World Searches, Grades 4 - 6 Shirley Pearson, 2008-08-26 Take students in grades 4-6 on a field trip without leaving the classroom using Skills for Success World Searches. In this 128-page book, students tour Ecuador with an anaconda and view Mongolia through the eyes of Genghis Khan. This unique social studies resource presents 24 countries from around the world with facts, puzzles, maps, riddles, and comprehension questions. The book supports NCSS standards.

Energy Efficiency in Domestic Appliances and Lighting Paolo Bertoldi, 2023-05-20 This book contains peer-reviewed papers presented at the 10th International Conference on Energy Efficiency in Domestic Appliances and Lighting (EEDAL 19) held in Jinan, China, from 6-8 November 2019. Energy efficiency helps to mitigate CO₂ emissions and at the same time increases the security of energy supply. Energy efficiency is recognized as the cleanest, quickest, and cheapest energy source. Not only this, but energy efficiency brings several additional benefits for society and end users, such as lower energy costs, reduced local pollution, better outdoor and indoor air quality, etc. However, in some sectors, such as the residential sector, barriers to investments in energy efficiency remain. Legislation adopted in several jurisdictions (EU, Japan, USA, China, India, Australia, Brazil, etc.) helps in removing barriers and fosters investments in energy efficiency. These initiatives complement innovative financing schemes for energy efficiency, the provision of energy services by energy service companies, and different types of information programs. At the same time, progress in appliance technologies and in solid state lighting offer high levels of efficiency. LED lighting is an example. As with previous conferences in this series, EEDAL 19 provided a unique forum to discuss and debate the latest developments in energy and environmental impact of households, including appliances, lighting, heating, and cooling equipment, electronics, smart meters, consumer behavior, and policies and programs. EEDAL addressed non-technical issues such as consumer behavior, energy access in developing countries, and demand response.

Modeling Our World Michael Zeiler, 1999 Geographic data models are digital frameworks that describe the location and characteristics of things in the world around us. With a geographic information system, we can use these models as lenses to see, interpret, and analyze the infinite complexity of our natural and man-made environments. With the geodatabase, a new geographic data model introduced with ArcInfo 8, you can extend significantly the level of detail and range of accuracy with which you can model geographic reality in a database environment.

Global Business Strategy

Kazuyuki Motohashi,2015-03-25 This book presents theories and case studies for corporations in developed nations including Japan for designing strategies to maximize opportunities and minimize threats in business expansion into developing nations The case studies featured here focus on Asia including China and India and use examples of Japanese manufacturers Five case studies are provided including Hitachi Construction Machinery and Shiseido in China and Maruti Suzuki in India These cases facilitate the reader s understanding of the business environments in emerging economies This volume is especially recommended for business people responsible for international business development particularly in China and India In addition the book serves as a useful resource for students in graduate level courses in international management **Crop**
