"We are all energy; energy creates consciousness. Right now, you are conscious energy manifested in physical form. The physical body is able to learn to release that energy to venture into other realms. This book will guide you through seven of the astral realms"-- "Specific instructions on how to dream lucidly and consciously leave one's body. Describes various methods of achieving the out-of-body state and what to do once there"--Provided by publisher. Astral travel-what is it and how does it fit in our lives? Eby explains the differences and similarities between astral projection, out-of-body experiences (OBEs), ordinary dreams, creative inspiration, mental projection, and clairvoyance. With OBEs defined and placed in the context of consciousness continuum, these various states of awareness can provide entryways to alternate realities. Astral Odyssey guides us through the pathways of consciousness that lead to the invisible worlds around us, giving step-by-step procedures on how to do actual, voluntary, conscious astral projection. But Eby does more than just teach astral travel--she provides instructions for attaining all the necessary states of consciousness, tells how each may be used to derive valuable benefits in daily life, such as improved psychological balance, solutions to problems, increased creativity, and enhanced powers of extrasensory perception. Included are never-before-published examples of OBEs and an OBE diary that describes, in vivid detail, the sights, sounds, sensations, and thoughts associated with actual visits to the astral plane. We discover that astral travel allows a new perspective of both the universe and the role that human experience plays in it. With this first-hand knowledge of the existence of nonphysical worlds and their entities, physical life can become more meaningful, creative, and joyful! By C. W. Leadbeater delves deep into the mystical realms of the astral plane, exploring its various facets, inhabitants, and phenomena. Drawing from Theosophical teachings,

Leadbeater provides readers with a comprehensive guide to this ethereal dimension. His detailed descriptions of the astral world, combined with his insights into spiritual practices, make this a must-read for those interested in esoteric knowledge and spiritual exploration. The second book from G. Travels, "Resisting Astral Attack" is a guide to recognizing and resisting attacks made by hostile entities from the astral planes. Complete with theory and practical guidelines—"Resisting Astral Attack" teaches the student to draw on innate abilities and forgotten skills, and to raise the power needed to defeat the evil influences that lurk within the depths of the astral worlds... 'Suppose you have seen an event, have formed an idea about it, and you say something that is not true – in other words, something that is a lie. Then what flows from the object is correct and what flows from you is false and this collision is a terrible explosion; and each time you do this, you attach a gruesome being to your karma which you cannot get rid of again until you have made good what you lied about.' – Rudolf Steiner

In a previously-untranslated volume of lectures, Rudolf Steiner presents shattering insights regarding the interaction of human and spiritual beings. He speaks, for example, about how perfumes can give certain spirits access to people on earth, or how phantoms, spectres and demons can be created through human deficiencies – or even how the arts of architecture, sculpture, painting and music allow 'good' or 'hideous' entities to enter our world. As he states: 'Learning about the effects of spiritual beings is of much greater help than moral preaching. A future humanity will know what it is creating through lies, hypocrisy and slander.' The lectures are divided into two broad thematic groups: the first relating to the inner path of knowledge and its relation to the yearly festivals, and the second focusing on the work of elemental beings in our everyday world. The 18 lectures are complemented with notes, an index and an introduction by Christian von Arnim. According to Theosophy, the generally prevailing idea that man is a body and has a soul should be reversed. The physical body, it is maintained, is not the real man, and to regard it so is equivalent to mistaking a house for the one who dwells within it. Man—the true man—is the monad, a fragment of divinity, a spark of the divine flame. In the well known Biblical story, when Jesus had driven the money-changers out of the temple, he said to those who questioned him, "Destroy this temple, and in three days I will raise it up..." But he spoke of the temple of his body. Jesus spoke from that lofty state of awareness toward which, says Theosophy, we all move: The Christ-consciousness which knows the body as but a vehicle. The seed of all power, all wisdom, and all goodness is encased in the shell of the body awaiting fruition, and man, in the course of his evolution, has to unfold its latent potentialities. The astral projection is a unique way of living great adventures without moving from your bed (or your chair)...This phenomenon is known as astral travel, but it doesn't imply any "movement" in the physical sense of the word. In fact, the astral projection (or astral travel) is a temporary separation of your astral body from your physical body. It is a transfer from a physical plane to an astral plane. But WHO travels, if it's not the physical body? Let's take a look at the "subtle" composition of a human being: just like the universe is made up of different planes, or levels (the physical plane, the astral plane, etc.), every human being is made up of several bodies that form a layered structure. Different layers surround the physical body in the following order: - the physical body- the etheric body- the astral body- the mental body- the causal body- the Buddhist body (or supra mental)- the divine body (or atmic body) When we make the decision to astral project, it is of course the astral body that "travels" alone, leaving the physical body behind. This is why the phenomenon is also known as "out of body" experience. You might want to know that the astral entities that you come across during your journey are not "auras," as some people think: they are the astral bodies of different (living or deceased) beings. They can be human beings or animals for that matter. ****Do you find this intriguing but also a little worrying? Well, you are not the only one. I don't think any astral traveler could claim they never felt the slightest apprehension... ***The first fear everyone faces is not being able to "return" to one's physical body. Making bad encounters is also a major concern to most people. Although in theory accidents may happen, this book will show you that in reality, if you follow the proper techniques, it is impossible for these unwanted events to occur during your astral projection. If you feel an apprehension, don't try to deny it: it's a natural reaction. But mastering a few safe techniques will make the fear disappear, just as naturally as it appeared. The purpose of this book is to teach you the right methods for safely undertaking out-of-body experiences. It's a guide to traveling in the astral plane in a completely safe way, even if you have NEVER tried it before. - You will learn how to start an astral projection without having any prior experience (it's quite possible for a total beginner to embark on this new adventure. However, don't take things too lightly. You don't start an astral projection as easily as you start a car ...) - You will learn the easiest and fastest projecting techniques, but you will also be warned about those you must avoid if you are tired or under pressure (at the end of a stressful day for example). - You will read about the possible encounters in the astral realm, how to deal with them and how to make sure that nothing and no-one can ever disturb you. - Most importantly, you will learn everything about the unknown benefits of astral projection, what they are and how you can empower yourself and literally improve your everyday life using this extraordinary experience. *** This is the english version of one of Richard Armand's best selling ebooks (he is a French author, his books on astral traveling and extrasensory phenomena have been a great success in France in the past years) ** Master of modern occultism, Lon Milo DuQuette, (author of Enochian Vision Magick and The Magick of Aleister Crowley) introduces the newest Weiser Books Collection – The Magical Antiquarian Curiosity Shoppe. Culled from material long unavailable to the general public, DuQuette curates this essential new digital library with the eye of a scholar and the insight of an initiate. Almost everyone has had dreams of flying or falling. It's a common and universal experience. For centuries mystics have maintained that such dreams are more than dreams. They referred to this 'dream' environment the Astral World and the experience, Astral Projection. There is perhaps no aspect of magick and mysticism that is more fascinating and important than these out of body experiences (OBEs), and one of the finest introductions to this amazing subject is Swami Panchadasī's (William Walker Atkinson) classic, "The Astral World". Offers meditations on our relationship with God through prayer and tells how to find consolation, express thankfulness, and apprehend the presence of the Lord A great deal is happening all the time in world evolution; and it falls to human beings, particularly those of our own time, to acquire real understanding of the world events in which they are involved. In this popular lecture Rudolf Steiner reveals that the angels - the spirits closest to human beings - are seeking to create images in human astral bodies. These images are given with the intention of bringing about 'definite conditions in the social life of the future' related to brotherhood, religious freedom, and conscious spirituality. Other spiritual beings, however, are working against the angels. If, as a consequence of their disruption, humanity sleeps through the angels' spiritual revelation, the consequences will be dire, and aberrations connected to sexuality, the misuse of medicine, and the misapplication of mechanical forces will begin to manifest. Reference to the astral plane, or Kâmaloka as it is called in Sanskrit, has frequently been made by Theosophical writers, and a good deal of information on the subject of this realm of nature is to be found scattered here and there in our books; but there is not, so far as I am aware, any single volume to which one can turn for a complete summary of the facts at present known to us about this interesting region. The object of this manual is to collect and make some attempt to arrange this scattered information, and also to supplement it slightly in cases where new facts have come to our knowledge. It must be understood that any such additions are only the result of the investigations of a few explorers, and must not, therefore, be taken as in any way authoritative, but are given simply for what they are worth. On the other hand every precaution in our power has been taken to ensure accuracy, no fact, old or new, being admitted to this manual unless it has been confirmed by the testimony of at least two independent trained investigators among ourselves, and has also been passed as correct by older students whose knowledge on these points is necessarily much greater than ours. It is hoped, therefore, that this account of the astral plane, though it cannot be considered as quite complete, may yet be found reliable as far as it goes. "Entities Among Us" assists people consciously seeking spiritual enlightenment to become aware of the subtle, intruding, detrimental energies generated by situations, people, places, and the astral plane. The Practical Guide to Astral Projection by Denning and Phillips is simply the best step-by-step set of lessons for learning this skill ever published. Over a quarter-million people are using this book to help them learn this valuable skill. If you want to learn how to project your consciousness onto the astral plane, you should use it, too. First, as the book shows, this skill is natural. You do it all the time (in dreams, for example.) In a sense, it is more natural than walking. It is a skill you can develop with practice. Further, it allows you to have spiritual experiences on the astral plane. Plus, what you create on the astral plane creates changes on the physical plane. This is true magick! Heal someone on the astral and they will be healed on the physical. Create opportunities on the astral and you will have them on the physical. You can even experience sex on the astral plane for one of the most dynamic experiences you will ever have. And you can learn how to do all of this in The Practical Guide to Astral Projection. But it is not only the information in this book that makes it easy to understand and use. The very design of each chapter--as well as the illustrations, photos, charts, etc.--make it easy for you to learn the techniques to consciously control your astral projection experiences. The book begins by showing you what astral projection is and what it is not, what can happen and what is fantasy. As a result, you will discover that astral projection can be safe, comforting, exhilarating, and fun. Then you will learn methods of being able to let your consciousness leave your body and safely explore the astral plane. With this book in hand you can explore realms you've only dreamed of. Make your dreams a reality. Liberate the full potential of your spiritual consciousness with this accessible A-to-Z guide to Lucid Dreaming, Astral Projection, and the Body of Light. Between the Gates is a manual of self-initiation and liberation that takes readers through the basic methods of experiencing dream states and conscious astral projection. Through these practices, readers embark on the path to the ultimate culmination of consciousness—creation of the Body of Light. Between the Gates is for anyone who has ever desired to experience the “afterlife” while still alive, or who has desired to rid themselves of the fear of death. While drawing upon traditional Qabalistic and alchemical sources, the methods presented are applicable to a variety of traditions and schools of thought. Between the Gates functions as an “A to Z” guide to

psychic initiation toward higher consciousness, and ultimately, to preparation for the great transition beyond this life and this physical body. Anderson, the renowned poet and founder of the Feri (Faery) Tradition, was one of the last Kahuna. Etheric Anatomy collects rare writings by Victor and his wife, Cora, which demystify etheric sight, astral sex, and Feri prayers and chants (including the Ha Prayer and the Flower Prayer) for aligning the three souls and contacting the God Self.
