**The Girl Who Wrote Loneliness** Kyung-Sook Shin,2015-09-15 The Girl Who Wrote Loneliness is a stark and lyrical work that follows a teen aged girl who has just arrived in Seoul to work in a factory while struggling to achieve her dream of finishing school and becoming a writer Shin sets the this complex and nuanced coming of age story against the backdrop of Korea s industrial sweatshops of the 1970 s and takes on the extreme exploitation oppression and urbanization that helped catapult Korea s economy out of the ashes of the war Millions of teen aged girls from the countryside descended on Seoul in the late 1970 s These girls formed the bottom of the

city's social hierarchy forgotten and ignored Richly autobiographical the novel lays bare the conflict and confusion Shin goes through as she confronts her past and the sweeping social change that has taken place in her homeland over the past half century *The Girl Who Wrote Loneliness* has been cited in Korea as one of the most important literary novels of the decade and cements Shin's legacy as one of the most insightful and exciting young writers of her generation [The Ground Breaking](#) Scott Ellsworth, 2021-05-20 Chosen by Oprah Daily as one of the Best Books to Pick Up in May 2021 Fast paced but nuanced impeccably researched a much needed book The Guardian So dystopian and apocalyptic that you can hardly believe what you are reading But the story it tells is an essential one with just a glimmer of hope in it Because of the work of Ellsworth and many others America is finally staring this appalling chapter of its history in the face It's not a pretty sight Sunday Times A gripping exploration of the worst single incident of racial violence in American history timed to coincide with its 100th anniversary On 31 May 1921 in the city of Tulsa Oklahoma a mob of white men and women reduced a prosperous African American community known as Black Wall Street to rubble leaving countless dead and unaccounted for and thousands of homes and businesses destroyed But along with the bodies they buried the secrets of the crime Scott Ellsworth a native of Tulsa became determined to unearth the secrets of his home town Now nearly 40 years after his first major historical account of the massacre Ellsworth returns to the city in search of answers Along with a prominent African American forensic archaeologist whose family survived the riots Ellsworth has been tasked with locating and exhuming the mass graves and identifying the victims for the first time But the investigation is not simply to find graves or bodies it is a reckoning with one of the darkest chapters of American history A riveting painful to read account of a mass crime that to our everlasting shame has avoided justice Ellsworth's book presents us with a clear history of the Tulsa massacre and with that rendering a chance for atonement Readers of this book will fervently hope we take that opportunity Washington Post *City of Women* David R. Gillham, 2012 Hiding her clandestine activities behind the persona of a model Nazi soldier's wife at the height of World War II Sigrid Schroeder dreams of her former Jewish lover and risks everything to hide a mother and two young children who she believes might be her lover's family [The Making of Home](#) Judith Flanders, 2014-10-02 The idea that home is a special place a separate place a place where we can be our true selves is so obvious to us today that we barely pause to think about it But as Judith Flanders shows in this revealing book home is a relatively new concept When in 1900 Dorothy assured the citizens of Oz that There is no place like home she was expressing a view that was a culmination of 300 years of economic physical and emotional change In *The Making of Home* Flanders traces the evolution of the house across northern Europe and America from the sixteenth to the early twentieth century and paints a striking picture of how the homes we know today differ from homes through history The transformation of houses into homes she argues was not a private matter but an essential ingredient in the rise of capitalism and the birth of the Industrial Revolution Without home the modern world as we know it would not exist and as Flanders charts the development of ordinary household objects from

cutlery chairs and curtains to fitted kitchens plumbing and windows she also peels back the myths that surround some of our most basic assumptions including our entire notion of what it is that makes a family As full of fascinating detail as her previous bestsellers *The Making of Home* is also a book teeming with original and provocative ideas
