — Cornel West, author of Race Matters **PREJUDENTIAL** is a concise, authoritative exploration of America’s relationship with race and Black Americans through the lens of the presidents who have been elected to represent all of its people. Throughout the history of the United States, numerous presidents have left their legacies as slaveholders, bigots, and inciters of racial violence, but were the ones generally regarded as more sympathetic to the plight and interests of Black Americans—such as Lincoln, FDR, and Clinton—really much better? And what of all the presidents whose relationship with Black America is not even considered in the pages of most history books? Over the course of 45 chapters—one for each president—Margaret Kimberley enlightens and informs readers about the attitudes and actions of the highest elected official in the country. By casting sunlight on an aspect of American history that is largely overlooked, **Prejudential** aims to increase awareness in a manner that will facilitate discussion and understanding.

Even This I Get to Experience Aug 11 2021 The legendary creator of iconic television programs **All in the Family**, **Sanford and Son**, **Maude**, **Good Times**, **The Jeffersons**, and **Mary Hartman, Mary Hartman**, Norman Lear remade our television culture, while leading a life of unparalleled political, civic, and social involvement. Sharing the wealth of Lear’s ninety years, this is a memoir as touching and remarkable as the life he has led.

A Worthy Piece of Work Nov 13 2021 The story of Madeline Morgan, the activist educator who brought Black history to one of the nation’s largest and most segregated school systems **A Worthy Piece of Work** tells the story of Madeline Morgan (later Madeline Stratton Morris), a teacher and an activist in WWII-era Chicago, who fought her own battle on the home front, authoring curricula that bolstered Black claims for recognition and equal citizenship. During the Second World War, as Black Americans both fought to save democracy abroad and demanded full citizenship at home, Morgan’s work gained national attention and widespread praise, and became a model for teachers, schools, districts, and cities across the country. Scholar Michael Hines unveils this history for the first time, providing a rich understanding of the ways in which Black educators have created counternarratives to challenge the anti-Black racism found in school textbooks and curricula. At a moment when Black history is under attack in school districts and state legislatures across the country, **A Worthy Piece of Work** reminds us that struggles over history, representation, and race are far from a new phenomenon.
