Tria Kerkvliet, 2019-06-15 Since 1990 public political criticism has evolved into a prominent feature of Vietnam s political landscape So argues Benedict Kerkvliet in his analysis of Communist Party ruled Vietnam *Speaking Out in Vietnam* assesses the rise and diversity of these public displays of disagreement showing that it has morphed from family whispers to large scale use of electronic media In discussing how such criticism has become widespread over the last three decades Kerkvliet focuses on four clusters of critics factory workers demanding better wages and living standards villagers demonstrating and petitioning against corruption and land confiscations citizens opposing China s encroachment into Vietnam and criticizing China Vietnam relations and dissidents objecting to the party state regime and pressing for democratization He finds that public political criticism ranges from lambasting corrupt authorities to condemning repression of bloggers to protesting about working conditions *Speaking Out in Vietnam* shows that although we may think that the party state represses public criticism in fact Vietnamese authorities often tolerate and respond positively to such public and open protests **Vietnam** Scott Rutherford, 2002-12 *Insight Guides* the world s largest visual travel guide series in association with Discovery Channel the world s premier source of nonfiction entertainment provides more insight than ever From the most popular resort cities to the most exotic villages *Insight Guides* capture the unique character of each culture with an insider s perspective Inside every *Insight Guide* you ll find Evocative full colour photography on every page Cross referenced full colour maps throughout A brief introduction including a historical timeline Lively essays by local writers on the culture history and people Expert evaluations on the sights really worth seeing Special features spotlighting particular topics of interest A comprehensive
