He tells a story of***

***development in four parts—colonialism, developmentalism, globalization, and sustainability—that shows how the global development "project" has taken different forms from one historical period to the next. Throughout the text, the underlying conceptual framework is that development is a political construct, created by dominant actors (states, multilateral institutions, corporations and economic coalitions) and based on unequal power arrangements. While rooted in ideas about progress and prosperity, development also produces crises that threaten the health and well-being of millions of people, and sparks organized resistance to its goals and policies. Frequent case studies make the intricacies of globalization concrete, meaningful, and clear. ***Introduction to Counseling Jun 11 2023***

***Introduction to Counseling by Michael Scott Nystul provides an overview of counseling and the helping professions from the perspective of art and science—the science of counseling that generates a knowledge base proven to promote competency and efficacy in the practitioner, and the art of using this knowledge base to build skills that can be applied sensitively to clients in a multicultural society. The Fifth Edition has been organized into three sections: (1) an overview of counseling and the counseling process, (2) multicultural counseling and counseling theories, and (3) special approaches and settings. It continues to address key topics and issues, including gender, culture, and sexual orientation, and offers ways to integrate multiculturalism into all aspects of counseling, rather than view it as a separate entity. Highlighting emerging trends and changes in ethical codes, as well as reflecting the latest updates to the Diagnostic Statistical Manual (DSM-5), the book successfully illustrates the importance of art and science to modern-day counseling.***
