*Second Semester* May 05 2024  
Serena Mitchell, very unlike her free-spirited sister played by the rules. Poised, polite and polished, she observed the world behind square frames and a guarded heart. But then she met Landon West and she learned some rules were highly overrated. Fast forward three months: Serena Mitchell has changed. She was in love. With her boss. With her father's best friend. A father who is dangerously close to finding out their secret. This wasn't supposed to happen. She wasn't prepared to lose anything at the end of the school year except mind numbing orgasms. Not her father. Not the love of her life. And certainly not her heart. *Second Semester* can be read as a stand-alone and the second in the *Campus Tales Series*

First Semester Nov 30 2023

My rebound wasn't supposed to be the best sex of my life. He definitely wasn't supposed to walk into class Monday morning on my first day of college. He wasn't supposed to be my teacher. He did things to my body that no man had ever done before. Things I wanted him to do again And again. And again. But the man I had in my bed two days ago was now off limits. He was my teacher. I was his student. I couldn't have him... I wanted him anyway. First Semester is a 50,000 word standalone novel and the first in The Campus Tales series.

*Rosemary Class 2 Semester 2*

Jan 01 2024 Our new semester series, Rosemary-An Activity-based Integrated Course for Classes 1 to 5, has meticulously followed the National Education Policy (NEP), 2020, and the National Curriculum Framework (NCF), 2023.

Pramanas, Panchakosha Vikas, and Panchpadi, the three main constituents, have been used significantly through the explanations, examples, and exercises used in this series. It means the focus has shifted to the process of learning. This series envisages conceptual understanding as a continuous process. The books for Classes 1 and 2 include English, Mathematics, Environmental Studies, and General Knowledge. For Classes 3 to 5, the subjects expand to include English, Mathematics, Science, Social Studies, and General Knowledge. In developing this educational series, considerable attention has been focused on creating an

engaging and enjoyable learning environment. This approach aims to establish a solid educational foundation for young learners, contributing to their all-around growth and development at every educational level. The series is characterised by several notable features: • Integrates key educational concepts with visually appealing activities, interactive games, and practical real-world examples • Methodically structured and comprehensive exercises, ensuring thorough assessment and understanding • Robust online support, including animated tutorials, interactive modules, subject-specific videos, and digital books (exclusively for teacher use), tailored to meet the needs of each topic ENGLISH:

Combines with historical and contemporary elements, it focuses on interest-based selections to engage learners and improve memory retention. It emphasises the four key language skills (Listening, Speaking, Reading, Writing) with clear grammar explanations. MATHEMATICS: With engaging and thorough presentation of concepts, it is suitable for all learning levels, using a graded and age-appropriate approach.

ENVIRONMENTAL STUDIES: It focuses on analysis and inquiry, encouraging learning through discussion, observation, and conversation. SCIENCE: It offers meaningful learning by connecting scientific concepts to students' everyday experiences and the natural world. SOCIAL STUDIES: In this subject,

innovative teaching methods are used to enhance life skills, civic understanding, and prepare students for life's challenges. GENERAL KNOWLEDGE: It is designed to incite curiosity and a passion for learning about the world. Teachers Resource Book to facilitate teaching ENGLISH The content for English is a perfect blend of the best of both worlds—past and present. The selections are based on the learners' interests, and, therefore, will not only easily arrest their attention but also facilitate longer retention. The graded exercises lay appropriate emphasis on learning the four basic language skills of Listening, Speaking, Reading and Writing. Grammar Section in each book offers simple and clear conceptual understanding.

MATHEMATICS The Mathematical concepts have been dealt with in an interesting and comprehensive manner. This way even an average child will have no difficulty in grasping the fundamentals. The series follows a graded and spiral approach, keeping in mind the age and level of understanding of the learner.

ENVIRONMENTAL STUDIES NEP 2020 lays emphasis on promoting the spirit of analysis and questioning because it has been increasingly felt that children learn more through talking, observing and discussing with others. This approach has been adopted in EVS content. SCIENCE The content in this section emphasises meaningful

learning of science for the overall development of learners. It focuses on helping children understand their natural environment and correlate science with their everyday experiences in an interesting and comprehensive manner. SOCIAL STUDIES A totally new and innovative approach to teaching social studies has been adopted in this section. The lessons enhance the learners' life skills and equip them with a high civic sense and arm them with an ability to face the challenges in life with confidence, and as responsible citizens. GENERAL KNOWLEDGE The main objective of the General Knowledge section is to create a sense of wonder in the learners and arouse in them a desire to learn and find out more about the world around them. We look forward for feedback and constructive criticism from the students, teachers and parents, which will be given due consideration in the future reprints and editions of the books.
