Lalit Baja, Simon Hambidge, Ann-Christine Nyquist, and Gwendolyn Kerby use evidence-based research and flow charts for each presenting complaint or specific disorder to provide quick access to the information you need for effective decision making. With updated drug tables and revised algorithms, this streamlined new edition makes it even easier for you to diagnose and manage common clinical problems from infancy through adolescence. Rapidly access guidance on diagnosis and management from algorithms for each clinical disorder. Treat the full range of diseases and disorders with comprehensive coverage of diagnosis, assessment of severity, and clinical management. Choose the best treatment for each case thanks to indications for surgical interventions as well as expensive diagnostic procedures Stay current on recent developments and make effective decisions for movement disorders, physical abuse in children, sexual abuse in children, eating disorders, ADHD, and other hot topics. Find answers quickly and easily with a new table of contents organized into two sections—Presenting Complaints and Specific Disorders—that reduces the need to flip between chapters. Tap into the diverse perspectives of expert authors from all over the country. Get only the information you need in the streamlined new edition with shorter, more user-friendly flow diagrams and fewer specialized chapters.

Lipp Essent Nursng Assist 5e (Int Ed) PB Dec 17 2021 Revised and updated to reflect today's changing

healthcare practice, Lippincott Essentials for Nursing Assistants: A Humanistic Approach to Caregiving, 5th edition, streamlines the path to success as a nursing assistant by detailing the foundational concepts and facts needed to competently and compassionately function in a long-term care facility, acute care facility, or home health agency. A concise, conversational approach makes key information accessible, and it is bolstered by helpful step-by-step guides through commonly performed procedures. These features ready students for challenges that nursing assistants might encounter in clinical practice.

Instructor's Guide to Hartman's Nursing Assistant Care May 14 2024

The Nursing Assistant Jun 15 2024 For all shorter nurse assistant courses, especially those covering acute care (hospital) and nursing homes (long term care) environments. The Nursing Assistant, Fifth Edition is a concise, practical, affordable, and up-to-date guide to the skills today's nursing assistants need to master. It is designed both to serve as the basis of any nursing assistant training program, and to prepare students for careers in acute, subacute, or long-term care. It addresses the needs of the whole patient or resident, while promoting independence and self-care. Carefully organized to follow nursing process models, state curricula, and OBRA mandates, it walks through 75 step-by-step procedures reflecting the most common nursing assistant tasks. This edition is fully updated for the newest CDC and OSHA guidance for hand cleaning and infection control, and to reflect other relevant federal laws, including HIPAA.

Nursing Assisting Aug 05 2023 The 6th edition of this comprehensive nursing assistant training textbook is organized by body system, which gives students a context for learning. Here is important information about the latest edition: Chapters are organized around body systems (structure and function, normal changes of aging, and common diseases and related care are grouped together). Chapter review sections contain multiple choice questions, along with short answer questions. The concept of person-centered care is reinforced throughout the book. This edition contains new information about the following diseases and disorders: COVID-19, migraines and cluster headaches, more types of cancers, respiratory syncytial virus (RSV), metabolic syndrome, varicose veins, and seasonal affective disorder (SAD), as well as expanded and reorganized mental health disorder coverage. We added additional electronic documentation guidelines. We included new information on topics including testing (albumin/protein, CT calcium score, point-of-care testing [POCT], and continuous glucose monitoring [CGM] systems); medical devices (stents, Holter monitors, nebulizers); and patient care/treatments (cochlear implants, targeted therapy, and information from the International Dysphagia Diet Standardisation Institute (IDDSI) on thickened liquids and texture modified foods). There is a hardback version of this book.
