This book is directed towards post-graduates who have passed Part I of the examination for Membership of the Royal College of Physicians and are preparing for Part II. However, it is hoped that physicians at all stages of their careers will find some parts that interest them. Most of the material has appeared in the Hospital Update series, 'Preparation for MRCP', but this has been modified and expanded; many useful points arising from correspondence relating to the series have been included, and the authors would like to express their thanks to those who have written. It is not intended that this should be used as a work of reference, although there is detailed discussion of some subjects. Only the written part of the examination is dealt with in detail, but the introduction contains hints on tackling the clinical sections which the authors hope the

candidates will find valuable. There is, however, no substitute for clinical practice under supervision. The questions in VII PREFACE the written section of the examination require short answers so that marking may be easy and objective. This book contains questions similar to those that may be encountered in the examination, but the answers have been expanded as a basis for discussion. It is hoped that this will encourage the candidate to read around the subjects covered, and the authors recommend that the questions are used as a basis for group discussion, as answers other than those in the text may be considered. This book is based on the conviction that the Bible is God's inerrant word given for all humankind, and that it presents the framework of a total life-and-world view. Its doctrine and its ethical principles are relevant to the social and moral issues of all times. The author contends that until we learn to use the Bible and apply it to such problems as capital punishment, genetic

engineering, homosexuality, and labor strikes, we will be at the mercy of today's humanistic value-shapers and our own uninformed feelings.
