Boom Ahead Harry S. Dent, 1994-01-01 Predicting the decline of Japan and the re emergence of the United States as the most powerful economy on the planet the Harvard economist offers readers practical advice on taking advantage of the situation **The Great Depression Ahead** Harry S. Dent, 2010 The first and last economic depression of your lifetime is happening right now Did you know our stock market and economy have peaked every 40 years due to generational spending trends in 1929 1968 and 2009 Did you know that oil and commodity prices have peaked every 30 years in 1920 1951 1980 and 2010 The three massive bubbles of recent decades stocks real estate and commodities have all peaked and are now

deflating simultaneously Harry S Dent has observed these trends for decades and developed techniques to predict their impact In *The Great Depression Ahead* he identifies the following The economy appears to recover before stock prices start to crash again in late 2010 and flatten around mid 2012 Gold and precious metals will appear to be a hedge at first but will ultimately collapse after mid to late 2010 A first major stock rally between mid 2012 and mid 2017 will be followed by a final setback in late 2019 and early 2020 The next global bull market will be from 2020 2023 Despite the dire news there are real new wealth opportunities ahead Harry Dent offers practical advice to allow families businesses investors and individuals to manage their assets correctly and come out on top Your life is changing for reasons outside of your control You can't change the direction of the winds but you can reset your sails The world's leading demographic economist and author *The Sunday Telegraph* [The Demographic Cliff](#) Harry S. Dent Jr., 2015-08-25 Bestselling author and financial guru Harry Dent shows why we're facing a great deflation and what to do about it now Throughout his long career as an economic forecaster Harry Dent has relied on a not so secret weapon demographics He can explain why our economy has risen and fallen with the peak spending of generations and why we now face a growing demographic cliff with the accelerating retirement of the Baby Boomers around the world Inflation rises when a larger than usual block of younger people enter the workforce and it wanes when large numbers of older people retire downsize their homes and cut their spending The mass retirement of the Boomers won't just hold back inflation it and massive debt deleveraging will actually cause deflation Dent explores the implications of his controversial predictions and offers advice on retirement planning health care real estate education investing and business strategies **What to Do When the Bubble Pops** Harry S. Dent Jr., 2020-03-19 THE DOWNTURN IS HERE Harry Dent has been predicting for some time that we are about to enter a prolonged downturn one that will be looked at by historians as a classic economic depression due to demographic factors one of the largest generations in history the baby boomers are leaving the workplace either due to planned retirement or involuntarily due to layoffs or not being able to find work which will have a profound impact on all sectors of our economy This economic downturn could have been swifter and the pain much less had the Fed allowed it to happen naturally However due to several rounds of quantitative easing essentially pumping free money into the economy the Fed has not only delayed the inevitable but they have ensured that the downturn will be much longer and much more severe than it could have been Harry Dent believes that the Fed cannot keep the bubble from popping much longer and when it does pop every individual will need to be prepared for a period he calls an economic winter In this book you'll learn the personal and business strategies that will be essential to protect and preserve your assets and the few areas of the economy that will still do well during this winter period This is essential reading for everyone especially during a crisis [Unlimited Wealth](#) Paul Zane Pilzer, 1990 Modern technology is transforming our most basic ideas about the creation of wealth *Unlimited Wealth* reveals how a new way of economic thinking is essential for success in today's world Thanks to the alchemy of accelerating technological development unlimited wealth can be achieved
