Chapter 11 - Search for Unrecorded Liabilities

In this mini-case you will focus on performing one aspect of the test of details on the accounts payable balance – the search for unrecorded liabilities. To identify possible unrecorded liabilities you will compare the payments made after year end with the accounts payable listing as of the end of the year. In performing this comparison particular attention should be given to any payment made on the disbursements journal for which there was not an accounts payable balance as of year end. Your responsibility is to identify the transactions on the cash disbursements journal that the audit team should investigate and review further to determine if a liability should have been recorded as of year end.

INSTRUCTIONS:

- 1** Work paper 11-2 contains a listing of the cash disbursement journal entries made in the first few days of the following year end. Compare the transactions on the cash disbursements journal with the accounts payable listing on work paper 11-1. Use the appropriate tick mark to evidence your review of each transaction.
- 2** When you are finished reviewing the transactions on work paper 11-2, sign off in the upper right hand corner with your initials and date.
- 3** On work paper 11-3 record the transactions you identified each transaction for additional investigation and review by the audit team. Also provide the reason why you identified each transaction for additional investigation and review by the audit team.
