Misuse of Drugs and Drug Trafficking Offences Rudi Fortson,2011 New edition of a comprehensive guide to the acquisition of businesses whether the acquisition is structured by way of a purchase of shares or a purchase of assets Includes explanations on the main issues which arise on such transactions In addition to commentary precedents are included in paper and electronic formats *Ungoverning Dance* Ramsay Burt,2017 Ungoverning Dance examines recent contemporary dance in continental Europe Placing this in the context of neoliberalism and austerity it argues that dancers are developing an ethico aesthetic approach that uses dance practices as sites of resistance against dominant ideologies It attests to the persistence of alternative ways of thinking and living Bulk Solids Handling C.R. Woodcock,J.S. Mason,2012-12-06 An understanding ofthe properties and the handling characteristics of liquids and gases has long been regarded as an essential requirement for most practising engineers It is therefore not surprising that over the years there has been a regular appearance of books dealing with the fundamentals of fluid mechanics fluid flow hydraulics and related topics What is surprising is that there has been no parallel development of the related discipline of Bulk Solids Handling despite its increasing importance in modern industry across the world It is only very recently that a structured approach to the teaching and learning of the subject has begun to evolve A reason for the slow emergence of Bulk Solids Handling as an accepted topic of study in academic courses on mechanical agricultural chemical mining and civil engineering is perhaps that the practice is so often taken for granted Certainly the variety of materials being handled in bulk is almost endless ranging in size from fine dust to rocks in value from refuse to gold and in temperature from deep frozen peas to near molten metal

Hard Rock Miner's Handbook Jack De la Vergne,2008 **Right-Wing Women** Paola Bacchetta,Margaret Power,2013-01-11 An oft neglected subject right wing women are an important component in understanding the many racist fascist and anti feminist movements of the 20th century Providing original research on an array of right wing groups around the world the contributors paint a disturbing and complicated portrait of the women involved in these movements From Mussolini supporters to Klanswomen this collection provides an eye opening look at extremist women **The context of REDD+ in Vietnam** Pham, T.T.,Hoang, T.L.,Nguyen, D.T.,Dao, T.L.C.,Ngo, H.C.,Pham, V.H.,2019-09-23 Vietnam is acknowledged to be REDD pioneer country having adopted REDD in 2009 This paper is an updated version of Vietnam s REDD Country Profile which was first published by CIFOR in 2012 Our findings show that forest cover has increased since 2012 but enhancing or even maintaining forest quality remains a challenge Drivers of deforestation and degradation in

Vietnam including legal and illegal logging conversion of forest for national development goals and commercial agriculture weak law enforcement and weak governance have persisted since 2012 up to 2017 However with strong political commitment the government has made significant progress in addressing major drivers such as the expansion of hydropower plants and rubber plantations Since 2012 Vietnam has also signed important international treaties and agreements on trade such as Voluntary Partnership Agreements VPAs through the European Union s EU Forest Law Enforcement These new policies have enhanced the role of the forestry sector within the overall national economy and provided a strong legal framework and incentives for forestuser groups and government agencies to take part in forest protection and development Nevertheless new market rules and international trade patterns also pose significant challenges for Vietnam where the domestic forestry sector is characterized by state owned companies and a large number of domestic firms that struggle to comply with these new rules The climate change policies national REDD strategy and REDD institutional setting has been refined and revised over time However uncertain and complex international requirements on REDD and limited funding have weakened the government s interest in and political commitment to REDD REDD policies in Vietnam have shown significant progress in terms of its monitoring reporting and verification MRV systems forest reference emission levels FREL and performance based and benefit sharing mechanisms by taking into account lessons learnt from its national Payment for Forest Environmental Services PFES Scheme Evidence also shows increasing efforts of government and international communities to ground forestry policies in a participatory decision making processes and the progress on developing safeguarding policies in Vietnam between 2012 and 2017 affirms the government s interest in pursuing an equitable REDD implementation Policy documents have fully recognized the need to give civil society organizations CSOs and ethnic groups political space and include them in decision making Yet participation remains token Government provision for tenure security and carbon rights for local households are still being developed with little progress since 2012 The effectiveness of REDD policies in addressing drivers of deforestation and degradation has not be proven even though the revised NRAP has recently been approved However the fact that drivers of deforestation and degradation are outside of the forestry sector and have a strong link to national economic development goals points to an uneasy pathway for REDD The business case for REDD in Vietnam has not been proven due to an uncertain carbon market increasing requirements from donors and developed countries and high transaction and implementation costs Current efforts toward 3Es outcomes of REDD could be enhanced by stronger political commitment to addressing the drivers of deforestation from all sectors broader changes in policy framework that create both incentives and disincentives for avoiding deforestation and degradation cross sectoral collaboration and committed funding from both the government and developed countries
