You Suck at Racing Ian Korf,2016-05-12 A lot of books on driving are written by professional racers who assume you too want to be a professional racer Not this book It s written by a hobbyist who suggests you keep your day job Besides it s much more fun being an enthusiastic amateur than a jaded professional just ask someone in the sex industry This book is designed to help the average driver make the transition from commuter to safe road racer in as few pages as possible I wrote this book because it s what I would have wanted to read when I first became interested in track driving succinct nerdy practical and occasionally diverting It is not intended as a definitive tome or a work of art It s more like a sandwich convenient and nourishing
