A unique and sweeping debut novel of an American female combat photographer in the Vietnam War, as she captures the wrenching chaos and finds herself torn between the love of two men. On a stifling day in 1975, the North Vietnamese army is poised to roll into Saigon. As the fall of the city begins, two lovers make their way through the streets to escape to a new life. Helen Adams, an American photojournalist, must take leave of a war she is addicted to and a devastated country she has come to love. Linh, the Vietnamese man who loves her, must grapple with his own conflicted loyalties of heart and homeland. As they race to leave, they play out a drama of devotion and betrayal that spins them back through twelve war-torn years, beginning in the splendor of Angkor Wat, with their mentor, larger-than-life war correspondent Sam Darrow, once Helen’s infuriating love and fiercest competitor, and Linh’s secret keeper, boss and truest friend. Tatjana Soli paints a searing portrait of an American woman’s struggle and triumph in Vietnam, a stirring canvas contrasting the wrenching horror of war and the treacherous narcotic of obsession with the redemptive power of love. Readers will be transfixed by this stunning novel of passion, duty and ambition among the ruins of war. ? “Partridge proves once again that nonfiction can be every bit as dramatic as the best fiction.”* America's war in Vietnam. In over a decade of bitter fighting, it claimed the lives of more than 58,000 American soldiers and beleaguered four US presidents. More than forty years after America left Vietnam in defeat in 1975, the war remains controversial and divisive both in the United States and abroad. The history of this era is complex; the cultural impact extraordinary. But it's the personal stories of eight people—six American soldiers, one American military nurse, and one Vietnamese refugee—that create the heartbeat of *Boots on the Ground*. From dense jungles and terrifying firefights to chaotic helicopter rescues and harrowing escapes, each individual experience reveals a different facet of the war and moves us forward in time. Alternating with these chapters are profiles of key American leaders and events, reminding us of all that was happening at home during the war, including peace protests, presidential scandals, and veterans' struggles to acclimate to life after Vietnam. With more than one hundred photographs, award-winning author Elizabeth Partridge's unflinching book captures the intensity, frustration, and lasting impacts of one of the most tumultuous periods of American history. *Kirkus Reviews, starred review of *Marching for Freedom* Two bestselling novels from one of his generation's most deservedly acclaimed authors. THE #1 NEW YORK TIMES BESTSELLER IS NOW A MAJOR-MOTION PICTURE DIRECTED BY RON HOWARD AND STARRING AMY ADAMS, GLENN CLOSE, AND GABRIEL BASSO "You will not read a more important book about America this year."—The Economist "A riveting book."—The Wall Street Journal "Essential reading."—David Brooks, New York Times *Hillbilly Elegy* is a passionate and personal analysis of a culture in crisis—that of white working-class Americans. The disintegration of this group, a process that has been slowly occurring now for more than forty years, has been reported with growing frequency and alarm, but has never before been written about as searingly from the inside. J. D. Vance tells the true story of what a social, regional, and class decline feels like when you were born with it hung around your neck. The Vance family story begins hopefully in postwar America. J. D.'s grandparents were “dirt poor and in love,” and moved north from Kentucky’s Appalachia region to Ohio in the hopes of escaping the dreadful poverty around them. They raised a middle-class family, and eventually one of their grandchildren would graduate from Yale Law School, a conventional marker of success in achieving generational upward mobility. But as the family saga of *Hillbilly Elegy* plays out, we learn that J.D.'s grandparents, aunt, uncle, sister, and, most of all, his mother struggled profoundly with the demands of their new middle-class life, never fully escaping the legacy of abuse, alcoholism, poverty, and trauma so characteristic of their part of America. With piercing honesty, Vance shows how he himself still carries around the demons of his chaotic family history. A deeply moving memoir, with its share of humor and vividly colorful figures, *Hillbilly Elegy* is the story of how upward mobility really feels. And it is an urgent and troubling meditation on the loss of the American dream for a large segment of this country. In 2003, as an older father, O'Brien resolved to give his young sons what he wished his own father had given to him: a few scraps of paper signed "Love, Dad." Maybe a word of advice. Maybe a sentence or two about some long-ago Christmas Eve. Maybe some scattered glimpses of their aging father, a man they might never really know. In this book, O'Brien moves from soccer games to warfare to risqué lullabies, from alcoholism to magic shows to history lessons to bittersweet bedtime stories, but always returning to a father's soul-saving love for his sons. -- adapted from jacket An American journalist is trapped in Nazi Germany in this variation on the Sleeping Beauty theme. A harrowing yet inspiring portrait of a tormented consciousness struggling for reconciliation and peace, JARHEAD is authentic, revelatory and brilliantly crafted. Anthony Swofford's grandfather fought in WWII; his father fought in Vietnam; and he - a directionless, testosterone-battered teenager - became a scout/sniper in the marines and fought in the Gulf War. His account of that time is also part of a lineage - after Wilfred Owen, Norman Mailer, Michael Herr and Tim O'Brien, it brings the raw and searing tradition of soldiers' stories up to date. Sir Phillip knew that Eloise Bridgerton was a spinster, and so he'd proposed, figuring that she'd be homely and unassuming, and more than a little desperate for an offer of marriage. Except . . . she wasn't. The beautiful woman on his doorstep was anything but quiet, and when she stopped talking long enough to close her mouth, all he wanted to do was kiss her . . . and more. Did he think she was mad? Eloise Bridgerton couldn't marry a man she had never met! But then she started thinking . . . and wondering . . . and before she knew it, she was in a hired carriage in the middle of the night, on her way to meet the man she hoped might be her perfect match. Except . . . he wasn't. Her perfect husband wouldn't be so moody and ill-mannered, and while Phillip was certainly handsome, he was a large brute of a man, rough and rugged, and totally unlike the London gentlemen vying for her hand. But when he smiled . . . and when he kissed her . . . the rest of the world simply fell away, and she couldn't help but wonder . . . could this imperfect man be perfect for her? "The Girl with Ghost Eyes is a fun, fun read. Martial arts and Asian magic set in Old San Francisco make for a fresh take on urban fantasy, a wonderful story that kept me up late to finish." —#1 New York Times bestselling author Patricia Briggs It's the end of the nineteenth century in San Francisco's Chinatown, and ghost hunters from the Maoshan traditions of Daoism keep malevolent spiritual forces at bay. Li-lin, the daughter of a renowned Daoshi exorcist, is a young widow burdened with yin eyes—the unique ability to see the spirit world. Her spiritual visions and the death of her husband bring shame to Li-lin and her father—and shame is not something this immigrant family can afford. When a sorcerer cripples her father, terrible plans are set in motion, and only Li-lin can stop them. To aid her are her martial arts and a peachwood sword, her burning paper talismans, and a wisecracking spirit in the form of a human eyeball tucked away in her pocket. Navigating the dangerous alleys and backrooms of a male-dominated Chinatown, Li-lin must confront evil spirits, gangsters, and soulstealers before the sorcerer's ritual summons an ancient evil that could burn Chinatown to the ground. With a rich and inventive historical setting, nonstop martial arts action, authentic Chinese magic, and bizarre monsters from Asian folklore, The Girl with Ghost Eyes is also the poignant story of a young immigrant searching to find her place beside the long shadow of a demanding father and the stigma of widowhood. In a Chinatown caught between tradition and modernity, one woman may be the key to holding everything together. Thomas Chippering, a 6'6" professor of linguistics, is a man torn between two obsessions: the desperate need to win back his former wife, the faithless Lorna Sue, and a craving to test his erotic charms on every woman he meets. But there are complications, including Lorna Sue's brother, Herbie, with whom she has an all-too-close relationship, and the considerable charms of Chippering's new love, the attractive, and of course already married, Mrs. Robert Kooshof, who may at last satisfy Chippering's longing for intimacy. In Tomcat in Love, Tim O'Brien takes on the battle of the sexes with astonishing results. By turns hilarious, outrageous, romantic, and deeply moving, this is one of the most talked about novels in years: a novel for this and every age. A "perceptive, affectionate, and often very funny" novel about old college friends at a thirty-year reunion, by the author of The Things They Carried (Boston Herald). From a National Book Award winner who's been called "the best American writer of his generation" (San Francisco Examiner), July, July tells the story of ten old friends who attended Darton Hall College together back in 1969, and now reunite for a summer weekend of dancing, drinking, flirting, reminiscing—and regretting. The three decades since graduation have brought marriage and divorce, children and careers, hopes deferred and replaced. This witty, heart-rending novel about men and women who came into adulthood at a moment when American ideals and innocence began to fade, a New York Times Notable Book, is "deeply satisfying" (O, the Oprah Magazine) and "almost impossible to put down" (Austin American-Statesman). But when John himself disappears, the questions mount—with no answers in sight. In this contemplative thriller, acclaimed author Tim O'Brien examines America's legacy of violence and warfare and its lasting impact both at home and abroad. A CLASSIC FROM THE NEW YORK TIMES BESTSELLING AUTHOR OF THE THINGS THEY CARRIED "To call Going After Cacciato a novel about war is like calling Moby-Dick a novel about whales." So wrote The New York Times of Tim O'Brien's now classic novel of Vietnam. Winner of the 1979 National Book Award, Going After Cacciato captures the peculiar mixture of horror and hallucination that marked this strangest of wars. In a blend of reality and fantasy, this novel tells the story of a young soldier who one day lays down his rifle and sets off on a quixotic journey from the jungles of Indochina to the streets of Paris. In its memorable evocation of men both fleeing from and meeting the demands of battle, Going After Cacciato stands as much more than just a great war novel. Ultimately it's about the forces of fear and heroism that do battle in the hearts of us all. Now with Extra Libris material, including a reader's guide and bonus content This collection of stories from Vietnam War writer Tim O'Briens paints a through picture of the soldiers' life in the Vietnam War. This presentation describes various aspects of the regulation of tissue oxygenation, including the roles of the circulatory system, respiratory system, and blood, the carrier of oxygen within these components of the cardiorespiratory system. The respiratory system takes oxygen from the atmosphere and transports it by diffusion from the air in the alveoli to the blood flowing through the pulmonary capillaries. The cardiovascular system then moves the oxygenated blood from the heart to the microcirculation of the various organs by convection, where oxygen is released from hemoglobin in the red blood cells and moves to the parenchymal cells of each tissue by diffusion. Oxygen that has diffused into cells is then utilized in the mitochondria to produce adenosine triphosphate (ATP), the energy currency of all cells. The mitochondria are able to produce ATP until the oxygen tension or PO2 on the cell surface falls to a critical level of about 4–5 mm Hg. Thus, in order to meet the energetic needs of cells, it is important to maintain a continuous supply of oxygen to the mitochondria at or above the critical PO2 . In order to accomplish this desired outcome, the cardiorespiratory system, including the blood, must be capable of regulation to ensure survival of all tissues under a wide range of circumstances. The purpose of this presentation is to provide basic information about the operation and regulation of the cardiovascular and respiratory systems, as well as the properties of the blood and parenchymal cells, so that a fundamental understanding of the regulation of tissue oxygenation is achieved. The past 25 years have seen a major paradigm shift in the field of violence prevention, from the assumption that violence is inevitable to the recognition that violence is preventable. Part of this shift has occurred in thinking about why violence occurs, and where intervention points might lie. In exploring the occurrence of violence, researchers have recognized the tendency for violent acts to cluster, to spread from place to place, and to mutate from one type to another. Furthermore, violent acts are often preceded or followed by other violent acts. In the field of public health, such a process has also been seen in the infectious disease model, in which an agent or vector initiates a specific biological pathway leading to symptoms of disease and infectivity. The agent transmits from individual to individual, and levels of the disease in the population above the baseline constitute an epidemic. Although violence does not have a readily observable biological agent as an initiator, it can follow similar epidemiological pathways. On April 30-May 1, 2012, the Institute of Medicine (IOM) Forum on Global Violence Prevention convened a workshop to explore the contagious nature of violence. Part of the Forum's mandate is to engage in multisectoral, multidirectional dialogue that explores crosscutting, evidence-based approaches to violence prevention, and the Forum has convened four workshops to this point exploring various elements of violence prevention. The workshops are designed to examine such approaches from multiple perspectives and at multiple levels of society. In particular, the workshop on the contagion of violence focused on exploring the epidemiology of the contagion, describing possible processes and mechanisms by which violence is transmitted, examining how contextual factors mitigate or exacerbate the issue. *Contagion of Violence: Workshop Summary* covers the major topics that arose during the 2-day workshop. It is organized by important elements of the infectious disease model so as to present the contagion of violence in a larger context and in a more compelling and comprehensive way. It is a classic narrative about Africa's cataclysmic encounter with Europe as it establishes a colonial presence on the continent. With more than 20 million copies sold and translated into fifty-seven languages, *Things Fall Apart* provides one of the most illuminating and permanent monuments to African experience. Achebe does not only capture life in a pre-colonial African village, he conveys the tragedy of the loss of that world while broadening our understanding of our contemporary realities. In the opening years of the Vietnam War, a small group of American military advisors and their South Vietnamese allies were facing down the Viet Cong. The confident Americans were there to do what seemed elementary: help the South Vietnamese army defeat a ragtag guerrilla enemy. They were assured of swift success. Encapsulating the great terrors, mistakes, ironies, and courageous acts of the Vietnam War, "The Battle of Ap Bac" recounts the clash in which the Viet Cong first won their spurs. The 1990s were declared the "Decade of the Brain" by former President Bush, and the neuroscience community responded with a host of new investigations and conferences. *Discovering the Brain* is based on the Institute of Medicine conference, *Decade of the Brain: Frontiers in Neuroscience and Brain Research*. *Discovering the Brain* is a "field guide" to the brain—an easy-to-read discussion of the brain's physical structure and where functions such as language and music appreciation lie. Ackerman examines: How electrical and chemical signals are conveyed in the brain. The mechanisms by which we see, hear, think, and pay attention—and how a "gut feeling" actually originates in the brain. Learning and memory retention, including parallels to computer memory and what they might tell us about our own mental capacity. Development of the brain throughout the life span, with a look at the aging brain. Ackerman provides an enlightening chapter on the connection between the brain's physical condition and various mental disorders and notes what progress can realistically be made toward the prevention and treatment of stroke and other ailments. Finally, she explores the potential for major advances during the "Decade of the Brain," with a look at medical imaging techniques—what various technologies can and cannot tell us—and how the public and private sectors can contribute to continued advances in neuroscience. This highly readable volume will provide the public and policymakers—and many scientists as well—with a helpful guide to understanding the many discoveries that are sure to be announced throughout the "Decade of the Brain."
