New Car Buying Guide Helps Consumers Get Insider Tips On How To Buy A Car For Less!'How do you buy a car?' is a common question that most people have no idea on the best way to answer. Knowing how to buy a used car or even a new one for that matter, can mean the

difference between going home happy or leaving the dealership with empty pockets. Generally the second biggest purchase in a person's life is buying a car. It can also turn out to be one of the most expensive mistakes you could ever make. Most people that are in the market to buy a new car struggle with the idea of dealing with dealers and salespeople. In fact, the average car buyer pays about 20% more than they need to when you factor in financing mistakes, undervalued trade-ins, and inflated sticker prices. Because most people only buy a car every few years, it is difficult for them to gain the experience needed to avoid all of the traps that are out there. They have countless questions to which they must know the answers before they go. Questions such as, should you reveal your monthly payment amount? Leasing it sounds good, but is it really a good deal? Should I trade or sell it myself? Will it help to buy from a friend in the business? A new independent car buying guide entitled *The Car Buying Guide - How to Buy a Car Without Getting SCREWED OVER!* has just been released to help consumers navigate the complex process of buying a car. Author Greg Mason has put together an extensive collection of tips on buying a car and resources to educate car buyers about the numerous profit streams car dealers use to exploit their customers. Each chapter of *The Car Buying Guide* covers a different angle of the buying process. Mason not only educates his readers on the ways banks and car dealerships profit from selling cars, but he also provides the best ways to avoid paying too much on financing, dealer fees, and of course the price of the car itself. *The Car Buying Guide* is different from all other car buying books in that it has a "little something" that most others don't. That little something is the information you need to get to a rock bottom price on the car of your dreams with the least amount of effort in the shortest time possible. Furthermore, *The Car Buying Guide* is written strictly and uniquely from the buyers' perspective, which puts the consumer in the driver's seat. A handy guide for consumers.
