Documentation Abstracts, 1971 [An Annotated Guide to Current National Bibliographies](#) Barbara L. Bell, 2013-02-07 [The New Faces of Fascism](#) Enzo Traverso, 2019-01-29 What is fascism in the twenty first century What does Fascism mean at the beginning of the twenty first century When we pronounce this word our memory goes back to the years between the two world wars and envisions a dark landscape of violence dictatorships and genocide These images spontaneously surface in the face of the rise of radical right racism xenophobia islamophobia and terrorism the last of which is often depicted as a form of Islamic fascism Beyond some superficial analogies however all these contemporary tendencies reveal many differences from historical fascism probably greater than their affinities Paradoxically the fear of terrorism nourishes the populist and racist rights with Marine Le Pen in France or Donald Trump in the US claiming to be the most effective ramparts against Jihadist fascism But since fascism was a product of imperialism can we define as fascist a terrorist movement whose main target is Western domination Disentangling these contradictory threads Enzo Traverso s historical gaze helps to decipher the enigmas of the present He suggests the concept of post fascism a hybrid phenomenon neither the reproduction of old fascism nor something completely different to define a set of heterogeneous and transitional movements suspended between an accomplished past still haunting our memories and an unknown future
