*The Nature of the ADAS Model Based on the ISLM Model* B. Bhaskara Rao, 2010 The aggregate demand and supply model ADAS is interpreted as a synthesis of the Keynesian and neoclassical models It uses the ISLM model without explaining its nature to derive aggregate demand AD It is combined with an aggregate supply AS curve to explain price inflation and output dynamics This paper argues that neither the AD nor the AS curve is conceptually the same as its microeconomic counterpart and that ADAS is not a synthesis In fact ADAS implies that discretionary policy is necessary and that price changes do not perform their traditional negative feedback function

Rittenberg,2008      **The Oxford Handbook of Consequentialism** Douglas W. Portmore,2020 This handbook contains thirty two previously unpublished contributions to consequentialist ethics by leading scholars covering what s happening in the field today as well as pointing to new directions for future research Consequentialism is a rival to such moral theories as deontology contractualism and virtue ethics But it s more than just one rival among many for every plausible moral theory must concede that the goodness of an act s consequences is something that matters even if it s not the only thing that matters Thus all plausible moral theories will accept both that the fact that an act would produce good consequences constitutes a moral reason to perform it and that the better that act s consequences the moral reason there is to perform it Now if this is correct then much of the research concerning consequentialist ethics is important for ethics in general For instance one thing that consequentialist researchers have investigated is what sorts of consequences matter the consequences that some act would have or the consequences that it could have if say the agent were to follow up by performing some subsequent act And it s reasonable to suppose that the answer to such questions will be relevant for normative ethics regardless of whether the goodness of consequences is the only thing matters as consequentialists presume or just one of many things that matter as non consequentialists presume      **Cambridge and Vienna** Maria C.
