Zero Hour Harry S. Dent, Jr., Andrew Pancholi, 2018-01-29 Will you be prepared to take advantage when the revolution comes or will you go down with the rest? Revolutions are cyclical. They run on a very specific timetable. You could be so much happier, healthier, and wealthier if you grasped the powerful cycles that influence everything from currency valuations to election returns. As the end of the decade draws near, we are approaching an extremely rare convergence of low points for multiple political, economic, and demographic cycles. The result will be a major financial crash and global upheaval that will dwarf the Great Recession of the 2000s and maybe even that of the 1930s. Bestselling author Harry S. Dent Jr. predicted the populist wave that drove Brexit, the election of Donald Trump, and other recent shocks around the world. Now in *Zero Hour*, he and Andrew Pancholi offer the definitive guide to protect your investments and prosper in the age of anti-globalist backlash. You'll learn why the most hyped technologies of recent years—self-driving cars, artificial intelligence, and virtual reality—won't pay off until the 2030s, why you'd be a fool to invest in China, and why you should invest in healthcare rather than real estate. *Zero Hour* will help you turn the upheaval ahead to your advantage so your family can be prepared and protected.

What to Do When the Bubble Pops Harry S. Dent Jr., 2020-03-19 THE DOWNTURN IS HERE Harry Dent has been predicting for some time that we are about to enter a prolonged downturn, one that will be looked at by historians as a classic economic depression due to demographic factors: one of the largest generations in history, the baby boomers, are leaving the workplace, either due to planned retirement or involuntarily due to layoffs or not being able to find work, which will have a profound impact on all sectors of our economy. This economic downturn could have been swifter and the pain much less had the Fed allowed it to happen naturally. However, due to several rounds of quantitative easing, essentially pumping free money into the economy, the Fed has not only delayed the inevitable but they have ensured that the downturn will be much longer and much more severe than it could have been. Harry Dent believes that the Fed cannot keep the bubble from popping much longer, and when it does pop, every individual will need to be prepared for a period he calls an economic winter. In this book, you'll learn the personal and business strategies that will be essential to protect and preserve your assets and the few areas of the economy that will still do well during this winter period. This is essential reading for everyone, especially during a crisis.

The Demographic Cliff Harry S. Dent Jr., 2015-08-25 Bestselling author and financial guru Harry Dent shows why we're facing a great deflation and what to do about it now. Throughout his long career as an economic forecaster, Harry Dent has relied on a not-so-secret weapon: demographics. He can explain why our economy has risen and fallen with the peak spending of generations and why we now face a growing demographic cliff with the accelerating retirement of the Baby Boomers around the world. Inflation rises when a larger than usual block of younger people enter the workforce and it wanes when large numbers of older people retire, downsize their homes, and cut their spending. The mass retirement of the Boomers won't just hold back inflation; it and massive debt deleveraging will actually cause deflation. Dent explores the implications of his controversial predictions and offers advice on retirement planning, health care, real estate, education, investing, and business strategies.
