***"Very practical and user-friendly . . ." --Linda R. Kroll,
Professor Department of Education, Mills College Build
student-centered learning into your standards-based
curriculum and lesson plans! Educators expect learners to
solve problems, think critically, communicate effectively,
and collaborate well. These complex processes require
young learners to engage in active learning and to
understand that their own experience is the foundation
for new learning. They also require teachers to move from
the traditional role of "sage on the stage" to the new role
of "guide on the side." Constructivist Learning Design
offers teachers a six-step framework for lesson planning
and assessment: Situation: develop goals, tasks, and
curriculum standards Grouping: group students and
materials, and use cooperative learning Bridge: recall
prior knowledge using students' cognitive maps, skills,
values, motivation, and expectations Task: use higher-
level thinking skills and problem-based learning Exhibit:***

arrange student portfolios and work samples Reflection: synthesize critical thinking and knowledge With clear classroom applications and ready-to-use planning templates, this research-based resource guides teachers through the complex process of aligning constructivist learning events with standards-based curriculum. Supplement your social studies

curriculum with 180 days of daily geography practice! This essential classroom resource provides teachers with weekly geography units that build students' geography knowledge, and are easy to incorporate into the classroom. In a world that is becoming more connected and globalized, 21st century students must have the skills necessary to understand their world and how geography affects them and others. Students will develop their map and spatial skills, learn how to answer text- and photo-dependent questions, and study the 5 themes of geography. Each week covers a particular topic and introduces students to a new place or type of map. The first two weeks consist of a mini-unit that focuses entirely on map skills. For additional units, students will study various places, and how culture and geography are related. With a focus on North American regions, students will explore various types of maps including physical maps, political maps, topographic maps, thematic maps, climate maps, and various topics including scale, legends, cardinal directions, latitude, longitude, and more. Aligned to state standards and National Geography Standards, this resource includes digital materials. Find the Answers You Need to Comply with the Prompt Payment Act! It can be challenging for federal agencies to comply with the Prompt Payment Act. Although the basic rules are simple, they can be difficult to interpret and apply properly – until now. Designed as a reference, The Prompt Payment Act Answer Book lays out the prompt payment rules in a question-and-answer format, enabling readers to find answers to hundreds of specific questions. Practitioners will find the information they need to get and stay in compliance with the Prompt Payment Act and will benefit

from real-world examples they can apply in everyday operations. • Government payment personnel: Get advice on how to structure your processes to comply with prompt payment rules, avoid negative audit findings, and deal with contractor inquiries about interest entitlements • Auditors: Structure your prompt payment audits and pertinent information effectively • Contractors and vendors: Verify that your invoices are being handled properly, determine whether you are due interest penalties, and learn how to appeal improper payment amounts Plus! Two quantitative sections show you how to calculate payment due dates and interest penalties, and two quizzes help reinforce learning. The Academic Vocabulary Practice for third grade offers teachers 128-pages of practical ways to help students master essential academic vocabulary. It is aligned with Common Core State Standards and includes word lists of more than 200 domain-specific words, reproducible practice pages, game templates, a student dictionary, and an answer key. Additionally, a full set of vocabulary flash cards is available online. The Academic Vocabulary Practice series for kindergarten through grade 5 supports literacy in the content areas of language arts, math, science, social studies, art, and technology. Each book offers systematic practice and usage of many of the academic and domain-specific words and phrases that students need to know to successfully complete work at grade level. There is also a Games and Suggestion section and game templates for small or whole group activities! The Student Dictionary pages are organized by content area and support the activity pages in each section.

One of the most-used and best-loved study companions to the Big Book, Alcoholics Anonymous, this little book has yielded a huge following, having helped millions put the Twelve Steps to work in their daily lives.

Originally designed as a collection of Twelve Step suggestions for A.A. beginners, The Little Red Book offers those new to recovery-and those seeking a deeper meaning in the Twelve Steps--advice on program work, sponsorship, spirituality, and much more.

This fund of knowledge offers support, encouragement, and wisdom in the search for peace and contented sobriety.

Reinforce understanding throughout the course with clear topic summaries and sample questions and answers to help students target higher grades. Written by experienced teacher and subject expert Christine Brain, our Student Guides are divided into two key sections - content guidance, and sample questions and answers. Content guidance will: - - Develop understanding of key concepts and terminology; this guide covers foundations in psychology: social psychology, cognitive psychology, biological psychology and learning theories. - - Consolidate knowledge with 'knowledge check questions' at the end of each topic and answers in the back of the book. Sample questions and answers will: - - Build understanding of the different question types, so that students can approach each question with confidence. - - Enable students to target top grades in Paper 1 with sample answers and commentary explaining exactly why
