great landfill at Rio Azules and her friends her family society's cast-offs struggle to survive on what those in the city throw away This story of the divers, the community of Western untouchables who live in landfills and dumps immediately made Fernando Contreras Castro famous in his native Costa Rica and around Latin America Now available in English for the first time in Elaine S Brooks translation NICA LOOKING AT THE SEA tells the story of an underclass invisible to the urban bourgeoisie who produce the trash they eke out a living from a story no less pertinent in the US and the rest of the English speaking world than it is in Latin America

Introductory Grammar of Amharic Wolf Leslau, 2000 This book closes the gap for beginners who want to study the Amharic language and had difficulties in finding the right grammar for this purpose The first grammar of Amharic the national language of Ethiopia was published by Hiob Ludolf in 1698 The Amharic grammar published by Praetorius in 1879 is based on Amharic religious texts and on scattered material usually composed by missionaries A milestone in the study of Amharic is Marcel Cohen's *Traite de langue amharique* 1936 but this grammar too is not completely suited for beginners since the author's generalizations are at times aimed at linguists The grammar that comes closest to the concept of a beginner's grammar is that of C H Dawkin 1960 yet this grammar is extremely short does not give examples and does not introduce the student to the intricacies of the language The new book gives all the grammatical forms and the sentences of the present grammar in Amharic script and in phonetic transcription The illustrative examples have a free and a literal translation This procedure should likewise prove to be useful for the Semitist as well as for the general linguist
