Data and the City Rob Kitchin, Tracey P. Lauriault, Gavin McArdle, 2017-08-15 There is a long history of governments businesses science and citizens producing and utilizing data in order to monitor regulate profit from and make sense of the urban world Recently we have entered the age of big data and now many aspects of everyday urban life are being captured as data and city management is mediated through data driven technologies Data and the City is the first edited collection to provide an interdisciplinary analysis of how this new era of urban big data is reshaping how we come to know and govern cities and the implications of such a transformation This book looks at the creation of real time cities and data driven urbanism and considers the relationships at play By taking a philosophical political practical and technical approach to urban data the authors analyse the ways in which

data is produced and framed within socio technical systems They then examine the constellation of existing and emerging urban data technologies The volume concludes by considering the social and political ramifications of data driven urbanism questioning whom it serves and for what ends This book the companion volume to 2016 s Code and the City offers the first critical reflection on the relationship between data data practices and the city and how we come to know and understand cities through data It will be crucial reading for those who wish to understand and conceptualize urban big data data driven urbanism and the development of smart cities

The City as Interface Martijn de Waal,2014 Digital and mobile media play an increasingly important role in everyday urban life They are changing the way urban life takes shape and how we experience our built environment This seems a mainly practical matter thanks to these technologies we can organize our lives more conveniently But the rise of these urban media also presents us with an important philosophical issue What do they mean for how the city functions as a community Employing detailed examples of new media uses as well as historical case studies Martijn de Waal shows how new technologies on one level contribute to the further individualization and liberalization of urban society There is an alternative future scenario however in which digital media construct a new definition of the urban public sphere In the process they also breathe new life into the classical republican ideal of the city as an open democratic community of strangers Back cover

Nelson Mandela Mary Benson,1994 Nelson Mandela has become a legend in his own lifetime the embodiment of the struggle for liberation in South Africa and the symbol of its triumph In this biography the author describes Mandela s life work and ideas from his childhood in the royal family of the Thembu people to his membership of the African National Congress including the many years in captivity on Robben Island and the birth of the hope that came with his release
