Title

Mashed Potato Pizza

Introduction

My grandpa always tells me that people who laugh at their own mistakes will get everyone else to laugh along with them. Yesterday, I learned that he is right.

Beginning of the Story

"Stay in line," Mrs. Martin said. I knew right away that my friend Naomi wouldn't be able to cut. I looked at Naomi and frowned. Soon, the line began to move faster, and I followed along hoping that there would still be pizza.

When I reached the counter, I looked at the choices. I could only see chicken and mashed potatoes, macaroni and cheese, and fish. I could hear the rumbling of my very disappointed stomach.

Then, out of the corner of my eye, I saw one last piece of pepperoni pizza. I got so excited.

Middle Events

"Pepperoni pizza," I said politely. Mrs. Martin handed me the pizza. I took the paper plate so quickly that the pizza slid off the plate. I tried to save it, but the pizza landed in the pan of hot, buttery mashed potatoes.

I could feel my face turning redder and redder. All I could hear was laughter from the kids in line.

As I looked at the upside-down pizza, I heard Mrs. Martin's voice. "Maria, would you like a side of mashed potatoes with your pizza?"

End of the Story

I looked up and saw Naomi. She was laughing too. With a nervous smile, I said, "Of course."

Mrs. Martin smiled and scooped the mashed potato pizza on my plate. I looked around at my friends, and we all laughed again.

Conclusion

I never really believed my grandpa until I saw my friends laughing with me. The laughing made me feel good instead of just clumsy.

The Theory of Narrative Thought Lee Roy Beach,James A. Wise,2022-02-25 The renowned naturalist Loren Eiseley observed that we humans have given up the certainty of the animal that what it senses is exactly there in the shape the eye beholds The big question is what did we get in return This book provides a convincing answer to this question arguing that instead of recording reality your brain uses your experience to create a story a narrative about how what happened to you in the past led to what is happening to you now This narrative is your private reality The book continues by showing how replacing recorded reality with private narrative enabled humans to anticipate the fundamentally unknowable immediate and remote future and expose potential threats It then shows how private narrative enabled complex thought and communication with others Drawing upon a wide range of research the book provides a stimulating new way of viewing human experience thinking communicating and action
