Computer Accounting Essentials teaches students how to use QuickBooks accounting software through Carol Yacht's industry-renowned expertise and enthusiasm. Step-by-step instructions show students how to apply accounting concepts to the real-world situations of a corporation delivering services to clients. Book jacket. This text-workbook, combined with the ACCLAIM Integrated Accounting Software, offers you a comprehensive course in computerized accounting. The book contains application ctivities throughout to provide a balance between reading and hands-on computer activities. It can be used as a primary text as well as a reference manual for ACCLAIM. The accounting cycle is best learned by doing. Thus, the goal of this accounting simulation is to provide the student with a hands-on approach to learning the accounting cycle--from analyzing and journalizing transactions and events to financial statement preparation and end-of-period closing. If completed manually, this simulation may take 10 - 14 hours to complete. Alternatively, the student may use computerized accounting packages such as Simply Accounting by Sage, QuickBooks, MYOB, etc. Designed for the one-semester computerized Accounting course, this text is based on Quickbooks, an increasingly popular computer accounting software program from Intuit. The book includes modules on general ledger, accounts payable, accounts receivable, payroll, inventory, and projects. Numerous end-of-chapter questions and problems and end-of-part practice sets help reinforce students' understanding of the material. Using a step-by-step, extensively illustrated tutorial format, this comprehensive manual/software package provides readers with a basic knowledge of how computerized accounting systems function and prepares them to work with any accounting software package. While readers should be familiar with the accounting cycle and how it relates to service and merchandising businesses, no prior knowledge of computers, Windows, or computerized accounting is necessary. Screen shots show readers how their transactions should appear on the computer screens, and realistic source documents and Report Transmittals simulate real-world transactions. CA-Simply Accounting for Windows -- a full, complete version of the software (with a modification date restriction of 1997) -- is packaged with the book. The most up-to-date version of this popular instructional computerized accounting program is now available for Windows! This software offers a true Windows user interface with context-sensitive Help, graphics, drop-down boxes, and cut to paste options. Brand new software elements, such as Tool Tips, Planning Tools, and Journal Wizard, allows users to move around and complete the program with ease. Using this exciting program, you can lead your students from the most basic computerized accounting tasks and spreadsheets to income tax preparation - all in one textbook! There are separate hardbound and softbound editions for DOS, Windows, and Macintosh versions. A Study Guide and Working Paper Workbook accompany each hardbound edition. They are included in the softbound editions.
