*Ninth Street Women* Dec 17 2022 Five women revolutionize the modern art world in postwar America in this "gratifying, generous, and lush" true story from a National Book Award and Pulitzer Prize

finalist (Jennifer Szalai, *New York Times*). Set amid the most turbulent social and political period of modern times, *Ninth Street Women* is the impassioned, wild, sometimes tragic, always exhilarating chronicle of five women who dared to enter the male-dominated world of twentieth-century abstract painting -- not as muses but as artists. From their cold-water lofts, where they worked, drank, fought, and loved, these pioneers burst open the door to the art world for themselves and countless others to come. Gutsy and indomitable, Lee Krasner was a hell-raising leader among artists long before she became part of the modern art world's first celebrity couple by marrying Jackson Pollock. Elaine de Kooning, whose brilliant mind and peerless charm made her the emotional center of the New York School, used her work and words to build a bridge between the avant-garde and a public that scorned abstract art as a hoax. Grace Hartigan fearlessly abandoned life as a New Jersey housewife and mother to achieve stardom as one of the boldest painters of her generation. Joan Mitchell, whose notoriously tough exterior shielded a vulnerable artist within, escaped a privileged but emotionally

damaging Chicago childhood to translate her fierce vision into magnificent canvases. And Helen Frankenthaler, the beautiful daughter of a prominent New York family, chose the difficult path of the creative life. Her gamble paid off: At twenty-three she created a work so original it launched a new school of painting. These women changed American art and society, tearing up the prevailing social code and replacing it with a doctrine of liberation. In *Ninth Street Women*, acclaimed author Mary Gabriel tells a remarkable and inspiring story of the power of art and artists in shaping not just postwar America but the future.

### **Ambassador Stephen Krasner's Orienting Principle for Foreign Policy (and Military Management)**

Mar 08 2022 "The principle security threat of the past several centuries -- war between or among major powers -- is gone. Two new types of threats have been introduced into the global security arena. Violent nonstate actors and other indirect political, economic, and social causes of poverty, social exclusion, corruption, terrorism, transnational crime, the global drug problem, and gangs are a few examples of these "new" threats to global security and stability. More and more, national security implies protection -- through a variety of nonmilitary and military ways and means -- of popular interests that add up to well-being. This broadened definition of the contemporary security problem makes the

concept so vague as to render it useless as an analytical tool. The genius of Ambassador Stephen Krasner, however, helps solve the problem. His orienting principle for foreign policy and military management (responsible sovereignty/legitimate governance) focuses on the need to create nation-states capable of legitimate governance and to realize stability, security, and well-being for citizens. This concept has serious implications for the transition and relevance of armed forces and other instruments of power, as well as foreign policy. Thus, we: 1) define the contemporary security dilemma and the larger principle of Krasner's responsible sovereignty; 2) outline the major components of a legitimate governance paradigm; 3) discuss some considerations for foreign policymaking and military management; and, 4) argue that substantially more sophisticated security-stability concepts, policy structures, and decision and policymaking precautions are necessary if the United States is to play more effectively in the security arena now and in the future."-- Publisher's website.

**Defending the National Interest** Jan 30 2024 Stephen Krasner's assumption of a distinction between state and society is the root of his

argument for the superiority of a statist interpretation of American foreign policy. Here he challenges the two dominant and rival interpretations of the relationship between state and society: interest group liberalism and Marxism. He contends that the state is an autonomous entity acting on behalf of the national interest, and that state behavior cannot be explained by group or class interest. On the basis of fifteen case studies drawn from extensive public records and published literature on American raw materials policy in the twentieth-century, Professor Krasner provides empirical substance to the debate about the meaning of the "national interest," the importance of bureaucratic politics, and the influence of business on American foreign policy.

**Between Give And Take** Sep 25 2023 In this volume, Boszormenyi-Nagy and Krasner provide a comprehensive, sharply focused guide to the clinical use of Contextual Therapy (CT) as a therapy rooted in the reality of human relationships. The authors describe a far-reaching trust-based approach to individual freedom and interpersonal fairness that makes possible a remarkably effective system of psychotherapy. *Between Give and Take* clearly delineates four basic dimensions of relational reality: factual pre-determinants, human

psychology, communications and transactions and due consideration or merited trust. It is this last dimension that is the cornerstone of CT. It builds on the realm of the "between" that reshapes human relationships and liberates each relating person for mature living.

*The Microbial Challenge* Apr 28 2021 Microbes play a highly significant role in our daily lives as agents of infectious disease and are a major public health concern. The third edition of *The Microbial Challenge: A Public Health Perspective* addresses this topic and has been extensively revised and updated with the latest data in a fast-paced field. It focuses on human-microbe interactions and considers bacterial, viral, prion, protozoan, fungal and helminthic (worm) diseases. A chapter on beneficial aspects of microbes makes it clear that not all microbes are disease producers and that microbes are necessary for the sustenance of life on Earth. The response of the immune system, concepts of epidemiology, and measures of control from the individual to the international level to thwart potentially life-threatening epidemics are described. Sections on fungi and fungal diseases are new. The third edition includes new and contemporary information on vaccinations, antibiotic resistant microbes, practical disinfection information, virotherapy and emerging diseases. New boxes throughout the text feature items of human interest such as

big and bizarre viruses, probiotics, rats, and synthetic biology. Ancillary instructor and student resources have been updated and expanded including the end of the chapter Self Evaluations. New and Key Features of the Third Edition: -New end-of-chapter questions included in every chapter. -A wealth of new feature boxes add a real-world perspective to the topics at hand. -New data on virotherapy and prions as infectious agents -New and updated statistics and data tables included throughout the text -Includes the latest on emerging and reemerging infectious diseases as major health problems

### **Method Acting**

**Reconsidered** May 02 2024 Method Acting is one of the most popular and controversial approaches to acting in the United States. It has not only shaped important schools of acting, but has been a fundamental constant of all American acting. This insightful volume explores Method Acting from a broad perspective, focusing on a point of equilibrium between the principles of the Method and its relationship to other theories of performance. David Krasner has gathered together some of the most well-known theater scholars and acting teachers to look at the Method. By concentrating on three areas of the Method - its theory, practice, and future application - the collection will serve to inform and teach us how to approach acting and acting theory in the 21st century.

### Case Studies in Behavior

Modification Jun 30 2021 *Staging Philosophy* Sep 13 2022 The fifteen original essays in *Staging Philosophy* make useful connections between the discipline of philosophy and the fields of theater and performance and use these insights to develop new theories about theater. Each of the contributors—leading scholars in the fields of performance and philosophy—breaks new ground, presents new arguments, and offers new theories that will pave the way for future scholarship. *Staging Philosophy* raises issues of critical importance by providing case studies of various philosophical movements and schools of thought, including aesthetics, analytic philosophy,

phenomenology, deconstruction, critical realism, and cognitive science. The essays, which are organized into three sections—history and method, presence, and reception—take up fundamental issues such as spectatorship, empathy, ethics, theater as literature, and the essence of live performance. While some essays challenge assertions made by critics and historians of theater and performance, others analyze the assumptions of manifestos that prescribe how practitioners should go about creating texts and performances. The first book to bridge the disciplines of theater and philosophy, *Staging Philosophy* will provoke, stimulate, engage, and ultimately bring theater to the foreground of intellectual inquiry while it inspires further philosophical investigation into theater and performance. David Krasner is Associate Professor of Theater Studies, African American Studies, and English at Yale University. His books include *A Beautiful Pageant: African American Theatre, Drama, and Performance in the Harlem Renaissance, 1910-1920* and *Renaissance, Parody, and Double Consciousness in African American Theatre, 1895-1910*. He is co-editor of the series *Theater: Theory/Text/Performance*. David Z. Saltz is Professor of Theatre Studies and Head of the Department of Theatre and Film Studies at the University of Georgia. He is coeditor of *Theater Journal* and is the principal investigator of the

**Three Artists (three Women)** Nov 27 2023 Art historian Wagner looks at the imagery and careers of three important figures in the history of twentieth-century art: Eva Hesse, Lee Krasner, and Georgia O'Keeffe, relating their work to three decisive moments in the history of American modernism: the avant-garde of the 1920s, the

New York School of the 1940s and 1950s, and the modernist redefinition undertaken in the 1960s. Their artistic contributions were invaluable, Wagner demonstrates, as well as hard-won. She also shows that the fact that these artists were women--the main element linking the three--is as much the index of difference among their art and experience as it is a passkey to what they share.-- From publisher description.

*How to Make Love to a Despot: An Alternative Foreign Policy for the Twenty-First Century* Jul 24 2023 After generations of foreign policy failures, the United States can finally try to make the world safer—not by relying on utopian goals but by working pragmatically with nondemocracies. Since the end of the Second World War, the United States has sunk hundreds of billions of dollars into foreign economies in the hope that its investments would help remake the world in its own image—or, at the very least, make the world “safe for democracy.” So far, the returns have been disappointing, to say the least. Pushing for fair and free elections in undemocratic countries has added to the casualty count, rather than taken away from it, and trying to eliminate corruption entirely has precluded the elimination of some of the worst forms of

corruption. In the Middle East, for example, post-9/11 interventionist campaigns in Afghanistan and Iraq have proved to be long, costly, and, worst of all, ineffective.

Witnessing the failure of the utopian vision of a world full of market-oriented democracies, many observers, both on the right and the left, have begun to embrace a dystopian vision in which the United States can do nothing and save no one. Accordingly, calls to halt all assistance in undemocratic countries have grown louder. But, as Stephen D. Krasner explains, this cannot be an option: weak and poorly governed states pose a threat to our stability. In the era of nuclear weapons and biological warfare, ignoring troubled countries puts millions of American lives at risk. “The greatest challenge for the United States now,” Krasner writes, “is to identify a set of policies that lie between the utopian vision that all countries can be like the United States . . . and the dystopian view that nothing can be done.” He prescribes a pragmatic new course of policy. Drawing on decades of research, he makes the case for “good enough governance”—governance that aims for better security, better health, limited economic growth, and some protection of human rights. To this end, Krasner proposes working with despots to promote growth. In a world where a single terrorist can kill thousands or even hundreds of thousands of people, the United States does not have the luxury of idealistically ignoring the rest

of the world. But it cannot remake the world in its own image either. Instead, it must learn how to make love to despots.

Sovereignty Apr 01 2024 The acceptance of human rights and minority rights, the increasing role of international financial institutions, and globalization have led many observers to question the continued viability of the sovereign state. Here a leading expert challenges this conclusion. Stephen Krasner contends that states have never been as sovereign as some have supposed. Throughout history, rulers have been motivated by a desire to stay in power, not by some abstract adherence to international principles. Organized hypocrisy--the presence of longstanding norms that are frequently violated--has been an enduring attribute of international relations. Political leaders have usually but not always honored international legal sovereignty, the principle that international recognition should be accorded only to juridically independent sovereign states, while treating Westphalian sovereignty, the principle that states have the right to exclude external authority from their own territory, in a much more provisional way. In some instances violations of the principles of sovereignty have been coercive, as in the imposition of minority rights on newly created states after the First World War or the successor states of Yugoslavia after 1990; at other times cooperative, as in the European

Human Rights regime or conditionality agreements with the International Monetary Fund. The author looks at various issues areas to make his argument: minority rights, human rights, sovereign lending, and state creation in the nineteenth and twentieth centuries. Differences in national power and interests, he concludes, not international norms, continue to be the most powerful explanation for the behavior of states.

**Lee Krasner: Collage Paintings 1938-1981** Mar 27 2021 This fully-illustrated catalogue features 14 color plates as well as newly commissioned texts by author and essayist Siri Hustvedt and art historian Saskia Flower. The catalogue provides original insights into Krasner's fierce and tireless self-examination. This practice, which compelled the artist to destroy previous works and reconstitute their elements into new compositions, resulted in some of the artist's most conceptual and emotionally-charged works.

**Methods of Research in Psychotherapy** Oct 15 2022 The prospective reader may well ask about the particular merits of this volume, especially in view of several dozen similar offerings, each with its own excellences, and of the easy availability of symposia, conferences, conventional reviews, abstract journals, and serial research reports. In spite of such other attractions, it seems to me that these 34 essays are among the most informative and stimulating which are now

available in the areas covered. The editors have been successful in attracting new articles from many of the most prominent investigators now actively working at research in psychotherapy, who can therefore speak for themselves about what they are doing. Several of the articles have been in the preparatory stage for numerous years. Not only do they represent the vanguard of research, but because of the introduction of relatively new concepts in communication theory in the clinical setting which can be implemented by the new technology (specifically the use of sound-films and tape), they probably presage the shape of much that is to come. It is commonplace that the history of a science is closely allied to the history of the tools available. Here we see the concepts, attitudes, and working methods on this frontier being set forth frankly and concretely in ways which avoid many of the deficiencies and evasions of previous clinical research.

*Lee Krasner* Feb 24 2021 This is a complete reappraisal of Lee Krasner (1908-1984), who, along with her husband, Jackson Pollock, was among the artists who launched the New York School of painting after World War II. One of the few critically recognized female Abstract Expressionists of her generation, she has emerged as an essential figure in postwar American art. This lavishly illustrated book, the companion to a major traveling exhibition, takes a fresh look at Krasner and highlights the striking originality and complexity of her work. Krasner saw her art as an open-ended exploration and a dialogue with a wide range of artistic, literary, and cultural voices. Complete with never-before-published excerpts from the diary of writer B. H. Friedman, a longtime associate of Krasner's who provides priceless insights into this pivotal period of American history, this book is essential for any art library. This book and the exhibition it accompanies were developed by Independent Curators International (ICI), a non-profit organization, that creates innovative, provocative traveling exhibitions of contemporary art that have been presented in museums and university galleries worldwide

*Lee and Me* Jul 12 2022 \* Lee Krasner is one of the major women artists of the 20th century\* This memoir is full of firsthand material based on interviews with Krasner and with her friends, fellow artists, gallerists, and curators\* Often seen in her role as Pollock's companion and then widow, Krasner made important contributions to the development of American Abstract Expressionism Angry, outrageous, defiant, and courageous are some of the words that describe the American Abstract Expressionist artist Lee Krasner (1908-1984) - the subject of this very personal memoir inspired by Ruth Appelhof's 1974 summer with her in East Hampton, Long Island. Best remembered by many as Jackson Pollock's widow, she is regarded more by 'art-world insiders' as the producer of a major body of work that influenced the evolution of contemporary art - in particular, that made by women in the 20th and 21st centuries. As a scholar and a

friend, Appelhof re-examines Krasner's contributions in light of the intellectual and emotional experiences that she so candidly shared with her in weeks of interviews. In addition, Appelhof explores Lee Krasner's relationships with others - friends, art-world luminaries, artists, and other 'summer sitters' allowed into her private sanctuary - through interviews. Those recollections will offer a window into the artist's intense and idiosyncratic personal life as well as into her contributions through the groundbreaking work she produced over the course of more than six decades. Published to accompany the Lee Krasner Retrospective at the Barbican Art Gallery, London, from Thursday 30 May-Sunday 1 September 2019, and at Schirn Kunsthalle, Frankfurt, from Thursday 10 October 2019-Sunday 12 January 2020, and at Zentrum Paul Klee, Bern, from Friday 7 February-Sunday 10 May 2020, and at the Guggenheim Bilbao, from Friday 29 May-Sunday 6 September 2020.

*Spirituality and Alternativity in Contemporary Japan* May 29 2021 This book critically analyses the creation and effects of spirituality as both discourse and practice in Japan. It shows how the value of spirituality has been sustained by scholars who have wished for a more civic role for religion; by the publishing industry whose exponential growth in the 1980s fashioned those who later identified as the representatives of this "new spirituality culture"; by

“spiritual therapists” who have sought to eke out a livelihood in an increasingly professionalized and regulated therapeutic field; and by the cruel optimism of an increasingly precarious workforce placing its hopes in the imagined alternative that the supirichuaru represents. Ioannis Gaitanidis offers a new transdisciplinary conceptualisation of 'alternativity' that can be applied across and beyond the disciplines of religious studies, media studies, popular culture studies and the anthropology/sociology of medicine.

**Out of Place** Sep 01 2021

Broad in scope, *Out of Place: Artists, Pedagogy, and Purpose* presents an overview of the different paths taken by artists and artist collectives as they navigate their way from formative experiences into pedagogy. Focusing on the realms in- and outside the academy (the places and persons involved in post-secondary education) and the multiple forms and functions of pedagogy (practices of learning and instruction), the contributions in this volume engage individual and collective artistic practices as they adapt to meet the factors and historical conditions of the people and communities they serve through solidarity, equity, and creativity. With this critically, historicist approach in mind, the contributions in *Out of Place* historicize, study, critique, revise, reframe, and question the academy, its operations and exclusions. The extensive range of

contributions, emphasizing community-oriented projects both inside and outside the United States, is grouped into three overarching categories: artists who work in academic institutions but whose social and pedagogical engagement extends beyond the walls of the academy; artists who engage in pedagogical initiatives or forms of institutional critique that were established outside of an art school or university setting; and artist-scholars who are doing transformative and inter/transdisciplinary work within their respective institutions. Collectives and projects represented in *Out of Place* comprise Art Practical, Axis Lab, BFAMFAPhD, Beta-Local, Black Lunch Table Project, The Black School, The Center for Undisciplined Research, Devening Projects, ds4si, Elsewhere, Ghana ThinkTank, Gudskul, The Icebox Project Space, Las Hermanas Iglesias, The Laundromat Project, Occupy Museums, Peebls, PlantBot Genetics, Queer Conversations on Culture and the Arts, Related Tactics, Side by Side, 'sindikit, Sustainable Native Communities Collaborative, and Tiger Strikes Asteriod.

*Jackson Pollock and Lee Krasner* Aug 13 2022 For more than a decade, Jackson Pollock and Lee Krasner devoted their lives to each other, serving in turn as muse, critic, companion, lover, friend and alter ego. Their romance was stormy - their raucous arguments are the stuff of legend - but their talents were prodigious. This book is packed with examples of the

contributions both artists made to the world of modern art. Readers will learn how Pollock and Krasners artistry evolved and how they influenced each others success. Recent developments, such as a revealing biopic and the art worlds elevation of Pollock to the status of being the most expensive artist in the world, bring their portrait fully up-to-date. While the author acknowledges historys sensationalisation of their lives, it is the paintings themselves - revolutionary, innovative and daring - that tell the most compelling story.
