Bryan S. Turner

Sociology Of Religion Journal

The Oxford Handbook of the Sociology of Religion Peter Clarke, 2011-02-04 The Oxford Handbook of the Sociology of Religion draws on the expertise of an international team of scholars providing both an entry point into the sociological study and understanding of religion and an in depth survey into its changing forms and content in the contemporary world. The role and impact of religion and spirituality on the politics, culture, education and health in the modern world is rigorously discussed and debated. The study of the sociology of religion forges interdisciplinary links to explore aspects of continuity and change in the contemporary interface between society and religion. Using a combination of theoretical, methodological and content led approaches, the fifty seven contributors collectively emphasise the complex relationships between religion and aspects of life from scientific research to law, ecology to art, music to cognitive science, crime to institutional health care and more. The developing character of religion, irreligion and atheism and the impact of religious diversity on social cohesion are explored. An overview of current scholarship in the field is provided in each themed chapter with an emphasis on encouraging new thinking and reflection on familiar and emergent themes to stimulate further debate and scholarship. The resulting essay collection provides an invaluable resource for research and teaching in this diverse discipline.

Varieties of Atheism in Science Elaine Howard Ecklund, David R. Johnson, 2021 Why study atheism among scientists? Tried and found wanting: how atheist scientists explain religious transitions. I am not like Richard: modernist atheist scientists. Ties that bind: culturally religious atheists. Spiritual atheist scientists. What atheist scientists think about science. How atheist scientists approach meaning and morality. From rhetoric to reality: why religious believers should give atheist scientists a chance.

The SAGE Encyclopedia of the Sociology of Religion Adam Possamai, Anthony J. Blasi, 2020-02-14 The SAGE Encyclopedia of the Sociology of Religion takes a three pronged look at this, namely investigating the role of religion in society, unpacking and evaluating the significance of religion in and on human history and tracing and outlining the social forces and influences that shape religion. This encyclopedia covers a range of themes from fundamental topics like definitions, secularization, dimensions of religiosity to such emerging issues as civil religion, new religious movements. This Encyclopedia also addresses contemporary dilemmas such as fundamentalism and extremism and the role of gender in religion.

Sacred Stories, Spiritual Tribes Nancy Tatom Ammerman, 2014 Nancy Tatom Ammerman examines the stories Americans tell of their everyday lives from dinner table to office and shopping mall to doctor's office about the things that matter most to them and the routines they take for granted and the times and places where the everyday and ordinary meet the spiritual. In addition to interviews and observation, Ammerman bases her findings on a photo elicitation exercise and oral diaries offering a window into the presence and absence of religion and spirituality in ordinary lives and in ordinary physical and social spaces. The stories come from a diverse array of ninety five Americans both conservative and liberal Protestants, African American

Protestants Catholics Jews Mormons Wiccans and people who claim no religious or spiritual proclivities across a range that stretches from committed religious believers to the spiritually neutral Ammerman surveys how these people talk about what spirituality is how they seek and find experiences they deem spiritual and whether and how religious traditions and institutions are part of their spiritual lives

The Sociology of Religion George Lundskow,2008-06-10 Using a lively narrative The Sociology of Religion is an insightful text that investigates the facts of religion in all its great diversity including its practices and beliefs and then analyzes actual examples of religious developments using relevant conceptual frameworks As a result students actively engage in the discovery learning and analytical processes as they progress through the text Organized around essential topics and real life issues this unique text examines religion both as an object of sociological analysis as well as a device for seeking personal meaning in life The book provides sociological perspectives on religion while introducing students to relevant research from interdisciplinary scholarship Sidebar features and photographs of religious figures bring the text to life for readers Key Features Uses substantive and truly contemporary real life religious issues of current interest to engage the reader in a way few other texts do Combines theory with empirical examples drawn from the United States and around the world emphasizing a critical and analytical perspective that encourages better understanding of the material presented Features discussions of emergent religions consumerism and the link between religion sports and other forms of popular culture Draws upon interdisciplinary literature helping students appreciate the contributions of other disciplines while primarily developing an understanding of the sociology of religion Accompanied by High Quality Ancillaries Instructor Resources on CD contain chapter outlines summaries multiple choice questions essay questions and short answer questions as well as illustrations from the book C Intended Audience This core text is designed for upper level undergraduate students of Sociology of Religion or Religion and Politics

The SAGE Handbook of the Sociology of Religion James A Beckford,Jay Demerath,2007-10-29 In their introduction to this Handbook the editors affirm Many sociologists have come to realise that it makes no sense now to omit religion from the repertoire of social scientific explanations of social life I wholeheartedly agree I also suggest that this wide ranging set of essays should become a starting point for such enquiries Each chapter is clear comprehensive and well structured making the Handbook a real asset for all those engaged in the field Grace Davie University of Exeter Serious social scientists who care about making sense of the world can no longer ignore the fact that religious beliefs and practices are an important part of this world This Handbook is a valuable resource for specialists and amateurs alike The editors have done an exceptionally fine job of incorporating topics that illuminate the range and diversity of religion and its continuing significance throughout the world Robert Wuthnow Princeton University At a time when religions are increasingly affecting and affected by life beyond the narrowly sacred sphere religion everywhere seems to be caught up in change and conflict In the midst of this contention and confusion the sociology of religion provides a rich source of understanding and explanation This Handbook presents an unprecedentedly

comprehensive assessment of the field both where it has been and where it is headed Like its many distinguished contributors its topics and their coverage are truly global in their reach The Handbook s 35 chapters are organized into eight sections basic theories and debates methods of studying religion social forms and experiences of religion issues of power and control in religious organizations religion and politics individual religious behaviour in social context religion self identity and the life course and case studies of China Eastern Europe Israel Japan and Mexico Each chapter establishes benchmarks for the state of sociological thinking about religion in the 21st century and provides a rich bibliography for pursuing its subject further Overall the Handbook stretches the field conceptually methodologically comparatively and historically An indispensable source of guidance and insight for both students and scholars Choice Outstanding Academic Title 2009

'Religion' and 'Secular' Categories in Sociology Mitsutoshi Horii, 2022-01-01 Informed by critical religion perspective in Religious Studies and postcolonial self reflection in Sociology this book interrogates the ideas of religion and the secular in social theory and Sociology It argues that as long as social theory and sociological discourse embed the religion secular distinction and locate themselves on the secular side of the binary Sociology will continue to serve the very ideologies it tries to subvert namely Western modernity coloniality *Handbook of the Sociology of Religion* Michele Dillon, 2003-08-18 Table of contents *Sociology of Religion* Abby Day, 2020-12-30 The first sociology of religion textbook to begin the task of diversifying and decolonizing the study of religion Sociology of Religion develops a sociological frame that draws together the personal political and public showing how religion its origins development and changes is understood as a social institution influenced by and influencing wider social structures Organized along sociological structures and themes the book works with examples from a variety of religious traditions and regions rather than focusing in depth on a selection and foregrounds cultural practice based understandings of religion It is therefore a book about religion not religions that explores the relationship of religion with gender and sexuality crime and violence generations politics and media race ethnicity and social class disease and disability highlighting the position of religion in social justice and equality Each chapter of this book is framed around concrete case studies from a variety of Western and non Western religious traditions Students will benefit from thinking about the discipline across a range of geographical and religious contexts The book includes features designed to engage and inspire students Up to date and comprehensive analysis of engaging and accessible material Case Examples short summaries of empirical examples relating to the chapter themes Visually distinct boxes with bullet points key words and phrases focusing on the context Questions suitable for private or seminar study Suggested class exercises for instructors to use Suggested readings and further readings online resources at the end of each chapter Following a review and critique of early sociology of religion the book engages with more contemporary issues such as dissolving the secular sacred binary and paying close attention to issues of epistemology negotiations marginalities feminisms identities power nuances globalization post multiple modernity ies emotion structuration reflexivity intersectionality and urbanization This book is

essential reading for undergraduate and postgraduate students exploring the sociology of religion religion and society religious studies theology globalization and human geography *Invitation to the Sociology of Religion* Phil Zuckerman, 2003 First Published in 2004 Routledge is an imprint of Taylor Francis an informa company Religion on the Edge Courtney Bender, 2013 The thirteen essays in this volume offer a challenge to conventional scholarly approaches to the sociology of religion They urge readers to look beyond congregational settings beyond the United States and to religions other than Christianity and encourage critical engagement with religion s complex social consequences By expanding conceptual categories the essays reveal how aspects of the religious have always been part of allegedly non religious spaces and show how by attending to these intellectual blindspots we can understand aspects of identity modernity and institutional life that have long been obscured Religion on the Edge addresses a number of critical questions What is revealed about the self pluralism or modernity when we look outside the U S or outside Christian settings What do we learn about how and where the religious is actually at work and what its role is when we unpack the assumptions about it embedded in the categories we use Religion on the Edge offers groundbreaking new methodologies and models bringing to light conceptual lacunae re centering what is unsettled by their use and inviting a significant reordering of long accepted political and economic hierarchies The book shows how social scientists across the disciplines can engage with the sociology of religion By challenging many of its long standing empirical and analytic tendencies the contributors to this volume show how their work informs and is informed by debates in other fields and the analytical purchase gained by bringing these many conversations together Religion on the Edge will be a crucial resource for any scholar seeking to understand our post modern post secular world

The Blackwell Companion to Sociology of Religion Richard K. Fenn, 2008-06-09 The Blackwell Companion to Sociology of Religion is presented in three comprehensive parts Written by a range of outstanding academics the volume explores the current status of the sociology of religion and how it might look in future Explores the current status of the sociology of religion and how it might look at the beginning of the next millennium Traces the boundaries between sociology and other closely related disciplines such as theology and social anthropology Edited by one of the best known and most widely respected sociologists of religion Accessibly presented in three comprehensive parts *Sociology of Religion* Kevin J. Christiano, William H. Swatos, Peter Kivisto, 2015-10-15 This third edition of Sociology of Religion introduces students to key principles in the sociological understanding of religion with revisions and updates throughout The book offers an overview of the nature and function of religious institutions and practices asking sociological questions about the changing role of religion in today s post traditional world After an introduction to the many facets of religion and key theories for its study the book examines central themes such as changes in religious life in the United States the intersections between religion social class and power and between gender sexuality and religion globalization and religion religion in mass media and more The third edition features new material on the relationship of race and ethnicity to religion the perceived rises of both secularism

and fundamentalism and the role of religion in public debates on sexuality Sociology of Religion addresses both the foundations of the field and the profound changes it has undergone placing new examples against their historical background Charts photos down to earth examples and a readable style make the book an ideal introduction for students *The Wiley-Blackwell Companion to Sociology* George Ritzer,2016-09-26 Featuring a collection of original chapters by leading and emerging scholars The Wiley Blackwell Companion to Sociology presents a comprehensive and balanced overview of the major topics and emerging trends in the discipline of sociology today Features original chapters contributed by an international cast of leading and emerging sociology scholars Represents the most innovative and state of the art thinking about the discipline Includes a general introduction and section introductions with chapters summaries by the editor *The New Blackwell Companion to the Sociology of Religion* Bryan S. Turner,2016-10-03 Reflecting the very latest developments in the field the New Companion provides a comprehensive introduction to the sociology of religion with a clear emphasis on comparative and historical approaches Covers major debates in secularization theory rational choice theory feminism and the body Takes a multidisciplinary approach covering history sociology anthropology and religious studies International in its scope covering American exceptionalism Native American spirituality and China Europe and Southeast Asia Offers discussions on the latest developments including megachurches spirituality post secular society and globalization A Sociology of Spirituality Peter C. Jupp,2016-03-16 The emergence of spirituality in contemporary culture in holistic forms suggests that organised religions have failed This thesis is explored and disputed in this book in ways that mark important critical divisions This is the first collection of essays to assess the significance of spirituality in the sociology of religion The authors explore the relationship of spirituality to the visual individualism gender identity politics education and cultural capital The relationship between secularisation and spirituality is examined and consideration is given to the significance of Simmel in relation to a sociology of spirituality Problems of defining spirituality are debated with reference to its expression in the UK the USA France and Holland This timely original and well structured volume provides undergraduates postgraduates and researchers with a scholarly appraisal of a phenomenon that can only increase in sociological significance

The Sociology of Religion Norman Birnbaum,Thomas F. O'Dea,1969 *Sociology of Religion* William Mirola,Susanne C Monahan,Michael O. Emerson,2015-09-16 A reader that seeks to explore the relationship between the structure and culture of religion and various elements of social life in the U S *Sociology of Religion A Reader 2e* is ideal as either a standalone reader or supplement to the text written by the same author team *Why Religion Matters* Based on both classic and contemporary research in the sociology of religion this reader highlights a variety of research methods and theoretical approaches It explores the ways in which religious values beliefs and practices shape the world outside of church synagogue or mosque walls while simultaneously being shaped by the non religious forces operating in that world *Sociology of the Sacred* Philip A Mellor,Chris Shilling,2014-08-12 About time Two key experts in the field remind us of the significance and

power of religion as bio political and bio economic Beverley Skeggs Goldsmiths University of London A welcome addition to a continuing body of work by two distinguished theorists of religion Grace Davie University of Exeter Mellor and Shilling cement their place at the pinnacle of the contemporary sociological theorisation of religion and the sacred If sociological work is going to have any future it is to be found in the inspiration and excitement of this sophisticated and intelligent book Keith Tester University of Hull This book is ambitious refreshing and rewarding It offers the best available analysis of the complex interlacing of the sacred religion secularization and embodied experience James A Beckford University of Warwick Drawing on classical and contemporary social theory Sociology of the Sacred presents a bold and original account of how interactions between religious and secular forms of the sacred underpin major conflicts in the world today and illuminate broader patterns of social and cultural change inherent to global modernity It demonstrates How the bodily capacities help religions adapt to social change but also facilitate their internal transformation That the sacred includes a diverse range of phenomena with variable implications for questions of social order and change How proponents of a post secular age have failed to grasp the ways in which sacralization can advance secularization Why the sociology of the sacred needs to be a key part of attempts to make sense of the nature and directionality of social change in global modernity today This book is key reading for the sociology of religion the body and modern culture [Fundamental Concepts in Max Weber's Sociology of Religion](#) Christopher Adair-Toteff, 2015-10-14 This book helps explain some of Max Weber's key concepts such as charisma asceticism mysticism pariah people prophets salvation and theodicy and places them within the context of Weber's sociology of religion
