**Concepts of Biology** Samantha Fowler, Rebecca Roush, James Wise, 2023-05-12 Black white print Concepts of Biology is designed for the typical introductory biology course for nonmajors covering standard scope and sequence requirements The text includes interesting applications and conveys the major themes of biology with content that is meaningful and easy to understand The book is designed to demonstrate biology concepts and to promote scientific literacy [Transgender Medicine](#) Leonid Poretsky, Wylie C. Hembree, 2019-02-22 Although transgender persons have been present in various societies throughout human history it is only during the last several years that they have become widely acknowledged in our society and their right to quality medical care has been established In the United States endocrinologists have been providing hormonal therapy for transgender individuals for decades however until recently there has been only limited literature on this subject and non endocrine aspects of medical care for transgender individual have not been well addressed

in the endocrine literature The goal of this volume is not only to address the latest in hormonal therapy for transgender individuals including pediatric and geriatric age groups but also to familiarize the reader with other aspects of transgender care including primary and surgical care fertility preservation and the management of HIV infection In addition to medical issues psychological social ethical and legal issues pertinent to transgender individuals add to the complexities of successful treatment of these patients A final chapter includes extensive additional resources for both transgender patients and providers Thus an endocrinologist providing care to a transgender person will be able to use this single resource to address most of the patient s needs While Transgender Medicine is intended primarily for endocrinologists this book will be also useful to primary care physicians surgeons providing gender confirming procedures mental health professionals participating in the care of transgender persons and medical residents and students
