**London's Ley Lines Pathways of Enlightenment** Christopher Street,2011-07 Ley lines are as elusive as beams of starlight. They are everywhere you just can't see them. They may be compared to the hidden knowledge of a secret tradition. On public display and freely available to those in the know. Invisible and unsuspected by those who aren't. Thus the ancient wisdom at the basis of leys is encoded within the land for future generations to discover anew if they possess the vision. London's leys can lead you to magical places to the soul of the city and to an understanding of the hidden unity which connects our ancient sacred sites to each other and also links our spiritual dimensions to theirs. To our ancestors these locations were places of the gods, places of healing, places of power, places of vision, initiation, inspiration, and revelation. They still are. **Ley Lines of the UK and USA** David Cowan, Anne Silk, 2014-06-12 Since the Stone Age our ancestors have tapped into the natural energies of the planet: building stone circles, standing stones, pyramids, and temples in a highly evolved and brilliantly executed network of energy centers around the world. Thousands of years later this ancient knowledge was brutally suppressed by the early Catholic church and ignored by science. But it still lingered on, kept by such secret societies as the Knights Templar and the Masons who designed buildings and whole cities incorporating this esoteric knowledge hidden in plain view. Here Cowan brings together his own extensive work with the findings of other researchers and reveals his discovery that the energy lines emanate from volcanic sources that spew out natural telluric energies in all directions like the spokes of a wheel. Chapters include: Megalithic Engineering, Burial Grounds across Scotland, Following a Straight Ley Line to its Source, Saint Columba and Iona, The Royal Triangle of Great Britain, The Strange Behavior of Ley Lines, The Dance of the Dragon, Ley Lines in the USA, The Secret Knowledge of the Freemasons, Spirit Paths, The Occult Knowledge of the Nazis, How to Use Diving Rods, The Amazing Power of the Maze, more. Tons of illustrations, all in color. [Ley Lines and Earth Energies](#) David Cowan, 2003 This exploration shows how natural forces affect our behavior, how they can be used to enhance our health and well-being, and ultimately how they bring us closer to penetrating one of the deepest mysteries being explored.

[The Old Straight Track](#) Alfred Watkins, 1988-01-01 First published in 1925, THE OLD STRAIGHT TRACK remains the most important source for the study of ancient tracks or leys that criss-cross the British Isles, a fascinating system which was old when the Romans came to Britain. First in the Herefordshire countryside and later throughout Britain, Alfred Watkins noticed that beacon hills, mounds, earthworks, moats, and old churches built on pagan sites seemed to fall in straight lines. His investigation convinced him that Britain was covered with a vast network of straight tracks aligned with either the sun or the path of a star. Although traces of this network can be found all over the country, the principles behind the ley system remain a mystery. Are they the legacy of a prehistoric scientific knowledge which is now all but lost? And was their purpose secular or religious? **Forgotten Footsteps** Harry Bell, 1977 [Crystal Oversoul Attunements](#) Michael Eastwood, 2011-12-01

**The Sacred Network** Chris H. Hardy, 2011-02-23 How sacred sites amplify the energies of consciousness the earth and the universe Examines the web of geometrical patterns linking sacred sites worldwide with

special focus on the sacred network of ley lines in Paris Unveils the coming state of shared consciousness for humanity fueled by the sacred network Reveals how consciousness is a tangible form of energy First marked by the standing stones of our megalithic ancestors the world's sacred sites are not only places of spiritual energy but also hubs of cosmic energy and earthly energy Generation upon generation has recognized the power of these sites with the result that each dominant culture builds their religious structures on the same spots the Cathedral of Notre Dame in Paris for example was constructed over a Temple to Diana that in turn had been built over a stone pillar worshipped by the Gauls In The Sacred Network Chris Hardy shows how the world's sacred sites coincide with the intersections of energetic waves from the earth's geomagnetic field and how via their megaliths temples and steeples these sites act as antennae for the energies of the cosmos Delving deeply in to Paris's sacred network she also explores the intricate geometrical patterns created by the alignments of churches and monuments such as pentagrams and Stars of David Revealing that consciousness is a tangible energy she explains how the sacred network is fueling an 8 000 year evolutionary cycle initiated by our megalithic ancestors that will soon culminate in a new state of shared consciousness for humanity
