*"As a gathering place for stories from across Penn  
Medicine, the Listening Lab affirms and celebrates*

listening as essential to the work of healing. This book is a compilation of stories recorded for the Listening Lab by patients, caregivers, staff and providers at the front lines of caregiving. These stories have the capacity to change how we address some of healthcare's most pressing challenges around communication and connection. The simple act of listening has the potential to heal broken places within us, and offers a radical possibility for healing to occur within healthcare and society as a whole"-- Prepared by residents and attending physicians at Massachusetts General Hospital for Children, Pocket Pediatrics follows the style of Pocket Medicine, one of the best-selling references for medical students, interns, and residents. This pocket-sized looseleaf can be used on the wards and by candidates reviewing for pediatric board exams. In bulleted lists, tables, and algorithms, Pocket Pediatrics provides key clinical information about common pediatric problems in cardiology, pulmonology, gastroenterology, nephrology, hematology-oncology, infectious diseases, endocrinology, rheumatology, and neurology as well as on the well patient and the patient in the ICU. The six-ring binder resembles the familiar "pocket brain" notebook that most students and interns carry and allows users to add notes. The second edition of the Neurological Physiotherapy Pocketbook is the only book for physiotherapists that provides essential evidence-based information in a unique and easy-to-use format, applicable to clinical settings. Written by new international editors and contributors, this pocketbook provides quick and easy access to essential clinical information. Pocketbook size for when out on clinical placement or working in clinical practice Revised and brand new chapters on neurological rehabilitation and essential components Concentrates on the six most common conditions: including stroke, traumatic brain, and spinal cord injury Key messages highlighted for

assessment, treatment, and measurement of the most common neurological conditions The Washington Manual of Critical Care is a concise pocket manual for physicians and nurses. It is distinguished from the multitude of other critical care handbooks on the market by its consistent presentation of algorithms displaying the decision-making pathways used in evaluating and treating disorders in the ICU. The new edition transitions to a full color format and will include coverage of Deep Venous Thrombosis/Pulmonary Embolism, fetal-maternal critical care, C difficile infection, and alternative hemodynamic monitoring. The dragon's out of the bag in this diverse, young urban fantasy from an award-winning author! When Jaxon is sent to spend the day with a mean old lady his mother calls Ma, he finds out she's not his grandmother--but she is a witch! She needs his help delivering baby dragons to a magical world where they'll be safe. There are two rules when it comes to the dragons: don't let them out of the bag, and don't feed them anything sweet. Before he knows it, Jax and his friends Vikram and Kavita have broken both rules! Will Jax get the baby dragons delivered safe and sound? Or will they be lost in Brooklyn forever? AN ALA-ALSC NOTABLE CHILDREN'S BOOK AN NPR BEST BOOK OF THE YEAR A CHICAGO PUBLIC LIBRARY BEST BOOK OF THE YEAR A KIRKUS REVIEWS BEST BOOK OF THE YEAR The Dragons in a Bag series continues! Don't miss The Dragon Thief, and coming in Spring 2022, The Witch's Apprentice. The United States faces a growing crisis in care. The number of people needing care is growing while the ranks of traditional caregivers have shrunk. The status of care workers is a critical concern. Evelyn Nakano Glenn offers an innovative interpretation of care labor in the United States by tracing the roots of inequity along two interconnected strands: unpaid caring within the family; and slavery, indenture, and other forms of coerced labor. By bringing both into the same analytic

framework, she provides a convincing explanation of the devaluation of care work and the exclusion of both unpaid and paid care workers from critical rights such as minimum wage, retirement benefits, and workers' compensation. Glenn reveals how assumptions about gender, family, home, civilization, and citizenship have shaped the development of care labor and been incorporated into law and social policies. She exposes the underlying systems of control that have resulted in women—especially immigrants and women of color—performing a disproportionate share of caring labor. Finally, she examines strategies for improving the situation of unpaid family caregivers and paid home healthcare workers. This important and timely book illuminates the source of contradictions between American beliefs about the value and importance of caring in a good society and the exploitation and devalued status of those who actually do the caring.

This pocket book contains up-to-date clinical guidelines, based on available published evidence by subject experts, for both inpatient and outpatient care in small hospitals where basic laboratory facilities and essential drugs and inexpensive medicines are available. It is for use by doctors, senior nurses and other senior health workers who are responsible for the care of young children at the first referral level in developing countries. In some settings, these guidelines can be used in the larger health centres where a small number of sick children can be admitted for inpatient care. The *Tarascon Internal Medicine & Critical Care Pocketbook, Fourth Edition* is designed as the ultimate portable reference for the busy Internal Medicine or ICU practitioner. This concise, organized pocket guide is packed with essential lists, figures, tables and algorithms providing instant reminders of hard-to-remember yet vitally important clinical information. An extensive pharmacology section gives fingertip access to

critical drug prescribing information. The newly revised 4th edition contains dozens of new topics and drug listings as well as timely updates for most of the content and references. The Tarascon Internal Medicine & Critical Care Pocketbook, Fourth Edition is meticulously referenced and provides expert commentary on current academic controversies within the field. You will wonder how you ever practiced medicine without it! This best-selling resource provides a general overview and basic information for all adult intensive care units. The material is presented in a brief and quick-access format which allows for topic and exam review. It provides enough detailed and specific information to address most all questions and problems that arise in the ICU. Emphasis on fundamental principles in the text should prove useful for patient care outside the ICU as well. New chapters in this edition include hyperthermia and hypothermia syndromes; infection control in the ICU; and severe airflow obstruction. Sections have been reorganized and consolidated when appropriate to reinforce concepts. Designed for easy transport and quick reference, Pocket Anesthesia, presents essential information that residents, anesthesiologists, CRNAs, and medical students need on the wards and in the operating room. Edited by anesthesia faculty at Harvard Medical School, this pocket-size reference is ideally suited for today's fast-paced anesthesia environment--it is concise, easy to read, and evidence-based. Essential information is presented in a well-organized schematic outline format with many tables, algorithms, and diagrams. The book is filled with must-know facts about drugs, frequent intraoperative problems, differential diagnosis, common disease states, patient evaluation, and anesthetic considerations for each subspecialty. New to the revised, second edition, is the inclusion of ultrasound-guided regional anesthesia procedures. The Tarascon Primary Care Pocketbook, Fourth Edition is a

concise yet comprehensive evidence-based overview of the major conditions seen by primary care physicians. Packed with essential lists, and tables, this resource provides instant reminders of hard-to-remember yet vitally important clinical facts. The updated edition includes major updates in over 50 medical conditions, and new chapters in palliative care, oncological emergencies, HIV infection, outpatient pediatric medications, and more. The Tarascon Primary Care Pocketbook, Fourth Edition is an essential pocket reference for the family physician, internist, student, mid-level provider, and attending physicians who see patients in the ambulatory setting. Prepared by attending physicians at Harvard Medical School, Pocket ICU, follows the style of Pocket Medicine, one of the best-selling references for medical students, interns, and residents. This pocket-sized loose-leaf resource can be used on the wards or in the operating room. Information is presented in a schematic, outline format, with diagrams and tables for quick, easy reference. Content coverage is brief but broad, encompassing all the subspecialty areas of critical care including adult and pediatric critical care, neuro-critical care, cardiac critical care, transplant, burn, and neonatal critical care. The Pocket Book is for use by doctors nurses and other health workers who are responsible for the care of young children at the first level referral hospitals. This second edition is based on evidence from several WHO updated and published clinical guidelines. It is for use in both inpatient and outpatient care in small hospitals with basic laboratory facilities and essential medicines. In some settings these guidelines can be used in any facilities where sick children are admitted for inpatient care. The Pocket Book is one of a series of documents and tools that support the Integrated Managem. Support your clinical decision making and prepare for everyday challenges in the primary care setting with Pocket

*Primary Care, a brand new, pocket-sized loose-leaf resource that offers the most current, evidence-based approaches to delivering quality care in the outpatient setting. Representing the efforts of a dedicated team of primary care and specialist physicians at the Massachusetts General Hospital, this practical resource provides the key clinical data you need to manage your patients effectively and quickly. Gain insights into the most up-to-date evidence-based practices, accepted best practices, and expert opinions of physicians at Massachusetts General Hospital, including appropriate workups and when to refer. Quickly find the the information you need through tabs that make it easy to locate topics of interest. Customize the book to meet your specific needs by inserting your own notes into the 6-ring binder's front and back pockets, leaving out pages you don't need, or adding others to it. Get instant access to key clinical information on the most common issues seen in practice, including preventive medicine, cardiology, dermatology, endocrinology, GI, hematology, infectious disease, musculoskeletal complaints, neurology, ophthalmology, ENT, psychiatry, pulmonary, nephrology, women's health, men's health, and geriatrics. The Tarascon Primary Care Pocketbook, Fifth Edition is a concise yet comprehensive evidence-based overview of the major conditions seen by primary care physicians. Packed with essential lists, and tables, this resource provides instant reminders of hard-to-remember yet vitally important clinical facts. The Tarascon Primary Care Pocketbook, Fifth Edition is an essential pocket reference for the family physician, physician assistant, internist, student, mid-level provider, and attending physicians who see patients in the ambulatory setting. Packed with essential lists, figures, tables, and algorithms, the Tarascon Internal Medicine & Critical Care Pocketbook, Fifth Edition provides instant reminders of hard-to-remember yet*

vital information. The Fifth Edition contains more information and several new topics throughout each chapter, including: Anthropometric Equations; Echo, MRI, and Nuclear Anatomy; ECG ST Elevation (STE) Patterns; Sepsis; Therapeutic Hypothermia; Pharyngeal Swab Technique; NIH Stroke Scale; Bronchoscopic Anatomy; SIADH; Serotonin Syndromes; and more. Intended for busy internal medicine physicians, nurses, or any healthcare provider in the ICU, Tarascon Internal Medicine & Critical Care Pocketbook is meticulously referenced with expert commentary on current academic controversies in the field. Case studies that cover common emergency situations Self-assessment questions which offer the reader verification of their comprehension and clinical reasoning skills A-Z of treatment techniques Appendices including normal values and common drugs used in critical care areas so that essential information is always at hand The Tarascon Hospital Medicine Pocketbook is an evidence-based, point-of-care compact reference book for the busy clinician to use on the hospital wards or in the ICU. This quick reference provides inpatient clinicians with critical information about the evaluation and management of every common medical disorder encountered in the hospital, including the most common conditions encountered in the ICU. This user-friendly pocketbook is packed with tables and algorithms intended to quickly direct the busy clinician to an evidence-based approach to manage any common medical condition. The Tarascon Hospital Medicine Pocketbook is an essential guide for all practicing hospitalists, medical students, resident physicians and midlevel providers who work in the hospital setting. Important Notice: The digital edition of this book is missing some of the images or content found in the physical edition. Completely revised with new chapters and sections covering everything the health-care provider needs to

know when working with the older adult either at home or in nursing and long-term care facilities. Chapters cover factors affecting nutrition, nutrition and disease, nutritional assessment, dining challenges and regulatory compliance. This scientifically sound and practical resource for new and experienced nutrition professionals includes new forms, resources, the food guide pyramid for older adults and an index of tales. A unique pocket guide to the use of ultrasound at the point of care

Lately, there has been an enormous amount of interest in the use of ultrasound for both procedural and diagnostic guidance at the point of care. Although this type of instruction can be found in some textbooks, they are heavy, dense, and written for the classroom, not real-world clinical situations. Pocket Guide to POCUS is the portable, quick-hit alternative. Pocket Guide to POCUS provides trainees with the tips and reminders they may need at the point of care. Things such as what images to acquire, and how to get them, or a quick glance at pathology in comparison to a normal image. For learners at all levels, this pocket guide will hopefully reduce their fear of scanning, while preventing some of the more common pitfalls the authors have observed over their more than 50 cumulative years' experience. Each chapter of the book is divided into four sections: •Key Images•Acquisition Tips•Interpretation and Pitfalls•Examples of Pathology This information is conveniently located on cards that can be removed from the book and brought with you to the bedside. You can take notes on the cards, check off the scans that you've done, and of course, refer to them in order to provide your patients with the best care possible. All-new collection of magical stories from slapstick comedy to Gothic horror. "This easy to follow patient handbook provides the reader with an active self-treatment plan to resolve and manage back pain. First published in 1980, Treat Your Own Back has featured in many studies,

which over the years have proven its benefits and validity. Study results show that exercises taken from *Treat Your Own Back* can decrease back pain within a week, and in some cases actually prevent back pain. Long term results include reduced pain episodes and decreased severity of pain."--Back cover. The *Tarascon Internal Medicine & Critical Care Pocketbook, Fourth Edition* is designed as the ultimate portable reference for the busy Internal Medicine or ICU practitioner. This concise, organized pocket guide is packed with essential lists, figures, tables and algorithms providing instant reminders of hard-to-remember yet vitally important clinical information. An extensive pharmacology section gives fingertip access to critical drug prescribing information. The newly revised 4th edition contains dozens of new topics and drug listings as well as timely updates for most of the content and references. The *Tarascon Internal Medicine & Critical Care Pocketbook, Fourth Edition* is meticulously referenced and provides expert commentary on current academic controversies within the field. You will wonder how you ever practiced medicine without it! The *Model Rules of Professional Conduct* provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts. "The newly revised 3rd edition of the *Internal Medicine & Critical Care Pocketbook* is designed as the ultimate portable

reference for the busy Internal Medicine or ICU practitioner. This concise, organized pocket guide is packed with essential lists, figures, tables, and algorithms providing instant reminders of hard-to-remember yet vitally important clinical information. An extensive pharmacology section gives fingertip access to critical drug prescribing information. The Internal Medicine & Critical Care Pocketbook is meticulously referenced and provides expert commentary on current academic controversies within the field. You will wonder how you ever practiced medicine without it!" For use in schools and libraries only. An updated edition of a best-selling reference for younger adolescents shares practical, expert advice on topics ranging from hair care and healthy eating to menstruation and acne. Lilly loves everything about school, especially her cool teacher, Mr. Slinger. But when Lilly brings her purple plastic purse and its treasures to school and can't wait until sharing time, Mr. Slinger confiscates her prized possessions. Lilly's fury leads to revenge and then to remorse and she sets out to make amends. Lilly, the star of Chester's Way and Julius, the Baby of the World, is back. And this time she has her name in the title - something she's wanted all along. If you thought Lilly was funny before, you are in for a treat. So hurry up and start reading. Lilly can't wait for you to find out more about her. (Material adapted from The Pharmaceutical Approach to the Critically Ill Patient 3E C3392) Drug interactions/etc. Primary Care Organized according to the Nutrition Care Process, this guide provides assessment and intervention tools, sample PES statements and guidance on the RDN's scope of practice. Pharmacotherapy and nutrition support information, nutrition education topics, and advice on coordination of care are addressed. Covers care inside the hospital as well as in outpatient settings. Palm-sized bedside reference of life threatening or less-common clinical

problems. Concise, quick-reference format. Includes decision trees, charts, and diagrams. This companion to our bestselling book, *The Care & Keeping of You*, received its own all-new makeover! This updated interactive journal allows girls to record their moods, track their periods, and keep in touch with their overall health and well-being. Tips, quizzes, and checklists help girls understand and express what's happening to their bodies--and their feelings about it. 'Pocketbook of Emergency Care' is designed for use by the professional paramedic at the roadside. The book covers the immediate management of acute medical emergencies, major trauma, minor injuries and environmental problems, as well as covering the interaction with other emergency services and coping with major incidents. *Pocket Psychiatry*, a new addition to the *Pocket Notebook* series, is written by residents for residents. A resource for essential information, in a high-yield, easy-to-use format, designed to help students, trainees, and others navigate the initial psychiatric evaluation and management of the most commonly encountered psychiatric conditions. With an emphasis on evidence-based information, *Pocket Psychiatry*, provides a rare concise and accessible resource, for must-know information on hospital- and clinic-based psychiatric care – from history and physical exam to differential diagnosis testing to therapeutics – in the well known loose leaf pocket size format. Prepared by residents and attending physicians at Massachusetts General Hospital, this pocket-sized looseleaf is one of the best-selling references for medical students, interns, and residents on the wards and candidates reviewing for internal medicine board exams. In bulleted lists, tables, and algorithms, *Pocket Medicine* provides key clinical information about common problems in internal medicine, cardiology, pulmonary medicine, gastroenterology, nephrology, hematology-

oncology, infectious diseases, endocrinology, and rheumatology. This Fifth Edition is fully updated and includes a sixteen-page color insert with key and classic abnormal images. If you purchased a copy of Sabatine: Pocket Medicine 5e, ISBN 978-1-4511-8237-8, please make note of the following important correction on page 1-36: Oral anticoagulation ( Chest 2012;141: e531S; EHJ 2012;33:2719; Circ 2013;127:1916)- All valvular AF as stroke risk very high- Nonvalv. AF: stroke risk 4.5%/y; anticoag (R) 68% ? stroke; use a risk score to guide Rx: CHADS2: CHF (1 point), HTN (1), Age  $\geq$  75 y (1), DM (1), prior Stroke/TIA (2)CHA2DS2-VASc: adds 65-74 y (1)  $\geq$ 75 y (2), vasc dis. [MI, Ao plaque, or PAD (1)]; ? (1)score 32 (R) anticoag; score 1 (R) consider anticoag or ASA (? latter reasonable if risk factor age 65-74 y, vasc dis. or ?); antithrombotic Rx even if rhythm control [SCORE CORRECTED]- Rx options: factor Xa or direct thrombin inhib (non-valv only; no monitoring required) or warfarin (INR 2-3; w/ UFH bridge if high risk of stroke); if Pt refuses anticoag, consider ASA + clopi or, even less effective, ASA alone ( NEJM 2009;360:2066)Please make note of this correction in your copy of Sabatine: Pocket Medicine 5e immediately and contact LWW's Customer Service Department at 1.800.638.3030 or 1.301.223.2300 so that you may be issued a corrected page 1-36. You may also download a PDF of page 1-36 by clicking [HERE](#). All copies of Pocket Medicine, 5e with the ISBN: 978-1-4511-9378-7 include this correction.
