*The Arts of the Mamluks in Egypt and Syria* Doris Behrens-Abouseif,2012 Based on the conference The Arts of the Mamluks in Egypt and Syria held at SOAS in 2009 Nazi Juggernaut in the Basque Country and Catalonia Xabier Irujo,2019-07-07 The Bombing of Gernika Xabier Irujo,2021-04-26 The episode of Guernica with all that it represents both in the military and the moral order seems destined to pass into History as a symbol A symbol of many things but chiefly of that capacity for falsehood possessed by the new Machiavellism which threatens destruction to all the ethical hypotheses of civilization A clear example of the use which can be made of untruth to degrade the minds of those whom one wishes to convince Foreign Wings over the Basque Country 1937 Just after 4 p m aeroplanes threw nine bombs in the centre of the town We were looking after the wounded when more aeroplanes appeared which began to drop all kinds of bombs incendiary and explosive The wild beasts who piloted those aeroplanes whenever they saw in the streets or outside the town a human figure turned their machine guns on it sowing terror and death and killing not a few among whom were women children and old people Such was the tragedy of Guernica the truth of which I Mayor of Guernica affirm before the whole world Guernica has been burnt but Guernica will not die The tree will put out new green leaves every spring her sons will return to her once more once more her houses will be rebuilt her churches hear again their hymns and prayers and happy life abound in her streets Guernica the symbol of our national liberties and the symbol too of the ferocity of international Fascism cannot die for Euzkadi will not die Jose Labauria Mayor of Gernika Samuel Mockbee and the Rural Studio Samuel Mockbee,2003 The architect and teacher Samuel Mockbee founder of Auburn University s Rural Studio was an idealist who put into action one of the boldest programs in contemporary architecture Mockbee led his students in the design and construction of homes community centers and other essential structures in Hale County Alabama one of the poorest counties in the United States Mockbee believed that architecture could play a determining role in combating the brutalities of poverty He inspired students to create vanguard designs and utilize an array of innovative cost effective building materials that included scraps of carpet baled into rectangular building blocks This combination of ingenuity and enterprise informed the unique character of Mockbee s undertaking Samuel Mockbee and the Rural Studio appraises Mockbee s unique contribution assessing how he believed that architecture practiced as a community oriented undertaking could transform the social environment **Mall Maker** M. Jeffrey Hardwick,2015-08-18 The shopping mall is both the most visible and the most contentious symbol of American prosperity Despite their convenience malls are routinely criticized for representing much that is wrong in America sprawl conspicuous consumption the loss of regional character and the decline of Mom and Pop stores So ubiquitous are malls that most people would be surprised to learn that they are the brainchild of a single person architect Victor Gruen An immigrant from Austria who fled the Nazis in 1938 Gruen based his idea for the mall on an idealized America the dream of

concentrated shops that would benefit the businessperson as well as the consumer and that would foster a sense of shared community Modernist Philip Johnson applauded Gruen for creating a true civic art and architecture that enriched Americans daily lives and for decades he received praise from luminaries such as Lewis Mumford Winthrop Rockefeller and Lady Bird Johnson Yet in the end Gruen returned to Europe thoroughly disillusioned with his American dream In *Mall Maker* the first biography of this visionary spirit M Jeffrey Hardwick relates Gruen's successes and failures his work at the 1939 World's Fair his makeover of New York's Fifth Avenue boutiques his rejected plans for reworking entire communities such as Fort Worth Texas and his crowning achievement the enclosed shopping mall Throughout Hardwick illuminates the dramatic shifts in American culture during the mid twentieth century notably the rise of suburbia and automobiles the death of downtown and the effect these changes had on American life Gruen championed the redesign of suburbs and cities through giant shopping malls earnestly believing that he was promoting an American ideal the ability to build a community Yet as malls began covering the landscape and downtowns became more depressed Gruen became painfully aware that his dream of overcoming social problems through architecture and commerce was slipping away By the tumultuous year of 1968 it had disappeared Victor Gruen made America depend upon its shopping malls While they did not provide an invigorated sense of community as he had hoped they are enduring monuments to the lure of consumer culture *Renaissance of Islam* Esin Atıl, 1981
