Signing Naturally Ken Mikos, Cheri Smith, Ella Mae Lentz, 2001 A practical guide to learning ASL that emphasizes key vocabulary expressions and language in context      **Signing Naturally** Ella Mae Lentz, Ken Mikos, Cheri Smith, 1993 Videotext DVDs in place of videotapes and workbook designed to provide a way to review and practice what is learned in the classroom Each of the units revolves around a major language function such as asking for and giving directions and talking about life events      Signing Naturally: Student Workbook Level 2 Ella Mae Lentz (et al),      **Signing Naturally: Student Workbook Level 1** Cheri Smith (et al),      Deaf Like Me Thomas S. Spradley, James P. Spradley, 1985 The parents of a child born without hearing describe their efforts to reach across the barrier of silence to teach their daughter to speak and enjoy a normal life      **Signing Naturally: Student Workbook** Cheri Smith (Ella Mae Lentz & Ken Mikos),      **ASL at Work** William Newell, Cynthia Ann Sanders, Barbara Ray Holcomb, Frank Caccamise, Samuel K. Holcomb, Rico Peterson, 2010-01-01 Divided into 16 instructional units ASL at Work is designed to enable students to develop the skills and knowledge needed to communicate effectively with their Deaf co workers students and clients in work and social settings Each instructional unit in the Student Text has a Unit Overview with learning outcomes a listing of vocabulary full grammatical and language culture and community explanations and a practice and review section with accompanying DVD which provides students with targeted outside of the classroom practice to develop expressive and receptive skills The Student Text is beautifully illustrated throughout with clearly drawn sign grammatical and vocabulary illustrations Each unit on the ASL at Work Student DVD provides a Sample Expressive Dialogue Comprehension Dialogues and Narratives and demonstration of Expressive Practice Prompts to give students practice outside of the classroom with both receptive and expressive skills CJ Jones Deanna Bray Rosa Lee Timm and other well known Deaf talent provide a variety of ASL models for students on the DVD From the first lesson ASL is at work for both the teacher who is teaching American Sign Language and the students who are learning ASL Publisher      **Good Economics for Hard Times** Abhijit V. Banerjee, Esther Duflo, 2019-11-12 The winners of the Nobel Prize show how economics when done right can help us solve the thorniest social and political problems of our day Figuring out how to deal with today s critical economic problems is perhaps the great challenge of our time Much greater than space travel or perhaps even the next revolutionary medical breakthrough what is at stake is the whole idea of the good life as we have known it Immigration and inequality globalization and technological disruption slowing growth and accelerating climate change these are sources of great anxiety across the world from New Delhi and Dakar to Paris and Washington DC The resources to address these challenges are there what we lack are ideas that will help us jump the wall of disagreement and distrust that divides us If we succeed history will remember our era with gratitude if we fail the potential losses are incalculable In this revolutionary book renowned MIT economists Abhijit V Banerjee and Esther Duflo take on this

challenge building on cutting edge research in economics explained with lucidity and grace Original provocative and urgent Good Economics for Hard Times makes a persuasive case for an intelligent interventionism and a society built on compassion and respect It is an extraordinary achievement one that shines a light to help us appreciate and understand our precariously balanced world

*Building Community Capacity* Robert J. Chaskin, This book focuses on a gap in current social work practice theory community change Much work in this area of macro practice particularly around grassroots community organizing has a somewhat dated feel to it is highly ideological in orientation or suffers from superficiality particularly in the area of theory and practical application Set against the context of an often narrowly constructed clinical emphasis on practice education coupled with social work s own current rendering of scientific management community practice often takes second or third billing in many professional curricula despite its deep roots in the overall field of social welfare Drawing on extensive case study data from three significant community building initiatives program data from numerous other community capacity building efforts key informant interviews and an excellent literature review Chaskin and his colleagues draw implications for crafting community change strategies as well as for creating and sustaining the organizational infrastructure necessary to support them The authors bring to bear the perspectives of a variety of professional disciplines including sociology urban planning psychology and social work Building Community Capacity takes a collaborative interdisciplinary approach to a subject of wide and current concern the role of neighborhood and community structures in the delivery of human services or as the authors put it a place where programs and problems can be fitted together Social work scholars and students of community practice seeking new conceptual frameworks and insights from research to inform novel community interventions will find much of value in Building Community Capacity

*Command Of The Air* General Giulio Douhet, 2014-08-15 In the pantheon of air power spokesmen Giulio Douhet holds center stage His writings more often cited than perhaps actually read appear as excerpts and aphorisms in the writings of numerous other air power spokesmen advocates and critics Though a highly controversial figure the very controversy that surrounds him offers to us a testimonial of the value and depth of his work and the need for airmen today to become familiar with his thought The progressive development of air power to the point where today it is more correct to refer to aerospace power has not outdated the notions of Douhet in the slightest In fact in many ways the kinds of technological capabilities that we enjoy as a global air power provider attest to the breadth of his vision Douhet together with Hugh Boom Trenchard of Great Britain and William Billy Mitchell of the United States is justly recognized as one of the three great spokesmen of the early air power era This reprint is offered in the spirit of continuing the dialogue that Douhet himself so perceptively began with the first edition of this book published in 1921 Readers may well find much that they disagree with in this book but also much that is of enduring value The vital necessity of Douhet s central vision that command of the air is all important in modern warfare has been proven throughout the history of wars in this century from the fighting over the Somme to the air war over Kuwait and

Iraq **How to Avoid a Climate Disaster** Bill Gates, 2021-02-16 1 NEW YORK TIMES BEST SELLER In this urgent authoritative book Bill Gates sets out a wide ranging practical and accessible plan for how the world can get to zero greenhouse gas emissions in time to avoid a climate catastrophe Bill Gates has spent a decade investigating the causes and effects of climate change With the help of experts in the fields of physics chemistry biology engineering political science and finance he has focused on what must be done in order to stop the planet s slide to certain environmental disaster In this book he not only explains why we need to work toward net zero emissions of greenhouse gases but also details what we need to do to achieve this profoundly important goal He gives us a clear eyed description of the challenges we face Drawing on his understanding of innovation and what it takes to get new ideas into the market he describes the areas in which technology is already helping to reduce emissions where and how the current technology can be made to function more effectively where breakthrough technologies are needed and who is working on these essential innovations Finally he lays out a concrete practical plan for achieving the goal of zero emissions suggesting not only policies that governments should adopt but what we as individuals can do to keep our government our employers and ourselves accountable in this crucial enterprise As Bill Gates makes clear achieving zero emissions will not be simple or easy to do but if we follow the plan he sets out here it is a goal firmly within our reach
