The Leader in Me Nov 02 2021 Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

THE MOST TRUSTED SOURCE ON BECOMING A BETTER LEADER Leadership Matters Leadership is not a fad. It's a fact. It's not here today, gone tomorrow. It's here today, and here forever. Leadership makes a difference. Try naming one significant movement that wandered leaderless into the history

books. And leadership matters most in times of uncertainty. The study of leadership is the study of how men and women guide us through adversity, uncertainty, hardship, disruption, transformation, transition, recovery, and new beginnings. Challenge is the opportunity for greatness. Given the daunting challenges we face today, the potential for greatness is phenomenal. People matter. Even in today's wired world, it's not the web of technology but the web of people that matters most. Leaders can't do it alone. Success in any project, organization, enterprise and in life has been, is now, and will continue to be a function of how well people work and engage with each other. Success in leadership depends on your capacity to build and sustain collaborative human relationships. You matter. People who become leaders don't always seek the challenges they face. Challenges also seek leaders. It's not so important whether you find the challenges or they find you. What is important are the choices you make when stuff happens. The next time you say to yourself, "Why don't they do something about this?" look in the mirror. Ask the person you see, "Why don't I do something about this?" The legacy that you leave will be the life that you lead.
