Planned, developed and written by practising classroom teachers with a wide variety of experience in schools, this maths course has been designed to be enjoyable and motivating for pupils and teachers. The course is open and accessible to pupils of all abilities and backgrounds, and is differentiated to provide material which is appropriate for all pupils. It provides spiral coverage of the curriculum which involves regular revisiting of key concepts to promote familiarity through practice. This book, designed for the higher level of the GCSE, adheres to the Edexcel specification. Examines Asperger's from the perspective of the social model rather than the medical model. It is based on a 'solution focused' approach, which looks at the expertise of the autistic individual and how the skills and coping strategies they have will help them reach their preferred future. Includes Part 1, Number 1: Books and Pamphlets, Including Serials and Contributions to Periodicals (January - June) Agile, a topic of growing importance in project management, is an iterative and incremental software developmental methodology that helps organizations to be more flexible to change and to deliver workable software in a shorter span of time. PMI-ACPSM is the new credential offered by the Project

Management Institute, and validates a practitioner's ability to understand and apply agile principles and practices. PMI: Agile Certified Practitioner is a self-study guide that is essential reading for all PMI-ACPSM aspirants to clear the certification exam. Following an easy and a step-by-step learning approach, this book presents not only the basic agile concepts but also the latest developments in the field, based entirely on the guidelines from the Project Management Institute. New National Framework Mathematics features extensive teacher support materials which include dedicated resources to support each Core and Plus Book. The 7 Plus Teacher Planning Pack contains Teacher Notes for every chapter with a 'Self-contained lesson plan' for each of the units in the pupil books. This Global edition has been designed specifically to meet the needs of international financial accounting students. The text successfully implements a real-world, single focus company approach in every chapter. The companies chosen are engaging and the decision-making focus shows the relevance of financial accounting in the real world. In addition to the latest examples of both contemporary and traditional topics, new material has been added to make the content more relevant and improve learning outcomes for the international student. Cost Accounting is designed to provide essential skill sets to managers for planning and controlling their business financials. Covering a wide range of topics, this book is suitable for both undergraduate and postgraduate students of business study courses offered by universities across India. It also meets the requirement of the students of CA, ICWA and CS. Developed for the AQA Specification, revised for the new National Curriculum and the new GCSE specifications. The Teacher File contains detailed support and guidance on advanced planning, points of emphasis, key words, notes for the non-specialist, useful supplementary ideas and homework sheets. Engage students in mathematics using growth mindset techniques The most challenging parts of teaching mathematics are engaging students and helping them understand the connections between mathematics concepts. In this volume, you'll find a collection of low floor, high ceiling tasks that will help you do just that, by looking at the big ideas at the eighth-grade level through visualization, play, and investigation. During their work with tens of thousands of teachers, authors Jo Boaler, Jen Munson, and Cathy Williams heard the same message—that they want to incorporate more brain science into their math instruction, but they need guidance in the techniques that work best to get across the concepts they needed to teach. So the authors designed *Mindset Mathematics* around the principle of active student engagement, with tasks that reflect the latest brain science on learning. Open, creative, and visual math tasks have been shown to improve student test scores, and more importantly change their relationship with mathematics and start believing in their own potential. The tasks in *Mindset Mathematics* reflect the lessons from brain science that: There is no such thing as a math person - anyone can learn mathematics to high levels. Mistakes, struggle and challenge are the most important times for brain growth. Speed is unimportant in mathematics. Mathematics is a visual and beautiful subject, and our brains want to think visually about mathematics. With engaging questions, open-ended tasks, and four-color visuals that will help kids get excited about mathematics, *Mindset Mathematics* is organized around nine big ideas which emphasize the connections within the Common Core State Standards (CCSS) and can be used with any current curriculum. Developed for the CCEA Specification, this Teacher File contains detailed support and guidance on advanced planning, points of emphasis, key words, notes for the non-specialist, useful supplementary ideas and homework sheets.

The main priority of a non-profit organization is the organization's philanthropic mission. Managers are extremely passionate about furthering the mission, yet they are not often trained in business management. However, to fulfill its mission a non-profit must be financially solvent. *Starting and Operating a Non-Profit Made Easy* helps non-profits become and stay financially solvent by applying traditional business practices to the unique challenges of a non-profit organization. It focuses on financial management and planning using cash flow budgeting and methods of quantifying fundraising and grant-seeking activities, two of the most important functions of a non-profit. It allows non-profits to develop and stick to a long-term plan, rather than functioning hand-to-mouth, dependent on unexpected monetary windfalls. Using extensive checklists, forms and worksheets, the book helps non-profit managers keep their organization running smoothly. Differentiate content, process, and product and promote content-area literacy with this dynamic kit about world cultures through time. This kit provides leveled informational texts featuring key historical themes and topics embedded within targeted literacy instruction. Teachers can assess comprehension of informational text using the included Culminating Activity.

Additionally, teachers can use multimedia activities to engage students and extend learning. The 60 colorful Leveled Text Cards in this kit are written at four distinct reading levels, each card featuring subtle symbols that denote differentiated reading levels, making differentiation strategies easy to implement. Leveled Texts for Differentiated Content-Area Literacy: World Cultures Through Time Complete Kit includes: Leveled Text Cards; digital resources; Lessons; a Culminating Activity; Tiered Graphic Organizers; Assessment Tools; and audio recordings (of thematic raps and leveled texts). "Principals at all levels will find this book valuable. It translates espoused theories of climate and culture into practical ideas." —Boyd Dressler, Associate Adjunct Professor Montana State University "Focused, to the point, and direct—a quick read for a busy principal looking for ideas." —Leslie A. Standerfer, Principal Estrella Foothills High School, Goodyear, AZ Set the tone for educational success! School culture is one of the most important factors in student and staff performance. Positive climates foster superior achievement, while negative climates discourage learners, educators, and parents alike. Based on thirty years of combined experience as school principals, staff developers, and educational leaders, John F. and Sheila Eller present a wide spectrum of unique, practical, and proven strategies to improve school climate and culture. Divided into chapters that emphasize the main components of school culture, this guide allows busy school leaders to go directly to the section that best addresses their specific needs. The authors provide a clear definition of culture along with diagnostic tools to help readers determine the state of their school's culture. Chapters feature activities and ideas to: Foster personal rapport and collegiality between staff members Develop collaborative work relationships Improve staff meetings Address issues related to office operations Deal appropriately with conflict Creative Strategies to Transform School Culture offers fun and inventive ideas for school leaders who are working diligently to create a collaborative teaching and learning environment.
