He lives in an enormous manor with a massive library that is off-limits to Alice. But then she meets a talking cat. And, even for a rule-follower, when a talking cat sneaks you into a forbidden library and introduces you to an arrogant boy who dares you to open a book, it's hard to resist. Especially if you're a reader to begin with. Soon Alice finds herself INSIDE the book, and the only way out is to defeat the creature imprisoned within. It seems Uncle Geryon is more than he says he is. But then, so is Alice. Loneliness is increasingly recognized as a major public health crisis that is on the rise and impacting people of all ages. Addressing the crisis of loneliness from a fresh perspective, this book introduces belonging as an overlooked but critical aspect of a flourishing Christian life. Eric Jacobsen shows how three pieces of glass--the car windshield, TV, and smartphone--are emblematic of significant societal shifts that have created a cultural habit of physical isolation. We feel increasingly disconnected from the people and places around us. Jacobsen explains how adopting everyday practices and making changes in our neighborhoods can help us create a sense of belonging and rediscover what belonging in a place looks like. In order to effectively solve the problem of loneliness, we need to recover patterns and practices of community life that encourage us to form meaningful connections with people and stories that are part of the places where we live, work, and worship. To this end, Jacobsen offers four redemptive strategies for living a more intentional and spiritual life. The Hunger Games meets The Twilight Saga in this new dystopian romance

The resulting blast flattened two towns, Halifax and Dartmouth, and killed nearly 2,000 people. As if that wasn't devastating enough, a blizzard hit the next day, dumping more than a foot of snow on the area and paralyzing much-needed relief efforts. When you're the new white kid in an Oklahoma town hemorrhaging with racial and class divisions, accidentally taking the wallet from a dead black man isn't a simple matter for the police. James embarks on a tortuous journey to navigate tensions in the town while trying to correct the mistake he never should have made. His efforts are hampered by his inability to understand racial prejudice and by those who refuse to let him cross entrenched racial and class barriers. When James's only friend his age, an African-American girl, is targeted by both the white and the black kids, James discovers that his greatest weakness and his greatest strength is that he is color blind. A writer investigates her family's secret history, uncovering a story that spans a century, two World Wars, and three generations. Hadley Freeman knew her grandmother Sara lived in France just as Hitler started to gain power, but rarely did anyone in her family talk about it. Long after her grandmother's death, she found a shoebox tucked in the closet containing photographs of her grandmother with a mysterious stranger, a cryptic telegram from the Red Cross, and a drawing signed by

Picasso. This discovery sent Freeman on a decade-long quest to uncover the significance of these keepsakes, taking her from Picasso's archives in Paris to a secret room in a farmhouse in Auvergne to Long Island to Auschwitz. Freeman pieces together the puzzle of her family's past, discovering more about the lives of her grandmother and her three brothers, Jacques, Henri, and Alex. Their stories sometimes typical, sometimes astonishing—reveal the broad range of experiences of Eastern European Jews during Holocaust. This thrilling family saga is filled with extraordinary twists, vivid characters, and famous cameos, illuminating the Jewish and immigrant experience in the World War II era. Addressing themes of assimilation, identity, and home, this powerful story about the past echoes issues that remain relevant today. A story about difference, exclusion, experience, and ultimately the embrace of one's core self, *Child of Glass* explores the interplay between inner and outer and the journey we have to go on to be at home within ourselves. Seamlessly blending history with myth, *HOUSE OF GLASS HEARTS* follows a Pakistani-American teen's ruthless quest to find her missing sibling, even if the truth would reveal her grandfather's devastating secret and tear her family apart. "The author makes an eloquent plea for marine biodiversity conservation."—*Library Journal* "Harvell seems to channel the devotion that motivated the Blaschkas."—*The Guardian* Winner of the 2016 National Outdoor Book Award, Environment Category It started with a glass octopus. Dusty, broken, and all but forgotten, it caught Drew Harvell's eye. Fashioned in intricate detail by the father-son glassmaking team of Leopold and Rudolf Blaschka, the octopus belonged to a menagerie of unusual marine creatures that had been packed away for decades in a storage unit. More than 150 years earlier, the Blaschkas had been captivated by marine invertebrates and spun their likenesses into glass, documenting the life of oceans untouched by climate change and human impacts. Inspired by the Blaschkas' uncanny replicas, Harvell set out in search of their living counterparts. In *A Sea of Glass*, she recounts this journey of a lifetime, taking readers along as she dives beneath the ocean's surface to a rarely seen world, revealing the surprising and unusual biology of some of the most ancient animals on the tree of life. On the way, we glimpse a century of

change in our ocean ecosystems and learn which of the living matches for the Blaschkas' creations are, indeed, as fragile as glass. Drew Harvell and the Blaschka menagerie are the subjects of the documentary *Fragile Legacy*, which won the Best Short Film award at the 2015 Blue Ocean Film Festival & Conservation Summit. Learn more about the film and check out the trailer here. Glass production is thought to date to ~2500 BC and had found numerous uses by the height of the Roman Empire. Yet the modern view of glass-based chemical apparatus (beakers, flasks, stills, etc.) was quite limited due to a lack of glass durability under rapid temperature changes and chemical attack. This "brief" gives an overview of the history and chemistry of glass technology from its origins in antiquity to its dramatic expansion in the 13th century, concluding with its impact on society in general, particularly its effect on chemical practices. A hugely commercial, fabulously addictive fantastical romp - from an author with top-notch digital self-publishing pedigree and legions of fans awaiting publication *Picture, if you can, a world without glass. There would be no microscopes or telescopes, no sciences of microbiology or astronomy. People with poor vision would grope in the shadows, and planes, cars, and even electricity probably wouldn't exist. Artists would draw without the benefit of three-dimensional perspective, and ships would still be steered by what stars navigators could see through the naked eye. In *Glass: A World History*, Alan Macfarlane and Gerry Martin tell the fascinating story of how glass has revolutionized the way we see ourselves and the world around us. Starting ten thousand years ago with its invention in the Near East, Macfarlane and Martin trace the history of glass and its uses from the ancient civilizations of India, China, and Rome through western Europe during the Renaissance, Enlightenment, and*

Industrial Revolution, and finally up to the present day. The authors argue that glass played a key role not just in transforming humanity's relationship with the natural world, but also in the divergent courses of Eastern and Western civilizations. While all the societies that used glass first focused on its beauty in jewelry and other ornaments, and some later made it into bottles and other containers, only western Europeans further developed the use of glass for precise optics, mirrors, and windows. These technological innovations in glass, in turn, provided the foundations for European domination of the world in the several centuries following the Scientific Revolution. Clear, compelling, and quite provocative, *Glass* is an amazing biography of an equally amazing subject, a subject that has been central to every aspect of human history, from art and science to technology and medicine. The first children's book about Dale Chihuly, the world-renowned glass sculptor His crew calls him Maestro. Thousands of fans call him a magician. Authors Jan Greenberg and Sandra Jordan met with Chihuly in his studio for exclusive interviews discussing his early life, his passion for glassblowing, and his dazzling works. Lavishly illustrated with Chihuly's art and family photographs, this book discusses Chihuly's workshop and his glassblowing technique. The book includes a step-by-step look at how blown glass is created, a list of places to see Chihuly's artwork, endnotes, a bibliography, and an index. "[This book] has a bit of everything. . . . It looks good, both visually (large-scale, hard-back, glossy) and in terms of content."—Glass Art Society News Excerpt from *The Drama of Glass* The *Drama of Glass* was an inspiration born in the brain of Kate Field, as she watched the busy workmen, who with trained eyes and skillful hands, wrought out the products of one of America's great industries that found a temporary home in the World's Fair at Chicago. It is an addition to the long list of brilliant writings of this versatile woman, whose literary labors have made her memory so dear to the thousands of Americans who have found in them the reflection of her own individuality. He told her that the brightest stars weren't always the most beautiful—that if people took the time to look at the smaller stars, if they looked with a telescope at the true essence of the star, they would find real beauty. But even though Melissa knows that beauty isn't only skin deep, the people around her don't seem to feel that way. There's her gorgeous sister, Ashley, who will barely acknowledge Melissa at school; there's her best friend, Ryan, who may be falling in love with the sophisticated Courtney; and there's Melissa's mother, who's dating someone new, someone Melissa knows will never be able to replace her father.
