The Moral Imagination John Paul Lederach,2010 John Paul Lederach s work in the field of conciliation and mediation is internationally recognized He has provided consultation training and direct mediation in a range of situations from the Miskito Sandinista conflict in Nicaragua to Somalia Northern Ireland Tajikistan and the Philippines His influential 1997 book Building Peace has become a classic in the discipline In this book Lederach poses the question How do we transcend the cycles of violence that bewitch our human community while still living in them Peacebuilding in his view is both a learned skill and an art Finding this art he says requires a worldview shift Conflict professionals must envision their work as a creative act an exercise of what Lederach terms the moral imagination This imagination must however emerge from and speak to the hard realities of human affairs The peacebuilder must have one foot in what is and one foot beyond what exists The book is organized around four guiding stories that point to the moral imagination but are incomplete Lederach seeks to understand what happened in these individual cases and how they are relevant to large scale change His purpose is not to propose a grand new theory Instead he wishes to stay close to the messiness of real processes and change and to recognize the serendipitous nature of the discoveries and insights that emerge along the way overwhelmed the equally important creative process Like most professional peacemakers Lederach sees his work as a religious vocation Lederach meditates on his own calling and on the spirituality that moves ordinary people to reject violence and seek reconciliation Drawing on his twenty five years of experience in the field he explores the evolution of his understanding of peacebuilding and points the way toward the future of the art http://www.loc.gov/catdir/enhancements/fy0616/2004011794_d.html
